 SpraySmart

Decontaminator™

*A speciality liquid formulation tank
cleaner and Decontaminator*

5L

ACTIVE INGREDIENT: Contains propriety blends of surfactants, sequestrants and detergents.
Distributed in New Zealand by Sprayshop, Corner Jervois & Grey Streets, Dargaville | P 09 974 7516 | www.sprayshop.co.nz

Remarks	Use Rate
Decontamination and removal of pesticide deposits, including sulfonyleurea, all emulsifiable concentrates, and all other surfactant and oil based formulations	600 mls
Immediately after spraying as a general clean-up or all equipment, including nozzles, strainers, filters and hand guns apply Decontaminator to remove all residues	50mls
Major tank clean downs. Completely fill the tank or vat with water, add the appropriate amount of SpraySmart Decontaminator and leave for a minimum of 24 hours. Agitate the water if possible prior to flushing or draining the residue.	500mls

SpraySmart Decontaminator is a mixture of powerful detergents, specifically designed to meet the demands of cleaning modern sprayers. Small amounts of pesticides, which are safe to one crop may be seriously damaging to another.

Frequent use of sprayers and changes of pesticide type means residues and contamination are a real threat to crop safety.

SpraySmart Decontaminator leaves a protective film to prevent corrosion during storage. Even if equipment is not subject to corrosion, the removal of minerals deposited by water can keep sprayers working longer.

SpraySmart Decontaminator may be used to remove residues when changing from one pesticide to another; to remove residues of sulfonyl urea herbicides (metsulfuron and chlorsulfuron); to remove rust and hard water scale; for routine cleaning or decontamination of spray machinery; and for removal of stubborn stains on sprayer tanks and other machinery.

After following the cleaning process above, the tank and all washed equipment should be rinsed clean with water and hoses and booms flushed through. The tank of vat should be drained completely and the rinsate disposed of as per the instructions.

CONDITIONS OF SALE CAUTION: READ THIS NOTICE BEFORE OPENING THE CONTAINER. IF YOU OPEN THIS CONTAINER YOU WILL BE DEEMED TO HAVE ACCEPTED THE CONDITIONS BELOW.

The results of this product may be affected by factors beyond Sprayshop control, including mixing, use, climatic conditions, time of application, crop or crop stage and the possible development of resistance to the active ingredient, even though the product is reasonably fit for the purposes stated in this label and even though label directions are followed. Sprayshop will replace, free of charge, any product which is found to have a manufacturing defect. To the extent permitted to law, all other warranties, guarantees, representations and conditions, whether expressed or implied by law, trade, custom or otherwise are expressly excluded. A small trial is recommended. When you use this product, you agree that neither Sprayshop nor any manufacturer of any component of the product will be liable for any damage, injury, or loss including consequential loss which arises in any way from the storage, handling, or use of the product. The exclusion of liability includes loss caused by negligent acts or omissions of Sprayshop or any supplier or manufacturer of the product or any of their employees and agents.

When using wear protective clothing such as goggles or face shield, impervious gloves, overalls and boots. Remove protective clothing and wash hands and face thoroughly before meals and after work.

EQUIPMENT: Apply using well maintained and accurately calibrated equipment.

DISPOSAL: Triple rinse empty container and add rinsate to the spray tank. Recycle empty container. Otherwise crush and bury in a suitable landfill. Dispose of product only by using according to the label.

FIRST AID: If swallowed do NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If medical advice is needed: Have product container or label at hand. If skin or eye contact occurs remove contaminated clothing and flush skin or eyes with running water.

SPILLAGE: Exclude non-essential people from the area. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material. Dispose of waste safely.

TRANSPORT: Not a dangerous goods. **MIXING:** See above.

HAZARD CLASSIFICATION: Not classified.

HANDLING PRECAUTIONS

STORAGE: Store in original container tightly closed and in a dry, cool area away from foodstuffs. Stores containing 1000 litres require secondary containment and signage and more than 1000 litres require emergency response plans.

PERSONAL PROTECTION: Avoid skin and eye contact and inhalation of spray mist.

Approved pursuant to the HSNO Act 1996, Approval Code HSR002503.

See www.epa.govt.nz for approval controls.
