

SALVATION HACKS

THE GOD OF THE BIBLE IN LESS THAN AN HOUR

Written by Rachelle Schmutz

EVER WONDER WHY WE'RE HERE? WHERE WE 'RE GOING? HOW DO WE GET THERE? WHO HAS THE DIRECTIONS?

TAKE 60 MINUTES TO FIND OUT IF YOU WANT TO FIND OUT!

Give one hour of consideration and your life could be changed for eternity. Warning, this information can't be digested without inner struggle. Our flesh will rebel and react to information it doesn't want to be true. We want God's Word to be false. We deny the Creator and any accountability to Him. It is very easy to find reasons to believe in anything other than the reality of needing a savior. Since there is 60 minutes to work with, I'm devoting 10 to opening and closing, the remaining five sets of ten will cover: 1. the blinders we have on 2. the truths being covered up 3. their connections to the Bible 4. Prophecy proofs and 5. the secrets of Hebrew language.

1. THE BLINDERS WE HAVE ON

We believe in the Laws of nature: thermodynamics, physics, mathematics, relativity, motion, biology, microbiology etc. How can we believe in these laws of nature if everything is due to some random event? There is no such natural law where matter can spontaneously give rise to information.

Let me remind the reader of what is taught for us to blindly accept. Kent Hovind inspired the following explanation. 18-20 billion years ago all matter was condensed into something smaller than this period. For some unknown reason it exploded and made everything. 4.6 billion years ago the earth cooled and formed a rocky crust. As the earth formed there was large pools of bubbling lava. Although there was no oxygen on the earth, the rocks absorbed the oxygen. The oceans formed and rained on the rocks for billions of years. Swirling in the oceans is a chemical broth of a complex chemical soup. Over millions of years the soup undergoes a process to a living organism where the first self-replicating system emerged. Then a few more million years and many different, complex animals are created. New genetic makeup was added over a few more million years into different species. These animals also evolved as male and female so they could reproduce rapidly no longer needing billions of years.

Keep in mind none of this can ever be proven and never has it been done in a lab. The so-called data is complete speculation and it is used to make us believe we came from a rock, then chemical soup, then a monkey and there is absolutely nothing special about us.

The truth is **NEVER have animals created new information within their genetic makeup. Dogs don't sprout wings, birds don't grow four legs, cats don't have**

gills! They maintained their KIND! The rulers of the text books and academia have used instances of adaptation to confuse us as children into believing scientism, not real science.

Believing something contradictory to what our minds have been subjected to, requires finding reasonable doubt in the undisputed theories of the age. For example, Darwin and his theory of evolution have been the undisputed authority of life as we know it. Our textbooks are filled with debunked data and bad science, wild claims and no real proof! I recently read an article called “**Mum’s a Neanderthal, Dad’s a Denisovan: First discovery of an ancient-human hybrid: (Genetic analysis uncovers a direct descendant of two different groups of early humans.**” By **Matthew Warren** at <https://www.nature.com/articles/d41586-018-06004-0>.)

Think about this! Let me give you the newsflash that never happened. Neanderthal man and modern man are of the same kind.

Come, let us reason, from a scientific perspective. What happens when species intermingle? You’ve heard of a liger, a cross of lion and a tiger. How about a tigon? In both cases the offspring were male and sterile. However, this isn’t the case for all occurrences of hybrids. Instances of plants, mice, salamanders, and others produce offspring that are fertile.

The theory is that once a species separates into different environments, there is a good chance for development of a new species. This is called bio-diversity.

Wait, here’s where the blinders are. Why is it so amazing then, that the different “species” can mate and have live offspring? There were new species of mice discovered in different habitats. They differ in size, color and number of chromosomes. Through genetic mapping, both species were found to originate from the same kind of mouse. **They each adapted to the environment through a natural selection process where genes beneficial to their survival were enhanced. This is not evolution.**

No genetic information was gained through adaptation. In fact, some was lost! The separation that led to the different characteristics resulted in the loss of data from the original DNA. This is easily seen in dog breeds. All dogs came from the original “wolf” DNA. Humans have bread out certain genes and

enhanced the characteristics which were desired for that breed. However, this is a loss of data in the DNA structure. In other words, you can get a Chihuahua from a wolf but you can't get a wolf from a Chihuahua.

