②		Self-Tapping Screws (M5 x 40mm)	3
③		L-shape Metal Brackets	4
④		Dresser Restraint Strap	2
⑤		Plastic Anchor (5F: Ø8x 40mm)	2
⑥		Screwdriver (not provided)	1
⑦		Power Drill (not provided)	1
⑧		Hammer (not provided)	1

If any contents in the box are missing, please contact OkiOki support at **1-833-OKIOKI1**.

Assembly Preparation

Before beginning assembly:

This Dresser has multiple parts and may require up to 30 minutes to assemble. To give you an overview of the Dresser parts, we've provided the above picture to put the various parts in perspective. Please read through the instructions below to familiarize yourself before assembly.

Now, for the fun part!

Please follow the below steps carefully to ensure a proper assembly.

Step 1

- Unpack and place all parts on a clean, non-marring surface.
- To avoid any possible risk to the user, please remove the Drawers from the Dresser.

Step 2

- Step 2.1: Using a Phillips Screwdriver (not provided), take the Handle, which can be found in the Drawer.
- Step 2.2: To affix the Drawer Handle, align the positioning of the Bolts and Handles to the mounting positions.
- Insert the Bolts through the mounting position and affix the Handle by using a Phillips Screwdriver (not provided), as shown in the picture.

Step 3

- Put the Drawers into the Dresser.
- Ensure that all Bolts and Handles are fully driven in and locked.
- The Dresser is now ready to be used.
- **Caution: This Dresser can only be used on a flat, level surface.**

Cabinet Restraint Device Installation Instructions

Serious or fatal crushing injuries can occur from tipping furniture.

To help prevent tip-over ALWAYS secure this furniture to the wall using a Dresser Restraint Device.

See product instructions for more ways to help prevent furniture tip-overs.

DO NOT CLIMB

Dresser Restraint Device Installation

To secure the Dresser against the wall, affix 2 pcs Metal Brackets (③) to the wall and 2 pcs Metal Brackets (③) to the product, use the Dresser Restraint Strap (④) to connect the Metal Brackets (③) on the wall and the Dresser. Find details as below:

A: Turn the Dresser outwards, as shown above.

Then fix one Metal Bracket (③) to the back of the Dresser with the 2.0 cm Self-Tapping Screw (①) and a Screwdriver (⑥) (not provided). The distance of the screw mounting position to the two edges is about 1”.

Repeat this step to fix another Metal Bracket (③) on the product, as shown above.

B: Determine the location where the screws should be inserted into the wall. Mark the point at the same height on the wall as the L-shaped Metal Bracket (③) on the Dresser. Here are two helpful ways to find these points:

1. Move the Dresser back to the wall - make sure these points on the wall and on the Dresser are at the same height.
2. Using a ruler, measure the height from the floor to the Metal Bracket (③) on the Dresser and mark the wall at the same height. Use a Power Drill (⑦) (not provided) to make a hole in the wall, then insert a Plastic Anchor (⑤) into the hole using a Hammer (⑧) (not provided).

Repeat this step to affix the other Plastic Anchor (⑤) into the wall as shown above.

C: Affix the L-shaped Metal Bracket (③) to the back of the Dresser. (Caution: The space between the Dresser Restraint Strap (④) and the Metal Brackets (③) on the product and the wall a maximum 3.5".) Then, affix one L-shaped Metal Bracket (③) to the hole in the wall using the 5cm Self Tapping Screws (②) and the Screwdriver (⑥). Repeat this step to affix the other Metal Bracket (③) on the wall as shown above.

C: Move the Dresser against the wall. Then, pull the Dresser Restraint Straps (④) through the two Metal Brackets (③) one by one, and lock the Dresser Restraint Strap (④) tightly, as shown above. **The Dresser Restraint Device is now installed and your Dresser is ready for use.**

Care & Maintenance for your new Coastal 5 Drawer Dresser

Children should not climb or jump on the furniture.

Do not put hot items directly on furniture surface.

Do not clean furniture with harsh cleansers or polish.

Do not place furniture near heating or cooling vents.

Not for commercial use. For residential use only.

Stains may be removed with mild soap solution and damp cloth.

Dust and absorb spills using a clean, non-colored, lint-free cloth.

Congrats on a job well done.

**Congratulations on completing your new
OkiOki Coastal 5 Drawer Dresser!**

While we know this was no small feat, we bet it was also exhausting! If you're not feeling completely wiped out, here is some light reading material to get your best resting and nesting on.

Enjoy & rest easy.

The OkiOki Sleep Guide

A bedtime story

nce upon a time, there was a young boy with endless energy, who had trouble falling asleep at night.

He spent the first few years of his life in the Midwest, but his parents soon uprooted the family to New Zealand to care for aging grandparents. Without many friends, he found himself often running alone in the wilderness, amongst the tranquil yet vibrant landscape. In this new and unfamiliar land, he soon discovered that New Zealand actually had more sheep than people. He would often walk miles without seeing anyone, but couldn't walk 100 feet without seeing sheep. He would run around the sheep, roll under them, jump over them and spend hours frolicking amongst the friendly creatures. It became his favorite pastime. The sheep seemed to enjoy his companionship just as much, as their human counterpart could pivot quickly and run fast, proving a worthy playmate in the rolling hills. One sheep, in particular, would always playfully chase the boy halfway home, eventually turning around to rejoin the herd. He called him Swifty.

When the young boy returned home after a day of play, he would tell his parents and grandparents about his adventures with great enthusiasm. The boy jumped off the walls with exuberance, acting out his favorite moments of the escapades. The zeal with which he re-lived these moments made it seem like he loved retelling adventures as much as he loved living them.

As the rest of the household fell asleep, he would lie in bed, staring at the ceiling, his mind racing about what fun he'd have tomorrow. After weeks of restless nights, he realized that if he counted all of his sheep friends, who he identified by the hue and thickness of their respective fleeces, he could fall asleep more easily. This practice became his comforting method of dozing off each evening, counting the sheep, always starting with Swifty.

He would play all day and count sheep to sleep at night. One day, as the boy got ready to head home, Swifty was nowhere to be seen. The boy sprinted from the herd, and no sheep followed. This happened several days in a row, and Swifty's absence started to concern the boy.

He started to have trouble falling asleep. Weeks went by, then months. Maybe he wandered to another herd. Maybe Swifty found a better life elsewhere. Swifty was gone.

The boy would lay in bed at night, staring restlessly at the ceiling. Noticing that he was distraught, the boy's mother sat on the edge of the bed one night and asked why he could no longer fall asleep. He told her he missed Swifty. Counting sheep no longer comforted him and didn't calm him. His mother empathetically rubbed her hand through his hair, petting him repeatedly with maternal care. "OkiOki, okioki." She repeated this as he dozed off to sleep. *OkiOki*, the Maori word for rest, tranquility, and relaxation soothed the young boy. This ritual continued for years. The *OkiOki* tradition continued beyond the young boy, with his children, and his children's children.

**For generations, well-rested people
have depended on the lore of OkiOki.**

Sleep Facts

A list of fun and
surprising facts
about sleep.

- Only 21% of Americans get the recommended 7 to 8 hours of sleep each night.
- Humans are the only mammals that delay sleep.
- The average person falls asleep in 7 minutes.
- 60% of American adults experience sleep problems at some time.
- Insomnia is the most common sleep disorder.
- Women sleep more than men.
- One sleepless night affects your brain the same way as being drunk.
- When you're in REM sleep, your brain is almost as active as when you are awake.
- Got a problem? Sleep on it! REM sleep is proven to help creative problem-solving.
