

Eco-Cotton Blankets and Throws

2022-2023 Collections

The Lineage Botanica design team consists of artisan collaborators from the US and Eastern Europe. We produce organic, sustainably made, hand crafted luxury items for the home, whilst standing true to our B-corporation principals of transparency and ethical practices.

Our Signature Handwork is represented in most all our collections, be they singular one-of-a-kind collectables or limited-edition selections

Our Eco-Cotton blanket and throws are perfect for the bedroom, living areas, cozy nooks, or on the floor in front of the fire, our organic blankets are meant to be a household staple. They fit comfortably within Modern to Farmhouse style home interiors. Eclectic is our style guide, functional is our design solution, with everyone's well-being at the center of our intentions. Stay at home trends are the perfect pairing, cozy, relaxed and safe.

Care instructions: Eco-dry cleaning to keep the soft hand of the felted cotton is recommended. Custom orders are appreciated as we enjoy collaborations immensely.

Eco Cotton with machine stitching

Our superb quality cashmere soft felted organic cotton blankets are artisanal and sustainably made on semi-automated looms in the beautiful Rhodope Mountains of Bulgaria. Finished in a cold-water felting bath, a process that is unique to the makers.
