

# HOW TO USE

# ON YOUR PIGS

**CRAK** is a flavor enhancing powder that can be used dry, or wet, and is completely water soluble.

## IDEAL TO USE:

- At shows to keep feed consumption up.
- At shows to keep them drinking.
- For picturing/videoing.
- At home when feed consumption wanes.
- When feed consumption is maxed out but you want to give more calories. This is an excellent alternative to fat.

**ONE FULL, LEVEL SCOOP = 2 OZ**

**(SCOOP ONLY COMES IN 3 LB CONTAINER)**

## HOW TO USE IN PIG'S FEED:

Mix 4 oz (2 enclosed scoops) into each feeding. For picky eaters, it may help to leave **CRAK** on top of feed on Day 1, then mix into feed on proceeding days. For best (and prolonged) results, use **CRAK** for at least 3 consecutive days.

## HOW TO USE IN A PIG'S WATER:

Mix 4 oz (2 enclosed scoops) with 16 oz of water. Shake well. Solution will not separate after mixed. You may use this mix to slop feed, or add to small amounts of water to get them drinking. Use mix within 24 hours after mixed
