SKIN CARE • Do you really need all those lotions and potions, those armies of bottles and jars and pots and tubes that clutter up your bathroom counter? Linda Stephenson doesn't think so.

And to prove it, the Canadian former cosmetic executive with a background in botany and

chemistry has created a single-step skin-care system called Mereadesso Woman.

Mereadesso's star product, the Face + Neck Toning Gel, uses 16 botanical extracts, seven minerals, 20 antioxidants and a host of vitamins and enzymes to tone, firm, clarify and moisturize. It does everything except cleanse — that means no additional toners, serums,

night creams or other specialty products are needed.

Not only that, but it's suitable for all skin types, ethnicities and ages. And best of all, it feels utterly luxurious on the skin.

The Mereadesso Face + Neck Toning Gel retails for \$120 online at mereadasso.com.
