

FELLOW®

MEET OPUS™

A get-to-know-you guide

ALL THE RIGHT PARTS

A SINGLE DOSE
LOAD BIN

Sized just right to maximize bean freshness. No scale? Flip the lid over for 20 and 40 gram measuring compartments or fill the lid to the top for 100 grams.

B GRIND
ADJUSTMENT
RING

Rotate to select grind size from fine (1) to coarse (11). 41 settings in all.

C 40 MM
STAINLESS STEEL
CONICAL BURRS

With unique cutting geometry and grind adjustment architecture, Opus's six blades precisely grind for espresso and brewed coffee.

D MAGNETICALLY
ALIGNED CATCH

Snaps beneath the chute to ensure grounds fall nice and neat.

E POWER BUTTON
WITH TIMED
AUTO STOP

Single short press to grind for 30 seconds, double short press for 60 seconds, and triple short press for 90 seconds. Long press to grind for a full 2 minutes. When finished, Opus turns itself off automatically.

PUT YOUR GRIND AT EASE

Who says you can't have it both ways? With Opus, it's more like 41! We've got a grind setting for every coffee you crave—from the finest espresso to the smoothest cold brew... and everything in between. It's easy to use, easy to clean, and even easier on the eyes. With Opus you can:

Grind with precision for every purpose—from a single shot to a 12-cup pot.

Minimize mess with our anti-static technology and magnetically aligned catch.

Grind quickly and quietly.
More delicious coffee with way less noise.

Leave no bean behind thanks to low grind retention.

Clean and calibrate easily.
No tools required.

No one ever says I have a one track grind.

GRIND SETTINGS

For darker roasts, select a higher number within the recommended grind range.

RATIO RECOMMENDATIONS

Coffee dosage guide

- 18 grams → Espresso shot
- 20 grams → Fellow Prismo AeroPress® Attachment
- 25 grams → AeroPress®
- 20 grams → Pour-over for one
- 40 grams → Pour-overs for two
- 60 grams → French press for 3
- 80 grams → Cold brew
- 100 grams → 12-cup batch brew

Coffee-to-water

- 1:2 → Espresso
- 1:2.5 → Fellow Prismo AeroPress® Attachment
- 1:8 → Cold brew
- 1:14 → French press
- 1:15 → AeroPress®
- 1:16 → Pour-over

TIPS + TRICKS

CLEAN AND CALIBRATE WITH CARE

Treat your Opus right at
Fellowproducts.com/pages/gear-guides

- ① Don't store beans in Opus. Pour beans into the load bin right before grinding. The fresher the coffee, the better the flavor.
- ② Dial in your espresso by using the inner ring to make granular grind adjustments. Visit the gear guide to watch step-by-step instructions: Fellowproducts.com/pages/gear-guide-opus.
- ③ If your brew tastes sour, go a few clicks finer.
If your brew tastes bitter, try using a coarser grind.
- ④ Expand your grind at Fellowproducts.com/pages/gear-guides. Find recipes, new brewing methods, and tips from our team of coffee experts.
- ⑤ Time your grind! Just press the power button for different timed grinds:
 - Single short press for 30 seconds
 - Double short press for 60 seconds
 - Triple short press for 90 seconds
 - Press and hold for 1 second to grind for 2 minutesTo stop Opus before the timer expires, simply press the power button during operation. Otherwise, Opus will stop automatically.
