How will Collagen Plus help me?

Our new formula is a combination of Marine Collagen, vitamins C & A, hyaluronic acid, Hebridean seaweed, and biotin.

As we age our ability to produce collagen declines and our existing collagen starts to break down. It's estimated that by the age of 40, we will have lost 20% of our existing collagen. Low levels of collagen can lead to weak immune systems and digestive issues. However, age is not the only factor that reduces our collagen levels. Other elements that can deplete our collagen levels include sun exposure, stress, pollution and lack of antioxidants.

Why choose a Marine Collagen?

Marine Collagen is a type 1 collagen which has the most efficient absorption of all the collagen types. It is also environmentally friendly, as it uses the parts of the fish which are usually thrown away.

Why choose your collagen over other collagen products I have seen?

There are lots of collagen products available. Some of the market leaders, however, will set you back over £50 a month, and don't even offer returns if you're not happy with the product! That doesn't fill customers with confidence. Lily & Loaf's Collagen Plus on the other hand costs under £9 per month and comes with a full 90-Day money back guarantee. We are confident that this gives you the time to start feeling the benefits of taking this product, and if you don't we are happy to give you your money back.