Researchers keep discovering many similar animals can all be traced back to a common ancestor of the same kind. Recently, in studies on what scientist call [The evolution of the jaguar](#), a paper was published in *Science Advances* whereas a team of researchers from institutions around the world examined the five members of the *Panthera* genus, often called the "big cats": lions, leopards, tigers, jaguars and snow leopards. The genomes of the jaguar and leopard were compared with the already existing genomes for the other three species. More than 13,000 genes were shared across all five. This information helped them construct a family tree that demonstrated how the different cat species came from a common ancestor.

Why are they calling this evolution and not natural selection? All the cats came from the same ancestor and they are all still some kind of cat. They all still share the same genes and what makes them different is a natural selection of genes best suited for their environment and food supply. It's really simple; cats make cats; dogs make dogs; mice make mice; horses make horses; bovines make bovines; bears make bears; finches make finches. Just because there are different color variations, size variations, etc. does not prove evolution. By twisting the definitions of scientific terms, they have blinded us to the truth behind the data.

Consider this, Neanderthal man was probably superior to us. We came from him. There was loss of DNA data due to the separation of the humans of the age. Then later, when mum the Neanderthal and dad the Denisovan get together the scientist are calling the offspring a hybrid. In reality, it's like a Labrador and poodle getting together and now we have a designer breed called a labradoodle.

The following example of our blinders is a direct attack on our bodies. All of us here in America are familiar with the food pyramid. We are supposed to get six to eleven servings of grain/bread type foods or almost 40% of our calories from carbohydrates. The recent recommendations from The United States (U.S.) Dietary Guidelines suggest obtaining 45 to 65 percent of energy needs from carbohydrates. The problem here is, many scientific studies show the benefits of eating a diet lower in carbs: increase heart health, lower blood pressure, lower

chances of diabetes, lower chances of being overweight, lower chances of cognitive impairment such as Alzheimer's Disease, helps prevent Parkinson's Disease, treats epilepsy-16% of patients became seizure-free, while 32% experienced a 90% or greater reduction in seizures. These are just a few examples you can find by looking into the so-called facts.

Am I suggesting the powers that be want us sick? Yes. **Most of our food is genetically modified. There are 28 countries in Europe that prohibit the biotech companies from selling GMO seed in their territories.** These countries include Germany, France, Italy, Austria, Greece, Poland, Scotland, Northern Ireland and Belgium, among others. Also, Algeria and Madagascar in Africa; Turkey, Kyrgyzstan, Bhutan and Saudi Arabia in Asia; and Belize, Peru, Ecuador and Venezuela in the Americas.

Some countries that have not banned GMOs have restrictions on them, or have a temporary ban until more research is done. Russia imposed a [10-year moratorium on GMOs](#) so more experiments, tests and new methods of research could be developed. However, Mendocino, Trinity and Marin counties in California are [the only counties in the US](#) that have successfully banned GM crops.

Yes, there is money and greed involved. The pharmaceutical companies and medical professions thrive on a sickly population. The root word **pharma** comes from a biblical reference to **sorcery, drugs and witch craft using the symbol of snakes around a pole that is still used today!** I'm not saying that the individuals in these professions are trying to harm anyone. The doctors have been trained to treat the symptom not the problem. Many treatments do work and can be beneficial to us; however, topics like vaccines are widely disputed because older vaccines worked in a different way and didn't have the poisonous metals and questionable ingrediencies they have today. The correlation between illness and autism in children can be directly linked to vaccines. I'm suggesting the malice goes deeper. Just keep in mind the misinformation, deception, ridicule and cover-up of important facts we are denied. It will tie in later. We will be led to these agencies to protect us when in fact they will be causing us harm.

