How will Brain Protex help me?

Brain-Protex with Huperzine is rich in potent antioxidants chosen for the brain and is especially recommended for people over 50 years of age. It contains Huperzine-A which is a purified alkaloid substance extracted from the Chinese club moss plant. It is a naturally extracted compound accredited with having a wide variety of cognitive nootropic health benefits and is considered an effective ingredient that helps to boost concentration and enhance mental clarity.

Huperzine A is known for enhancing learning capabilities, improving information retention and boosting concentration levels. Huperzine A is also known for improving overall mental clarity and function, age-related memory loss. This formula also includes the herb Ginkgo biloba in a blend of lycopene and alpha-lipoic acid, phosphatidylserine, choline, ethanolamine and inositol, along with antioxidant ingredients which help protect cells from oxidative stress (free radical damage).

Brain Power

Like the rest of our body, our brain changes as we age, and from around age 50, we might begin to notice that we're not quite as sharp as we used to be. Keeping an active mind, regular exercise and good nutrition all contribute to maintaining normal healthy brain function.

Is Brain Protex suitable for everyone?

Brain Protex is not suitable for those with an intolerance to Soya.
