Nordic Seaweed Extract

*Suitable for pasture,
crops and horticulture.*

2kg

Harvested from the cold Northern Hemisphere waters *Ascophyllum nodosum* is considered to be the Rolls Royce of seaweeds. The cold composting process retains all of the natural attributes of the kelp including 70 minerals, 17 amino acids, 4 natural growth promoters, chelating agents and complex sugars.

ACTIVE INGREDIENT: Contains concentrated extract of the seaweed species *Ascophyllum Nodosum* in the form of a water-soluble flake.

Nordic Seaweed Extract

A natural bio-activator to stimulate optimum microbial activity in the soil, which helps break down organic matter and make it more readily available to plants.

Suitable for pasture, crops and horticulture.

*Contains concentrated extract of the seaweed species **Ascophyllum nodosum** in the form of a water-soluble flake.*

Typical Analysis

Nitrogen	610ppm	Zinc	3.1ppm
Phosphorus	180ppm	Boron	13ppm
Potassium	200ppm	Molybdenum	5ppm
Calcium	1900ppm	Cobalt	0.5ppm
Magnesium	1500ppm	Sodium	0.57ppm
Sulphur	1600ppm	Chloride	0.48ppm
Iron	12ppm	Tri Indole acetic acid	150mg/L
Copper	0.2ppm	Cytokins	12mcg/L

SITUATION	APPLICATION RATE
Boom or Rosette	1-2kg of Seaweed Extract Flake per hectare in 100-200 litres of water.
Hand Gun (for smaller areas)	10-20g per 100 square metres in about 5 litres of water
Direct to soil	Can be applied by most types of spray units, irrigators etc. and can be applied by sprinkle, jet and microjet, drip or flood. Just ensure that at least one part Seaweed Extract Flake is dissolved in a minimum of 5 parts water prior to further dilution or addition of other products.
Root soaking	Before planting you can soak the roots in a solution of 25-50g Seaweed Extract Flake to 100 litres of water. This will encourage root growth when transplanting.

CONDITIONS OF SALE CAUTION: READ THIS NOTICE BEFORE OPENING THE CONTAINER. IF YOU OPEN THIS CONTAINER YOU WILL BE DEEMED TO HAVE ACCEPTED THE CONDITIONS BELOW.

The results of this product may be affected by factors beyond SprayShop control, including mixing, use, climatic conditions, time of application, crop or crop stage and the possible development of resistance to the active ingredient, even though the product is reasonably fit for the purposes stated in this label and even though label directions are followed. SprayShop will

replace, free of charge, any product which is found to have a manufacturing defect. To the extent permitted to law, all other warranties, guarantees, representations and conditions, whether expressed or implied by law, trade, custom or otherwise are expressly excluded. A small trial is recommended. When you use this product, you agree that neither SprayShop nor any

manufacturer of any component of the product will be liable for any damage, injury, or loss including consequential loss which arises in any way from the storage, handling, or use of the product. The exclusion of liability includes loss caused by negligent acts or omissions of SprayShop or any supplier or manufacturer of the product or any of their employees and agents.

HAZARD CLASSIFICATION: Not classified.

TOXICITY: This product is non-hazardous.

HANDLING PRECAUTIONS

STORAGE: Store in a cool dry place, in an airtight container.

PERSONAL PROTECTION: Avoid skin and eye contact and inhalation of spray mist. When using wear protective clothing such as goggles or face shield, impervious gloves, overalls and boots. Remove protective clothing and wash hands and face thoroughly before meals and after work.

EQUIPMENT: Apply using well maintained and accurately calibrated equipment.

DISPOSAL: Triple rinse empty container and add rinseate to the spray tank. Recycle empty container. Otherwise crush and bury in a suitable landfill. Dispose of product only by using according to the label.

FIRST AID: If swallowed do NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If medical

advice is needed: Have product container or label at hand. If skin or eye contact occurs remove contaminated clothing and flush skin or eyes with running water.

SPILLAGE: Exclude non-essential people from the area. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material. Dispose of waste safely.

TRANSPORT: Not a dangerous goods.

MIXING: See above.

COMPATIBILITY: Seaweed Extract Flake is compatible with most herbicides, fungicides, insecticides, fertilisers and adjuvants. With all products we recommend testing a small quantity of all products in a jar or similar container to confirm this.

In the case of low pH mixes it may be necessary to adjust the pH back to 6-7. If using products containing calcium make sure calcium is added after the Seaweed. There is no withholding period for stock as Seaweed is also used as an animal health supplement.