2. THE TRUTHS BEING COVERED UP

Why have I tortured you with this information? Because I want to demonstrate how our minds have been manipulated by science to steer us away from the account of the flood story of Noah and the concept of a creator God. Consider scripture, Noah (whose name means rest) was told to take several of each kind. **KIND**. Not including water creatures or insects. So, Noah would have taken a male and female horse. In the future all the diversity of the equestrian family would have their DNA composed from that pair of horses with the distinct characteristics as a result of the loss of data, not the gaining of data. The zebra got its stripes by losing data from the original, not creating a new DNA that creates stripes. There are cases where a zebra mates with a horse and they produce fertile offspring! It's called a zorse. **Is it possible our DNA was created to allow certain genes to modify due to traits that were beneficial to survival? In the case of the striped zebra, this modification proved to confuse their natural enemies giving them a better chance for survival.**

Compare with our spotted best friend in the canine family, the Dalmatian. I would think that such a pattern would have **never** been selected naturally. An unfortunate consequence of having spots is that the gene manipulation to create this phenomenon correlate to the Dalmatians higher percentage of deafness. Also, if they had to hunt for their food white may only help in the snow. As puppies they could be easily seen by predators. But they sure are cute!

Consider these convincing facts confirmed among scientist. **I have more mutations than my parents**, and my parents have more mutations than their parents, and my grandparents have more mutations than their parents and so on. **With time our DNA code is being damaged and corrupted. It is not getting more sophisticated and efficient. Hear this, there is no addition of data ever recorded, ever, in any species.** Only loss and mutations. Bummer? Not really, the facts lead us to the truth. Just keep reading.

You've been led to believe that Darwin was right. However, there is no missing link. Furthermore, there isn't even a chain! Darwin promised the fossil record would someday be able to prove his theory of evolution. It never did. **To believe this nowadays is like believing a fairy-tale where the frog turns into a prince...of**

course that is evolution just add billions of years and incomprehensible theories with no way to test. Do your research, every so-called link has been proven a mistake, and in several cases a blatant torturing of data and outright deceit! Paleoanthropologist Tim White pointed out that the so-called “transitional” characteristics leading to current day humans may have been nothing more than the natural growth patterns seen in a juvenile ape. Let me tell you my two favorite missing link stories among the many fairy-tales.

Lucy, my number one because I was in elementary school when she was presented as undisputed evidence, all the scientists agree...Darwin is right, you came from a lower life form...then even lower...then a rock? Lucy was said to walk upright with human like feet due to human-like fossil footprints discovered 1000 miles away!! These footprints were found in a layer of rock considered too early to be that of modern humans. Yet the anatomical evidence for Lucy is consistent with a fully ape classification. **This is ridiculous! Footprints from 1000 miles away make Lucy human?! Really?** I believed in Lucy for 30 years because the truth was buried.

My number two, *Archaeoraptor*, He took the paleontology world by storm. It was hailed the crucial “[missing link](#)” **between dinosaurs and birds**. Remember the movie Jurassic Park? However, it turns out that in the late 1990s in the Liaoning province of China, selling fossils via the black market was a common side business for farmers. One such farmer found a fossil and accidentally broke it during its collection. Complete fossils could be sold at a much higher price, so he glued on fragments from a different fossil, combining dinosaur and bird parts! His creation was smuggled to the US, where a [Utah museum paid \\$80,000](#) for it. Oops! **Just google missing link hoaxes** and see the great strides people go through to invent a missing link!

I don't have time to debunk every time the science community has cried wolf over a missing link. What I'm trying to do is cause you to question these so called indisputable, holy grails of science. **Much of the information in our textbooks has been proven false decades ago but remains in them. Why?** Because the powers that be are steering you away from the truth. In 2015, Casey Luskin compiled a list of textbooks that continued to use Haeckel's fraudulent Embryo Drawings which were proved invalid in the early 1900's. (These drawings falsely

depicted the embryos of different kinds of animals all looking the same.) Here's just a partial list of such textbooks:

Donald Prothero, *Bringing Fossils to Life: An Introduction to Paleobiology* (Columbia University Press, 2013).

Sylvia S. Mader, Jeffrey A. Isaacson, Kimberly G. Lyle-Ippolito, Andrew T. Storfer, *Inquiry Into Life* (13th ed., McGraw Hill, 2011).

Peter H. Raven, George B. Johnson, Kenneth A. Mason, Jonathan B. Losos, and Susan R. Singer, *Biology* (9th ed., McGraw Hill, 2011).

Adaptive Curriculum online curriculum submitted to Texas State Board of Education for adoption in 2011.

Rice University online curriculum submitted to Texas State Board of Education for adoption in 2011.

