

Chapter 1 – Why Study of the Flat Earth is Important?

When I first woke up to the revelation that we live on a flat earth, I was initially blown away by the thought of how monumental a task it must have been for those in league with the heliocentric conspiracy, capacity to pull it off and perpetuate it for so long. I just couldn't wrap my mind around, how much necessary effort would have had to of been put forth, to usurp the then belief in a Geocentric world. How many lies had to have been told, how many bribes made, in order to overthrow and secure in one felled swoop, the agreement of the then scientific establishment. I mean this is a massive deception of 'global' scale involving many nations of people. How many of the most-well respected historically recognized and celebrated scientific minds, had to have been willing accomplices in order for 'them' to achieve the results that they did in leading astray the whole world? How does one even begin to grasp the entanglement of so many in what was coup d'état and a crowning achievement for Lucifer as sun-god, in his efforts to be like the highest.

For thou hast said in thine heart, I will ascend into heaven, I will exalt my throne above the stars of God: I will sit also upon the mount of the congregation, in the sides of the north: I will ascend above the heights of the clouds; I will be like the most High. – Isaiah 14:13-14

The demotion of the earth as the preeminent focus of God's universe, to that of just another one of the planetary subjects comprising the 'solar system', was such a perfectly orchestrated hoax, it set the foundation for the later

acceptance of Darwinism and belief that man evolved from some apelike ancestor. Science as religion has separated people from inherent belief in intelligent design and knowledge that we share a special covenant with the Creator, being made in His image as a crowning achievement of the creation established for us. Science wants us to believe all things came about as random chance without necessary involvement from some grand designer. Dumbfounded I had been trying to understand why more so than how they were able to do it?

And now that I am awake to such discernment, how was it going to affect me personally in life and perspective? How would I apply this new found knowledge to the legacy of my work, and how was I even going to reassess all that I had already done about what I now knew? All of these thoughts were exploding in my mind as I continued to devour everything I could find in regards to this area of research. It was just about three weeks later that the Most High lead me to a revelation which helped me to unlock The Book of the Courses of the Heavenly Luminaries in the Book of Enoch. Knowing that this information was pertinent to the study of the flat earth and that if anybody had understood it previously, none had attempted to write a book on the decipherment of it, at least not for the last 500 years; I knew that I had to start another book immediately. And so I did.

While discussing the topic of the flat earth with one of my really good friends who is also a broadcaster, the question came up as to why he or anyone should dedicate any amount of time to studying this topic? When every day the headlines are filled with menacing, impending doom and gloom scenarios such as the possible destabilization of the

world's financial and economic systems. Removal of the dollar as the world's reserve currency. Possible martial law with FEMA internment camps, destruction of Iran's nuclear capacity which would kick off a third global war, the return of Planet X as the Wormwood of Revelation, destroyer of the Kolbrin Bible, or purifier of Hopi prophecy and the list goes on and on.

My friend asked me how and why such discernment mattered in the grander scheme of things as well as how such knowledge was relevant to his number one priority, the salvation of souls. If we are limited on time and the hour is late as many of us believe it is, and the salvation of souls is the most important aspect of the work that we're here to do as foot-washers to each other and one another. How is discernment on this topic in any way going to lead people to remembrance on who they are about Christ as savior messiah. Why should he or anyone else even bother looking into this subject matter at all?

My answer then was because this information is part of the Biblical truth that is our heritage and legacy as Christians. And that understanding the truth associated with this matter would redefine our understanding of who we are about the earth as our home. That having forgotten how the world was established as a special dwelling place for the equally special covenant that we share with our Maker, we have lost sight of just how miraculous a privilege and unique an opportunity the grand experience of life is. And that so long as we follow the ordinances, laws, and commandments that were prescribed through the gospel as a guide for our lives, that we would also have a chance to take part in salvation inheriting eternal life.

Understanding that the earth is flat also enables one to grasp the order of creation in Genesis and the affirmation of intelligent design governing the establishment of the ground as the foundation for the heavens. It affirms how uniquely different the earth is from the infinite number of supposed other planets which science and NASA assert being similar to the earth and which they claim also harbors life having ‘evolved’ in a similar manner.

This declaration did little to sway him from holding contemptuous disregard for the topic of the flat earth, and how could I blame him when it wasn’t but a few weeks prior that I shared the same sentiments. Even after I tried emphasizing the importance of the flat earth as key for unlocking The Book of the Courses of the Heavenly Luminaries, he still regarded the topic nonsensical and certainly did not share the enthusiasm that I felt when I was initially led to it as a revelation. Thinking about the question of why the study of the flat earth was important, it wasn’t until a week or so later that the Most High impressed upon me how it as topic relates directly to the issue of salvation.

