DEQ tracking number PC# 1997-4045

Dear Mr. Elattar:

This correspondence is in regard to the Department of Environmental Quality (DEQ), Piedmont Regional Office site investigation for the referenced site.

Based on our review of all reports, the DEQ believes petroleum contamination levels at this site do not warrant further assessment or corrective action. Should environmental problems develop in the future which the DEQ determines are related to this release, additional investigation and corrective action may be required in accordance with the applicable State and Federal regulations.

All monitoring wells installed in accordance with this investigation should be properly abandoned to preclude the possibility of surficial contamination reaching ground water via these conduits. Please contact the assigned caseworker for this site for the proper well abandonment procedure and reimbursement information before undertaking this activity.

If your clean-up qualified for reimbursement of reasonable and necessary costs, your claims must be submitted within two years of the date of this letter in order to be eligible for reimbursement as stipulated by Virginia Law.

The DEQ thanks you for your efforts and cooperation in cleaning up this site. If you require additional information, please contact this office at (804) 527-5020.

Sincerely,

Robyne Bridgman
Remediation Regional Manager
