

Weedenz™ Rapid

Organic WeedKiller Concentrate

PRODUCT ATTRIBUTES

Active Ingredient: Contains 700 g/litre of plant derived fatty acids in the form of an emulsifiable concentrate

Weedenz Rapid controls weeds biologically to help grow quality produce without the use of synthetic pesticides.

Weedenz Rapid is a fast acting weedkiller - weeds begin to shrivel and die within a few hours of application. Weedenz Rapid has direct contact action on exposed foliage and works best on seedling and actively growing annual weeds.

KEY BENEFITS

- BioGro certified input for use in organic production
- Rapid knockdown
- Broad Spectrum weed control
- New Zealand's most effective weedkiller for use in organic production

Always read the label completely before use.

AGRISCIENCE

PLEASE READ THE LABEL COMPLETELY BEFORE USE

DANGER: Concentrate can cause skin irritation and serious eye damage from direct contact. Spillage of concentrate into waterways can be harmful to aquatic life. Spillage of concentrate onto smooth floors can result in slips.

PRECAUTIONS: Keep out of reach of children. Store in the original container. Avoid direct contact of concentrate with eyes and skin, and avoid breathing in the spray mist. When mixing and spraying, wear waterproof gloves and eye protection. Wash hands after use. Wash any splashed clothing before wearing again.

FIRST AID: If medical advice is needed, have product container or label at hand.

If on Skin: Wash with plenty of soap and water. If skin irritation persists seek medical advice.

If in Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if easy to do so. Continue rinsing. Immediately call the POISON CENTRE on **0800 POISON (0800 764 766)** or a Doctor.

DISPOSAL: Dispose of this product by using it in accordance with this label. Dispose of the container after triple rinsing and adding the wash to the spray mix.

GENERAL INFORMATION: Weedenz Rapid is a fast acting weedkiller – weeds begin to shrivel and die within a few hours of application. Weedenz Rapid has direct contact action on exposed foliage, and works best on seedling and actively growing annual weeds. Perennial and other well established weeds with extensive roots may grow back, and a repeat application 3 – 5 days later will assist control. Established perennial weeds are not well controlled. Weedenz Rapid is completely biodegradable, and leaves no residue in the soil.

When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of product that is older than this.

Apply this product carefully. Avoid contact with desirable plants, trees, lawns, etc. If accidental spraying occurs, hose off immediately.

DIRECTIONS FOR USE: Mix 70 mL of Weedenz Rapid per 1 litre of clean water (7% solution). On harder to kill perennial weeds use 100 mL per 1 litre (10% solution). If spray solution is not used immediately, agitate contents before reuse. Spray weeds thoroughly ensuring that all leaves are wet. Best results are obtained in warm and sunny conditions. Do not spray in windy weather.
