Why do we need CoQ10?

CoQ10 is naturally produced by your body, but like a lot of things decreases with age. Low levels of CoQ10 have been linked to many health conditions, so it is important to supplement to maintain good levels of CoQ10.

What is CoQ10?

Coenzyme Q10 is required by virtually every cell in the human body to process energy. Cells use CoQ10 to perform a whole host of essential roles to maintain healthy bones, muscle, metabolism, and neurological function, and the highest levels can be found in the parts of the body that require high energy, such as muscles and the heart. This CoQ10 formula uses the ubiquinone form of CoQ10, which is used by the body in cellular energy and ATP metabolism. Each vegan capsule provides 100mg of CoQ10 (ubiquinone).
