HOW TO MEASURE:

BUST

Take a loose measurement over the fullest part of your bust in inches, keeping the tape level around your body.

WAIST

Use the tape to circle your waist at your natural waistline, which is located above your belly button and below your rib cage

HIP

Place your feet together and measure around widest part of hips & behind.

The measurements shown on the size chart above are body measurements. Locate your body measurements on the size chart to determine which size you should purchase.

To get an accurate body measurement, always keep the measuring tape parallel to the floor. Wear undergarments only; do not measure over clothing.

Once you know your body measurements, consult this Size Chart to determine which size you should purchase.
