

INTRODUCTION

Getting to know each other

Pen Pal Guide

GENERAL GUIDELINES

The templates below are mere suggestions.
Please feel free to adapt or be creative and invent your own way of presenting yourself.
You can use one or several. The idea is to choose the one that speaks to you.

YOU DO NOT NEED TO FILL THEM ALL OUT

TEMPLATES

Present your family

We have created several templates for different families. You can add each member's name/nickname, age and/or a photo/drawing. If none of the templates suit you, please send us an email (info@charlottesydimby.com) and we will create a custom made one just for you.

Present your pet

If you wish to present your pet, add a picture in the left box and fill in the right hand box. If you have more than one pet, you can use a page per pet.

A little bit about me

We have created three types of presentations for you to introduce yourself.
If you signed up as a family you can make one per member or create your very own family presentation.

The **first presentation** is intended for children able to write but adults can fill it in for young ones.
The **second one** is best suited to little ones or for those who wish to be more creative. It can be filled in with photos, drawings or anything you can think of.

The third one is for older children or adults who wish to write a proper letter by themselves.

I would love to know

Ask your Pen Pal questions. It could be about their favourite time of the year, favourite sport, their school...

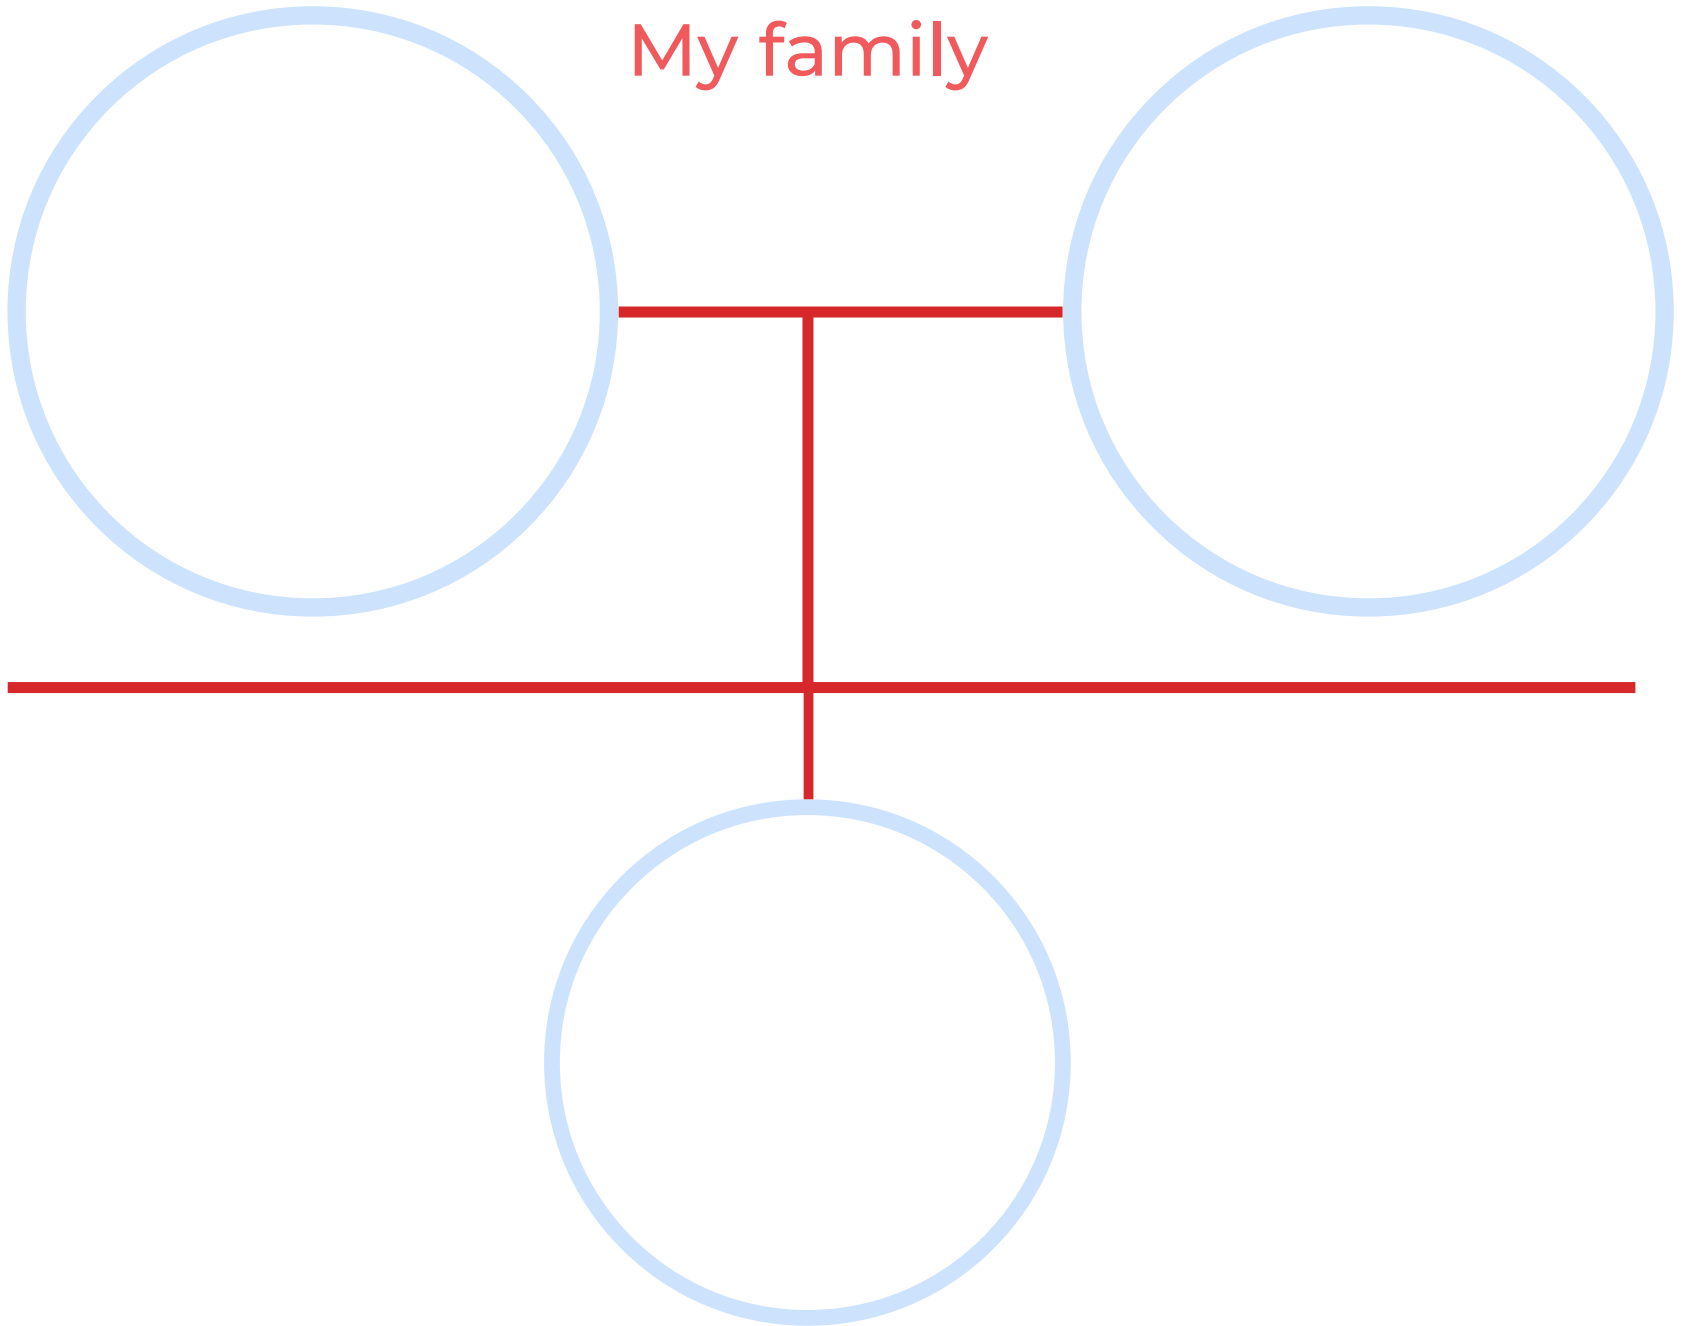

HOW TO USE THE TEMPLATES

Take your time and enjoy! You don't have to answer all the templates and can send them to your Pen Pal at your own pace.

