TROUBLESHOOTING

Malfunction	Reason	Solution
Stop Working	The power plug doesn't connect to the power supply.	Please kindly check whether you use the machine with related supply voltage or Plug in again correctly.
	Power supply voltage is too low or no power supply.	Please kindly find a related supply voltage to use it .
	The machine is under overheating protection, because the machine is over the continues working capacity.	Wait for the machine to cool down naturally.
	The thickness of paper is too thin.	To make the paper thicker ,You can add more papers or fold the paper.
	The machine is overloading, because the paper is over machine Max shredding quantities.	Reduce paper quantity with an acceptable amount and place the paper into the feeding opening of shredder again.
	Damage of power cable.	Please replace the power cable with the same parameters by professional person or contact with our customer service.
	The basket is full.	Empty the basket.
	Defective of machine.	Please kindly contact with our customer service.
Jam	Paper jam.	Please kindly use the function of "Reverse" to take out the excess paper.
Keep Running	Paper dust and other foreign objects cover the sensor. The location of sensor is in the shredder's feeding opening look like glass beads or marbles.	1.Please unplug first and use soft cloth or cotton swab to clean the foreign objects without any cleaner or water . 2.If there are some paper scraps around the sensor area ,please kindly use cotton swab or needle nosed pliers to take out the paper scraps . CAUTION :please don't overexert and use Sharp tools to clean or poke the sensor to avoid damaging the sensor.
Loud Noise	The shredder is placed on an unsuitable place.	Change the location.

If the above answers can not solve your problems, please kindly contact with our customer service team via email customer-care@bonsaii.com
