Tasks

A book about common physical and or mental health topics. Use information from IWR health section. Do art work as well as factual information on topics like depression, anxiety and other known conditions to make others aware. Include strategies to help others. Check out websites from IWR.

The topics should be made up of creative factual posters/artwork related to the topic. Websites should be signposted too. You can work independently or in a small group/pair.

Alternatively take a agreed topic from the website and do a video or videos on the topics to show your understanding and help others by making the site more accessible.

Planning and creating the book

Once you agree a topic, we will talk it though in a Zoom. Then you will do a mind map and send it to us, showing your planning and main themes. We will then book a Zoom to talk it through.

Then you will try to create your book/story. Then email it to us for checking.

Then you will use the software/website to create the actual book.
