A fresh, woody, slightly floral aroma that offers a tonic effect for calming and uplifting the mind, whilst relaxing and revitalising the body.

Petitgrain essential oil is derived by steam distillation from the fresh leaves and green twigs of the bitter orange tree (*Citrus aurantium*). Historically, in central and south America, and Mexico, decoctions of the leaves were used medicinally. Paraguay is by far the largest producer of petitgrain essential oil.

A tonic oil known for its calming, uplifting and centring effect, it has an affinity for soothing joints, muscles and troublesome skin, and has a tonic effect on dry skin and dull, lifeless hair. Petitgrain's toning action is effective for revitalising and energising body and mind and can be used effectively in massage to stimulate circulation and motivate a reduction in cellulite. Strengthening, calming and uplifting, helping to dispel panic and stress by strengthening the body whilst bringing about deep relaxation.

How to use essential oils

Massage – Both body and facial massage can benefit from the intoxicating aroma of essential oils. Always ensure that you add the essential oil to a carrier oil first, and never apply directly to your skin. A carrier oil, also known as base oil, is used to dilute essential oils before they applied to the skin.

Bathing – There is no better way to unwind than in an essential oil bath, calming oils like Lavender and Clary Sage are especially relaxing. Add 5-10 drops in a bath and disperse vigorously before entering the bath.

Steam inhalation – This is a really good way of helping to relieve blocked sinuses or congestion. Eucalyptus is one of the most popular oils for this. Fill a large bowl with hot (not boiling water), add 3-4 drops of your chosen oil then lean over the bowl placing a towel over your head and slowly

breathe in the until you start to feel relief.

Diffusers – There are many diffusers available, one of the most popular being an ultrasonic diffuser which uses water to create a fine mist. These are a great way of enjoying oils throughout the day in your home or office space. Citrus oils are particularly uplifting. Ideally leave your diffuser on for up to an hour at a time, leaving it off for a similar amount of time.

Cautions

Possible skin sensitivity - may cause skin sensitising or irritation. When applying citrus oils do not expose skin to direct sunlight or UV light for 72 hours. External use only. Do not use undiluted on the skin. Avoid contact with eyes, ears, mucous membranes, and sensitive areas. If you are pregnant, nursing, or using prescription medication, consult your Doctor or qualified health care practitioner before using essential oils. Not recommended for use on children under 12 years. Store in a cool dry place, out of reach and sight of children. Do not ingest essential oils. Never use undiluted.
