FAQ

Search for the app to connect keeps failing

1. Keep the boAt Wearables app updated to the latest version
 2. Close all the programs on the watch → Stop and restart Bluetooth and GPS → Connect again
 3. Check and enable notification functions of your phone and keep the phone and watch in close contact.
- Note: Make sure your phone system meets Android 7.0 and above and iOS 12.0 and above.

My Watch Prima Celestial is receiving no alerts, texts, or phone calls.

Make sure smart reminders on the app are on and synced to Prima Celestial. Also make sure your notification center of the phone is displaying messages. Only then will your smartwatch also display those notifications. Make sure app is running in the background and battery optimization feature on the phone is disabled.

My Bluetooth keeps getting disconnected

1. Make sure there is not more than 7m distance between Bluetooth on the phone & the watch.
2. There is no obstacle in between the watch and the phone.
3. Make sure the app is running in background

Which functions of Prima Celestial need Bluetooth to work?

Call & Text Notifications, Find My Phone, music control, camera control, weather forecast, cloud and custom watch faces and Bluetooth calling need Bluetooth connectivity to work.

Sleep Monitor

Tap on the icon to review the sleep data of the previous night. Once the asleep criteria are met, your smartwatch will start recording from 8 pm at night to 10 am in the morning the next day. Once you lie down and watch detects no movement for 30 minutes, it will start recording, and will stop recording if it detects excessive movement. You can check the data on the app only after the awake criteria is met. You can also track sleep scores on the watch or through the boAt Wearables app.

Note:

*For accurate sleep data recording, the asleep criteria have to be met, including limited movement, wrist positions and angles, and more.
*The awake criteria will be met only after it records some noticeable movement
