Bluetooth Connection
Turn the speaker on by keeping the power button pressed for a few seconds, then the blue LED starts flashing quickly. The speaker has now entered pairing mode.
Connecting your device:
1. Activate your phone's Bluetooth.
2. Go to your phone's Bluetooth settings, scan for new Bluetooth devices.
3. Once the device "Stone 1400 Mini" has been found, please click on the same.
4. In case your phone asks for a pairing code, please enter "0000".
5. After successful pairing, your speaker indicates the same with a voice prompt and the LED flashes blue.
Note: Pairing time varies according to different mobile phones. The speaker can remember the last 8 paired devices name.

Toggle EQ
1. Outdoor Mode: To switch the EQ to outdoor mode, kindly double press " ► ".
2. Indoor Mode: To switch the EQ to indoor mode, please double press " ► ".

USB Reader Mode
• To play songs in the USB mode, you may plug the USB disc into the USB jack provided on the speaker.

To Charge
• Use type-C USB cable to charge the speakers
• Charging: The red light is steady
• Fully charged: the Red light goes off
Note: It is recommended that the speakers are not used while they are being charged, as it is not good for the battery.

Troubleshooting

A.
• **Question:** The device cannot find "boAt Stone 1400 Mini" on Bluetooth?
• **Reason:** The speaker may not be in pairing mode.
• **Solution:** Press and hold the ►II button for up to 3 seconds to search again.

B.
• **Question:** The speaker is taking very long to charge?
• **Reason:** The adapter's power output is too low, and the charging cable's consumption is too high.
• **Solution:** Please choose the adapter with an output that is not less than DC 5V/1A and use the original charging cable.

Safety Precautions

• Please note that the battery life of the speaker varies with the volume music is being played at. If at a lower volume, the battery life will be longer than when the speakers are playing at full volume
• If the speaker requires cleaning please ensure that it is done with the utmost of care. Furthermore, make sure it is turned off and disconnected from all Bluetooth devices. Do not use alcohol, benzene and other chemicals to clean the speaker. Do not allow the speaker within range of extremely hot or cold substances.
• Try to ensure that no physical damage comes to the speaker via falling, or coming into contact with hard surfaces or sharp edges.
• Do not dismantle the speaker or handle the battery in any way. If any issue arises with the speaker, please enlist the aid of a manufacturer. The battery must not be mishandled or replaced as when it can result in explosions or fire hazards. Therefore, please ensure that any servicing of the speaker is done through the service provider or manufacturer.
• If the speaker gets wet, please ensure that it is dried quickly and completely after coming into contact with water. Please do not allow the speaker to be submerged into water at any cost.
