Safety Instructions

- This sound bar was especially developed for LED/LCD/Plasma televisions. It should not be used with CRT (Cathode Ray Tube) televisions in order to avoid image interference.
- Do not place this unit close to a strong magnetic field or the unit on an amplifier or receiver.
- Do not place the boAt AAVANTE Bar 1180 on any unstable surfaces. The speaker may topple over, causing serious damage either to persons, the unit or both.
- Do not take the SoundBar near water, such as bathtubs etc… and any areas that contain a high amount of moisture. Never use the device unsupervised! Switch off the device whenever you are not using it, even if only for a short while
- Please ensure that there is 20cm of space free above the Soundbar and 5 cm on either side.
- Likewise, please keep the SoundBar away from heat sources such as radiators, heat registers, stoves or other devices that produce heat.
- Ensure that the SoundBar is being inserted into a power supply outlet of the same voltage. There is also a risk of someone tripping over or pinching the wires once they have plugged in. Please make sure that the plug points are strategically placed as to avoid these circumstances.
- Clean the SoundBar with only a soft damp cloth and make sure to unplug the unit from the wall socket before starting.
- If any servicing of the unit is required, please do not dissemble the SoundBar yourself. All maintenance must be done ONLY a service provider or from a manufacturer. Doing so on your own will automatically make the warranty null and void.
- Do not replace any of the parts on your own, and do NOT use parts that are not factory authorized. It can result in fires, electrical shock or other hazards.
