How will Kelp & Hops Combination help me?

Kelp & Hops has been formulated to support healthy thyroid function, this product contains a unique blend of kelp plant, Irish moss plant, parsley herb, hops flowers and capsicum fruit. Kelp is the name given to a whole variety of seaweed, and it is often called a "herb from the sea". It is a wonderful source of iodine, an essential nutrient for healthy thyroid function.

Hops contain nutrients such as vitamin B6, which contributes to the normal regulation of hormonal activity and may also enhance iodine absorption. Parsley is a natural source of trace minerals and vitamins. Capsicum is rich in beta carotene, capsaicin, and a natural source of calcium, folate, magnesium, phosphorus and potassium. It contains vitamins A, as carotenoids, and vitamin C, which are natural antioxidants.

The Thyroid Gland

The thyroid gland is an endocrine gland in your neck. It makes two hormones that are secreted into the blood: thyroxine (T4) and triiodothyronine (T3). These hormones are necessary for all the cells in your body to work normally, such as your heart rate and body temperature. Increased levels of these hormones can cause unpleasant and potentially serious problems.