And while I knew that writing about and revealing that the flat earth had been encoded by Enoch into a text thousands of years old, was significant enough as a topic to warrant the creation of a book entirely of itself. It wasn’t until I began research on the ancient Hebrew calendar system that I understood the real significance of what Enoch was relating and what I was about to endeavor writing about. And so let me now explain how the flat earth relates to God’s calendar and how God’s timing relates to salvation.

Chapter 2 – Lost and Forbidden Knowledge

I understand now that my work in unlocking The Book of the Courses of the Heavenly Luminaries has much to do with bringing forth the Most High's calendar system as presented to Adam before he and Eve were banished from paradise. They were then forced to live in the cave of treasures near the garden of Eden here upon the earth. An ancient text called the Asatir cites Adam being given the Books of Creation listed in various places as - the Book of Signs, the Book of Astronomy, the Book of the Wars of the Lord, and the Book of Generations. It also states that Adam began to teach Enoch from the Book of Signs when he was just 13 years old. It's my opinion that the vision which the angel Uriel was instructed to share with Enoch, detailing the motions of the sun and moon that later came to be known as The Book of the Courses of the Heavenly Luminaries, that those teachings were based upon these former books.

For seven years Noah learned in the Books of Creation i. e., the Book of Signs, and the Book of Astrology and the Book of Wars. These are the Books of Adam. - Asatir, Book of the Secrets of Moses 3:9

And when Enoch grew up and when the days of his life had reached thirteen years, he began to learn in the Book of Signs which had been given to Adam; and this book was copied on the four and twenty precious stones. - Asatir, Book of the Secrets of Moses 2:7

Upon Adam's death, these books were passed onto Noah, who then passed them on to his son Shem, also known as the high priest Melchizedek. Abraham when ten years old was led by an angel to the city of Shalom where he also was indoctrinated into the Order of the Ancients and church of the Firstborn.

WHEN I was ten years of age, I departed from the cave by night while my mother and my nurse slept and the angel of God met me and led me to the city of Shalom where Noah and his son Shem dwelt, and no man knew where I was. 2. And I dwelt with Noah and Shem for thirty-nine years, being instructed in all the ways of the Most High God. 3. And finding great happiness and peace and rest therein, I sought for the blessings of the Fathers and I received, under the direction of Noah and Shem, those instructions whereby I might enter into the Order of the ancients and I became a rightful heir and high priest, holding the right belonging to the Fathers. For I was ushered into the Church of the Firstborn and tasted of the fruits of heavenly life. – Writings of Abraham, 25:1-3

When Moses and the Israelites were led out of the bondage of Egypt, he was instructed by this calendar system as part of the Torah. And so all of the early Hebrew patriarchs measured and kept track of time according to this ancient calendar system. If you'd like to know more about the Order of the Ancients and the Church of the Firstborn one can refer to the Book of the Order, for more information on the kind of teachings that were passed on and through the patriarchs of old.

And because the Most High wanted this information to be preserved for the latter days, He protected it through the Ethiopic canon so that the Englishman James Bruce could rediscover it in 1773, and then rerelease it to the western Christian world. This event has been particularly significant because not only did it reintroduce into the consciousness of mainstream Christianity details of this ancient Hebraic calendar system, it also instructed new generations as to whence evil came into the world.

And as Paul states in Ephesians chapter six, that as humanity we wrestle not against flesh and blood but powers, principalities, rulers of darkness, and wickedness in high places. The true enemies of humanity are the angels who rebelled against the highest before the war in heaven and the 200 watcher angels that fell during the time of Jared. These are the controllers of the hidden hand which has been plotting throughout all time to dominate humanity under a matrix of control. They have been responsible for inciting wars and unleashing chaos under all guises and forms. They are the real overseers of humankind.

Before I elaborate on the ancient Hebrew calendar system, I would like to focus a bit on the Book of Enoch's account of the watcher angels as the reintroduction of this manuscript into western Christian communities reinvigorated much debate on the Genesis 6 connections of the sons of God with the angels of heaven. Which leaving, their holy ordinances abandoned their first estate as alluded to in Jude chapter one and II Peter chapter two. This debate is one of the main reasons why the Book of Enoch was removed from consideration from the Authorized Version of the canon in the first place.
