

# TORQUE<sup>USA</sup> TANK 270 LB (122 KG) TRACTION KIT

Six Rubber Grip 45 lb Weight Plates (three for each peg)

Spoked plate design allows locking cables to loop through and around frame keeping weight plates locked to TANK

Model number (270 lb Traction Kit)	XT270TK
Model number (Weight Plates)	Z4GP45 (Quantity 6)
Weight	270 lbs (122.5 kg)

The 270 lb Traction Kit includes six 45 lb weight plates. The kit allows facilities to equip TANK with the appropriate weight for traction on any surface. Cable locks (included with some kits) can be easily removed for TANK transportation.

Note: A TANK locking kit (XTLK) that includes two cable locks but no weight plates is also available. Spoked grip plates must be used.
