

**boat**  
**PRIMA CURV**

Thank you for choosing BOAT. Here's how to get the most out of your smartwatch. Please refer to the instructions for more details. For more information, please visit our website: [www.boat.com](http://www.boat.com)

**Charging the Watch**

The charging cable is included in the package. To charge the watch, connect the charging cable to the watch and the power source. The watch will be charged automatically.

**Turning the Watch On/Off**

To turn the watch on, press the power button. To turn the watch off, press and hold the power button for 10 seconds.

**CONNECTING TO THE APP**

Download the BOAT app from the Google Play Store or the Apple App Store. The app is available for Android and iOS.

**SYNCING YOUR SMARTWATCH TO THE APP**

Open the BOAT app and tap on 'Add New Device'. The app will search for nearby BOAT smartwatches. Tap on the watch you want to sync. The app will guide you through the sync process.

**NAVIGATING THROUGH THE SMARTWATCH**

The smartwatch has a touch screen. You can tap, swipe, and scroll to navigate through the watch. The watch also has a physical button for navigation.

**Basic Settings**

Go to the Settings app on the smartwatch. You can change the watch face, set the time, and adjust the volume. The watch also has settings for notifications and health tracking.

**Advanced Settings**

Go to the Advanced Settings app on the smartwatch. You can enable or disable various features like GPS, Bluetooth, and NFC. The watch also has settings for battery and display.

**Water Resistance**

The smartwatch is water-resistant up to 50 meters. It is suitable for swimming and showering. However, it is not suitable for hot water or saunas.

**Health Tracking**

The smartwatch tracks your heart rate, steps, and sleep. It also has a built-in pedometer and a sleep tracker. The watch can also track your blood oxygen levels.

**Notifications**

The smartwatch can receive notifications from your smartphone. You can view messages, emails, and app notifications on the watch. You can also reply to messages directly from the watch.

**GPS**

The smartwatch has a built-in GPS. It can track your location and provide accurate distance and time data. The watch can also use GPS for navigation.

**Bluetooth**

The smartwatch has Bluetooth connectivity. It can connect to your smartphone and other Bluetooth devices. The watch can also stream music to Bluetooth speakers.
