

# FOR THE TRAILBLAZERS

WATCH BLAZE USER MANUAL

## boat WATCH BLAZE

Thank you for choosing the boat® Watch Blaze as your fitness transformation companion.

Allow this manual to guide you through the functioning of your smartwatch. Please read it thoroughly before using it for a smooth sail. You may refer to these instructions for later use as well.

### CHARGING THE WATCH

The smartwatch must be charged before initial use. It takes around 2 hours to be fully charged. Connect and charge the watch with the strap below as a reference, using a 5V2A adapter.

### TURNING THE WATCH ON/OFF

To turn the watch on/off, long press any side button for 3-5 seconds. You can wake the screen by lifting your wrist.

### CONNECTING TO THE APP

1. Download the boat® Hub app on your phone. Available on both App Store (iOS 12+) and Google Play Store (Android 5.0 and above).
2. Turn your phone's Bluetooth and GPS on. Make sure you connect the device directly with the mobile application. Do not connect with the phone's Bluetooth directly.
3. Select Blaze on the home screen of the app and click OK to connect.
4. To use all features of your Watch Blaze, kindly tap on 'yes' to this connection and grant access system prompt.

Note: Allow all your personal details on the app. To ensure connectivity throughout your journey, make sure the app is allowed to run in the background of your phone at all times.

### SYNCING YOUR SMARTWATCH TO THE APP

**Data Synchronization**  
 Alternately, you can press the bottom button to enter the smart mode directly. Choose from 13 different sport modes: Outdoor run, Indoor run, Outdoor walk, Indoor walk, Outdoor cycle, Indoor cycling, Hiking, swimming, Rowing, Yoga, Boxing, Fitness, Cricket, Strength training, Free workout.

### NAVIGATING THROUGH THE FUNCTIONS

**Changing the dial interface**  
 Using the watch face.  
 Go to settings → screen settings → Dial settings to change a watch face. Alternatively, you can long press the home screen to scroll through the available watch faces.

### Using the app

Go to settings → Select watch face → Create your own personalized watch face or download an existing one!  
 Note: Make sure your watch and phone are connected via Bluetooth. Do not use the developing interface until a display 100% downloaded. It may take up to 1 hr to get a watch face.

### Press the top button once to enter the maintenance

**Workout**  
 Alternately, you can press the bottom button to enter the smart mode directly. Choose from 13 different sport modes: Outdoor run, Indoor run, Outdoor walk, Indoor walk, Outdoor cycle, Indoor cycling, Hiking, swimming, Rowing, Yoga, Boxing, Fitness, Cricket, Strength training, Free workout.

To pause or stop the exercise, press the top button once.

Note: All records will be available on the app if you keep it synchronized.  
 The activity will only be recorded when down for over 5 minutes.

**Workout Records**  
 Tap on the daily record of your daily activity on the app to view or your smart watch.

Note: All records will be set to zero at midnight unless you synchronize your app.

**Maintenance:**  
 Regularly clean your watch and the strap of the smartwatch, especially after wearing it during exercise. Avoid liquid or substance such as soap or detergent when they get stuck on the front end of the product. Do not use the app with an unpaired device. Please do not use the smartwatch for any other use than intended for the smartwatch.

**Charging notes & Precautionary Guidelines:**  
 1. Charge from 0% to 100% in 1.5hr.  
 For other accessories, use the power supply that is certified as being in the specifications per your device manufacturer.

**Heart Rate Monitor**  
 Tap on the heart rate monitor icon to check heart rate data for the day.

For accurate measurements, try to stay still and raise your hand to the same level as your heart. It should start measuring in about 2 seconds and last up to 30 seconds to complete the measurement. To allow the watch to measure your heart rate automatically throughout the day, enable the function on the app. Go to Settings → Enable Automatic heart rate detection.

Note: Measurements are for reference only and not for medical purposes.

**Spleen Monitor**  
 Wear the watch on your wrist, then click on the icon to start measuring your blood oxygen levels. You can also measure and view the data on the app.

Note: Measurements are for reference only and not for medical purposes.

**Activity Record**  
 Tap on the icon to check daily activity records.

**Sleep Monitor**  
 Tap on the icon to view the sleep data of the previous night.  
 Once the sleep criteria is met, your watch Blaze will start recording from 10 pm or night to 6 am in the morning.  
 Once you go down and reach the sleep criteria, you can start recording. If it detects excessive movement, you can check the data on the app only after the awake criteria is met.

**Breathing Exercises**  
 Tap on this icon to practice guided meditations and relax.  
 Note: You can set the time (1-5 min) and frequency (5-10x, moderate and fast) as per your requirement.

**Weather Updates**  
 Tap on this icon to get weather updates.  
 Note: The weather updates are obtained from your carrier provider and might vary with different providers.

**Alarm**  
 Tap on this icon to set alarms.  
 Note: An amount of 10 minutes can be set initially. If it is for more than 2 minutes.

**Camera Control**  
 Tap on the camera icon on your watch Blaze to click a photo from your phone using the watch. Click on 'allow' when the app asks for permission to use the camera on your phone.  
 Note: Open the camera in the app to use this feature.

**Music Control**  
 Tap on this icon to launch music control mode. You can play/pause, control volume and navigate to next or previous song through the watch.  
 Note: Ensure the music App is running on your phone for this feature to work properly. This feature might not work for some of the Music Apps with different control protocols.

**Stopwatch**  
 Tap on this icon to use the stopwatch.  
 Note: You can start the stopwatch by tapping the icon.

**Flashlight**  
 Tap on this icon to turn your watch screen into a flashlight.

**Settings**  
 Tap on this icon to access dial settings and screen timeout settings.  
**Night mode**  
 Tap on this icon to set night mode settings. The watch will reduce screen brightness to lower for the selected time.

**Messages**  
 Tap on this feature on from your app to receive notifications on your watch Blaze.  
 Go to App settings → App Notifications.  
 Go to App settings → Control → Call messages.  
 Note: The watch can be used to reject calls, but cannot be used to answer calls or messages. You can send quick replies also. Double end and your favorite quick replies on the watch face app.

**Timer**  
 Tap on this icon to set a timer.

**Find Phone**  
 This feature lets you find your watch from the app. Only works on iOS. If it will locate your watch to let you know where it is.  
 Note: Make sure the phone and watch are within Bluetooth range.

**Find Phone**  
 Tap on this icon to enable On Not Detected. The watch will disable all incoming notifications when on.  
**Raise to wake**  
 Tap on this icon to enable raise to wake gesture on the watch.

**Swipe down for shortcut menu**  
 You can access Wake Gestures, Settings, Brightness, DND, Flashlight and Alarm from the shortcut menu.
