Result Spray Oil™

- ✓ *Improvement in rainfastness & chemical update*
- ✓ *Improvement of droplet spread*
- ✓ *Reduction of drift & evaporation*
- ✓ *Reduction in ultra-violet breakdown*

5L

ACTIVE INGREDIENT: Contains 900g/L Vegetable Oil.

Distributed in New Zealand by Sprayshop, Corner Jervois & Grey Streets, Dargaville | P 09 974 7516 | www.sprayshop.co.nz

Result Spray Oil improves wetting and spray coverage by making the droplets more uniform in size which reduces drift and the effects of evaporation.

Result Spray Oil can also be used for encapsulation of pesticides increasing rainfastness and reducing the effects of weather volatilisation.

CROP TOLERANCE: Although **Result Spray Oil** will not alter the nature of the pesticide, it can improve the efficiency of deposition and plant uptake.

ENCAPSULATION: **Result Spray Oil** encapsulates the pesticide molecule protecting it from the outside elements such as rain, evaporation, volatilisation, photo-decomposition and spray drift. **Result Spray Oil** acts like a protective seal. For any application requiring encapsulation use **Result Spray Oil** at half the rate of your pesticide.

GENERAL INSTRUCTIONS - MIXING:

- Result Spray Oil** may be pre-mixed with the pesticide before adding to the water in the spray tank (see below for more details).
- One third fill spray tank with water and add the emulsion of pesticide **Result Spray Oil**.
- Complete by filling up the spray tank with water maintaining constant agitation.

Rate/100 litres Spray Solution

Broad-acre & Aerial Spraying	500ml/100L
Handgun Spraying	200 - 500ml
Knapsack	30 - 50ml/15L

Pre-mixing liquids:

Put the calculated quantity of Result Spray Oil in a mixing container, add the pesticide and mix until an emulsion is formed.

Pre-mixing wettable powders or water dispersible granules:

Put the pesticide in to a mixing container, add as little water as possible until a paste is formed. Then add the correct quantity of **Result Spray Oil** and mix until an emulsion is formed.

Pre-mixing tank mixes of more than one Pesticide:

If there is more than one pesticide in the tank mix, ensure that each pesticide is separately mixed with the **Result Spray Oil** until an emulsion is formed.

CONDITIONS OF SALE CAUTION: READ THIS NOTICE BEFORE OPENING THE CONTAINER. IF YOU OPEN THIS CONTAINER YOU WILL BE DEEMED TO HAVE ACCEPTED THE CONDITIONS BELOW.

The results of this product may be affected by factors beyond Sprayshop control, including mixing use, climatic conditions, time of application, crop or crop stage and the possible development of resistance to the active ingredient, even though the product is reasonably fit for the purposes stated in this label and even though label directions are followed. Sprayshop will replace, free of charge, any product which is found to have a manufacturing defect. To the extent permitted to law, all other warranties, guarantees, representations and conditions, whether expressed or implied by law, trade, custom or otherwise are expressly excluded. A small trial is recommended. When you use this product, you agree that neither Sprayshop nor any manufacturer of any component of the product will be liable for any damage, injury, or loss including consequential loss which arises in any way from the storage, handling, or use of the product. The exclusion of liability includes loss caused by negligent acts or omissions of Sprayshop or any supplier or manufacturer of the product or any of their employees and agents.

HAZARD CLASSIFICATION: Not classified.

HANDLING PRECAUTIONS

STORAGE: Store in original container tightly closed and in a dry, cool area away from foodstuffs. Stores containing 1000 litres require secondary containment and signage and more than 1000 litres require emergency response plans.

PERSONAL PROTECTION: Avoid skin and eye contact and inhalation of spray mist.

When using wear protective clothing such as goggles or face shield, impervious gloves, overalls and boots. Remove protective clothing and wash hands and face thoroughly before meals and after work.

EQUIPMENT: Apply using well maintained and accurately calibrated equipment.

DISPOSAL: Triple rinse empty container and add rinseate to the spray tank. Recycle empty container. Otherwise crush and bury in a suitable landfill. Dispose of product only by using according to the label.

FIRST AID: If swallowed do NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If medical advice is needed: Have product container or label at hand. If skin or eye contact occurs remove contaminated clothing and flush skin or eyes with running water.

SPILLAGE: Exclude non-essential people from the area. Wear appropriate protective clothing and prevent material from entering waterways. Absorb spills with inert material. Dispose of waste safely.

TRANSPORT: Not a dangerous goods

MIXING: See 2, above.

Approved pursuant to the HSNO Act 1996,
Approval Code HSR002503.
See www.epa.govt.nz for approval controls.