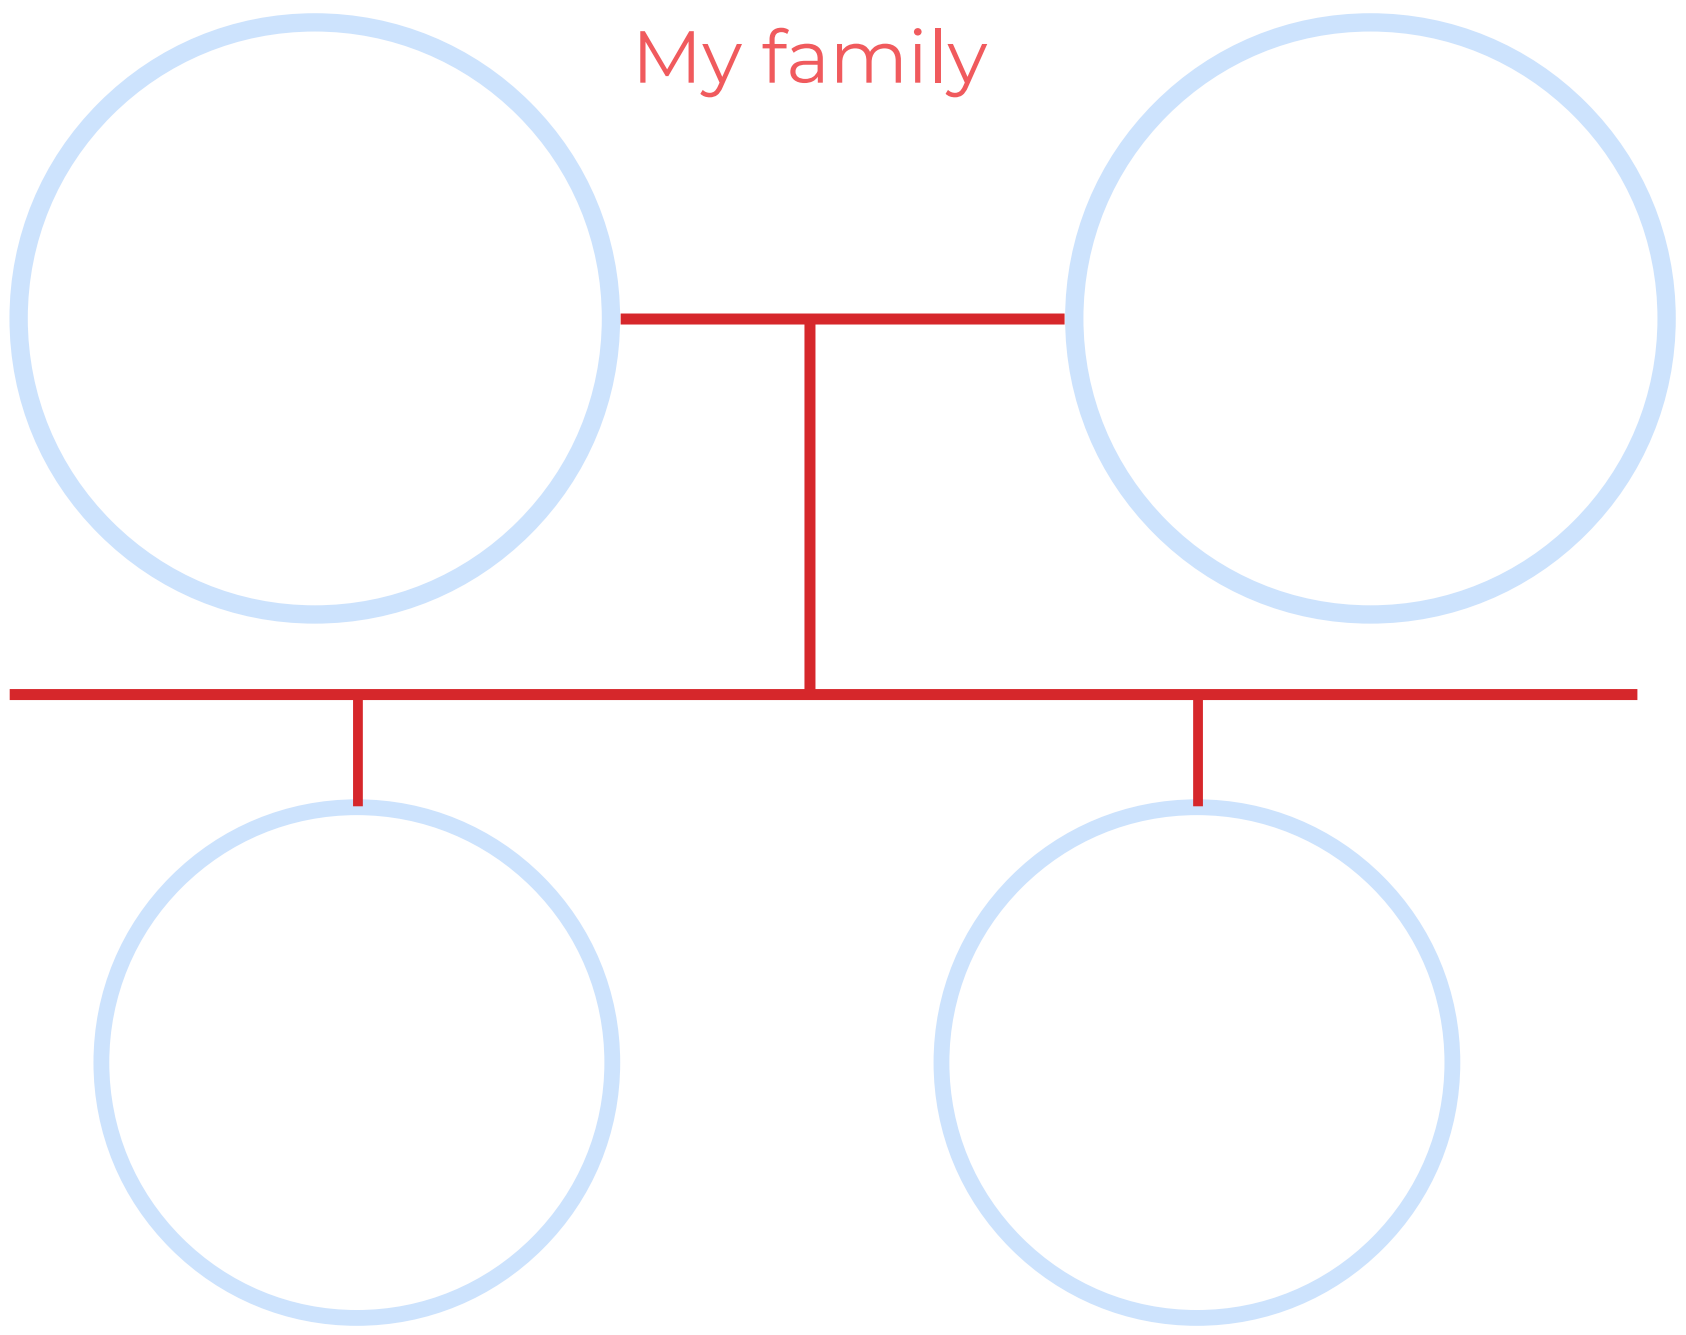

- 1 - Download the PDF document
- 2 - Print the pages which you wish to fill in
- 3 - Picture or scan the finished version
- 4 - For scans we recommend the free mobile app [Evernote Scannable](#)
- 5 - Send your presentation by email to your Pen Pal
