

boat WAVE SMART CALL

Thank you for choosing the boAt Wave Smart Call as your fitness transformation companion.

Allow this manual to guide you through the functioning of your smartwatch. Please read it thoroughly before using it for a smooth sail. You may refer to these instructions for later use as well.

WAVE SMART CALL USER MANUAL

PACKAGE CONTAINS:
 • boAt Wave Smart Call x1
 • USB magnetic charging cable x1
 • User Manual x1
 • Warranty Card x1

CHARGING THE WATCH

The smartwatch must be charged before initial use. It takes 2 hours to be fully charged. Connect and charge the watch with the image below as a reference, using a 5V/2A adapter.

Note: Once your watch is at 10% battery, it will automatically switch to power saving mode which will disable all functions.

TURNING THE WATCH ON/OFF

To turn the watch on/off, long-press the side button for 3-5 seconds. You can wake the screen by lifting your wrist.

CONNECTING TO THE APP

1. Download the boAt Crest app on your phone.

Available on both App Store (iOS 13.0 and above) and Google Play Store (Android 6.0 and above)

OR

Scan [QR CODE] (Also available on the watch)

2. Connect the device with the boAt Crest app

3. Select Wave Smart Call on the home screen of the app and click pair to connect.

4. To use all features of your Wave Smart Call seamlessly, tap on 'yes' to the 'connection' and 'grant access' system prompt.

5. Turn your phone's Bluetooth and GPS on.

6. Disable battery optimization

Note: To ensure connectivity throughout your journey, make sure the app is allowed to run in the background of your phone at all times. iPhones will not prompt any information unless you complete Bluetooth pairing with WAVE Smart Call.

SYNCING YOUR SMARTWATCH TO THE APP

Data Synchronization

- Open the app on your phone.
- Make sure your Wave Smart Call is connected to the app.
- Synchronization will start automatically once you enter the app interface.

Note: Synchronize data at least once a day to avoid data loss in the watch.

NAVIGATING THROUGH THE FUNCTIONS

SHORT PRESS THE SIDE BUTTON FOR MAIN MENU

Call

To use the BT Calling feature, open the boAt Crest app and pair the watch.

Once paired you will get the pop-up on the app home screen to connect with Phone's Bluetooth.

Click on "pair" to connect with phone's Bluetooth.

Alternatively, you can go to phone's Bluetooth settings and pair "SMARTCALLBT" to start the calling feature on your watch.

Note: Enable call alerts from the setting to get calls on the watch

Up to 10 contacts can be saved in the phonebook.

Call history will show the latest call details.

Use a dialer to dial any number.

Note: To optimize the battery performance, BT calling will be on standby mode if not in use, it will be active as soon as you get an incoming call or if you make an outgoing call.

Maintenance:

Regularly clean your wrist and the strap of the smartwatch, especially after sweating during exercise or being exposed to substances such as soap or detergent, which may get stuck on the other end of the product.

Do not wash the strap with a household cleanser. Please use soap less detergent, rinse thoroughly and wipe with a piece of soft towel or napkin.

For spots or stains that are not easy to remove, scrub the area with rubbing alcohol and then follow the above procedure.

FAQ

Search for the app to connect keeps failing

1. Keep the boAt Crest app updated to the latest version
2. Close all the programs on the watch→Stop and restart Bluetooth and GPS→Connect again
3. Check and enable notification functions of your phone and keep the phone and watch in close contact.

Note: Make sure your phone system meets Android 7.0 and above and iOS 13.0 and above.

My Wave Smart Call is receiving no alerts, texts, or phone calls

Make sure smart reminders on the app are on and synced to the Wave Smart Call. Also make sure your notification center of the phone is displaying messages. Only then will your smartwatch also display those notifications. Make sure app is running in the background and battery optimization feature on the phone is disabled.

My Bluetooth keeps getting disconnected

1. Make sure there is not more than 7m distance between Bluetooth on the phone & the watch.
2. There is no obstacle in between the watch and the phone.
3. Make sure the app is running in background

Swipe down for shortcut menu

Download app

Scan the QR code to download the app

About

Shows the device details

Screen Sleep
Tap on this to set screen sleep duration.

Vibration
Tap on this to turn on vibration.

Do Not Disturb
Tap on this to disable all notifications except alarms.

System

Restart
Tap on this to restart your watch.

Power off
Tap on this to switch your watch off.

Music Control
Some apps with different protocols might not work.

Find My Phone
Tap on this icon to find your phone. Once enabled, your phone will start ringing and vibrating. Tap again to stop it.

Notes: Your watch Wave Smart Call should be connected to your phone via Bluetooth and within its range for this feature to work.

Settings
Tap on this icon to change your watch face.

Timer

Tap on this to turn on the timer.

Alarm

Tap on this to set an alarm on your watch.

Flashlight

Tap on this to turn your dial into a flashlight.

Camera Control Mode

Tap on the remote camera icon on your watch Wave Smart Call to click a photo from your phone.

Notes: Turn the camera on from your phone to use this feature.

Sleep Monitor

Tap on the icon to review the sleep data of the previous night. Once the asleep criteria is met, your Wave Smart Call will start recording from 8 pm at night to 10 am in the morning the next day. Once you lie down and watch detects no movement for 30 minutes, it will start recording, and will stop recording if it detects excessive movement. You can check the data on the app only after the awake criteria is met. You can also track sleep scores on the boAt Crest app.

Notes: For accurate sleep data recording, the asleep criteria has to be met which includes limited movement, wrist positions and angles, and more. The awake criteria will be met only after it records some noticeable movement

Guided Breathing Mode

Click on the breath training icon to regulate your breathing with the instructions given to relax.

Notifications

Tap on this icon to check notifications.

Stopwatch

Tap on the icon to start the stopwatch.

Which functions of the Wave Smart Call need Bluetooth to work?

Call & Text Notifications, Find My Phone, music control, camera control, weather forecast, cloud and custom watch faces and need Bluetooth connectivity to work.

Will it be okay to take a bath wearing the Wave Smart Call?

The IP68 water resistance will only work under the following conditions:
 (1) Maximum depth of water: 1.5m (2) Maximum time for exposure to water: 10 minutes
 The watch isn't suitable for hot baths, hot springs, saunas, snorkeling, diving, water skiing and other wading or deep-water activities with high-speed water flow.

SAFETY & PRODUCT INFORMATION

Battery

- Do not disassemble, bore or damage the battery.
- Do not disassemble the built-in batteries of non-replaceable battery devices.
- Do not use sharp objects to remove the battery.

Health Warning

- If you are wearing a pacemaker or other implanted electronic devices, please consult your doctor before using the heart rate monitor of the watch.
 - The optical heart rate sensor will glow green. If you suffer from epilepsy or are sensitive to blinking light sources, please consult your physician before wearing this device.
 - The device tracks your daily activities through sensors. This data is intended to tell you about your daily activities such as steps, sleep, distance, heart rate and calories, but may not be completely accurate.
- The device accessories, heart rate sensor, oxygen level monitor, and other relevant data is designed for fitness and not for medical purposes. They are not applicable to the diagnosis, monitoring, treatment or prevention of any diseases or symptoms. The heart rate and blood pressure data is for reference only. We're not responsible for any deviation in data.
- Avoid wearing the watch too tightly. Make sure you keep your skin dry - the area that comes in contact with the watch. If symptoms such as redness or swelling appear on your skin, immediately stop using the watch and consult the doctor.