Sylvia S. Mader, *Biology* (McGraw Hill, 10th ed., 2010).

Sylvia S. Mader, *Biology* (McGraw Hill 2007).

BSCS Biology: A Human Approach (Kendall Hunt Publishing Company, 2006).

National Geographic, Alton Biggs, Lucy Daniel, Edward Ortleb, Peter Rillero, Dinah Zike, *Life Science* (McGraw Hill, Glencoe, 2005).

These drawings are used to make ridiculous claims, like there are gill pouches in human embryos. When, in actuality, these “pouches” are really a part of the ear and have nothing to do with breathing.

My daughter's 10th grade biology book she has now (2020) makes several controversial, even downright false claims. She is being taught trilobites existed millions of years ago and have been extinct forever. **So how come these creatures are found alive today?** The battle is on to call them a new species and portray them as trilobite imposters. Time to take off the blinders. The claims made years ago are finally coming undone. Consider the coelacanth, this creature was made famous through claims that it was **the first creature to evolve from out of the sea to land. This creature was also found alive!**

More deceptive claims of today state chimpanzees share 99% of our DNA structure. **This is only valid if 1.3 billion letters are excluded**, that's excluding

over 54% of our DNA. When confronted with these false facts, you'll get double talk about junk DNA, **which has been proven not to be junk.**

Scientists are wondering where the 73 new species are every year. **Evolution should be providing us with a zoo full of new species every year, evolving into something superior.** Instead, they find the graptolite, a supposed extinct creature from 410 million years ago. Try googling graptolite and you would think they are extinct; you have to put in **"graptolite found alive in south pacific"** before finding any credible sources which admit these creatures are, in fact, alive today! This is the same with the lobe fin fish! There are hundreds of instances of just plain denial of the facts, denial of any other theories and proofs, denial of new evidences. **Many credible scientists are blacklisted for taking any position other than evolution.** Worse, these so-called scientists are delivering data that disregards the scientific method in order to get grants from companies that benefit from the compromised data!

Allow me to change course for a moment and provide an example; there is provable data that shows the new 5G network delivers radiation devastating to human cells. However, the big tech companies hire experts who are willing to manipulate the data to show no effect. Hundreds of doctors and scientists have signed the [5G Appeal](#) which calls for an immediate moratorium on the deployment of 5G and demands our government fund the research needed to adopt biologically based exposure limits that protect our health and safety. They realize this will be harmful and I'm glad they are saying something. But these doctors are being hushed.

Besides, we want to believe the lie. **We want faster internet and smarter phones, so we don't question. However, Radio wave sickness is well documented.** Just like we want to believe we are getting better over time, with each generation, when in fact our DNA is becoming more compromised. We sometimes choose to leave the blinders on. Suck it up buttercup and face the truth!! More than your life depends on it. We are being poisoned in more ways than this and somehow, through cognitive dissonance, allow ourselves to believe the lies.

3. THE CONNECTIONS TO THE BIBLE

It's easy to understand why 5G companies would want to hide information that could harm the profit margin, but who wants to hide evidence that is contrary to the evolutionary theory and why? For now, let's look at just a few other examples of manipulating, hiding and disregarding evidence and the so-called science used to keep the blinders on the population. Recognize the laser like precision of the insults to the biblical account.

*Dinosaur bones found with soft tissue; no way these are 70 million years old. (Evolution versus creation and the age of the earth. Dinosaurs are described in the Bible's book of Job.) I would also like to admit I believe many dinosaurs and other animals were genetically altered in a nefarious way by the adversary of our creator.

*Paluxy river bed has human and dinosaur footprints together in the same layer of rock. This means it is possible humans and dinosaurs existed together. (Evolution versus creation)

*Petrified trees were found standing upside down buried through layers of rock. Layers thought to represent millions of years. Upside down petrified trees can be explained by a flood uprooting the tree and depositing it followed by rising levels of water, each new wave depositing layers of debris. However, the **scientist will tell you each layer represents thousands of years and ignore the upside-down trees growing in them. (The Biblical account of a worldwide flood)**

*There are over 300 different flood legends. (Noah and the flood)

*Petrified clams on top of Mt. Everest. (Noah and the flood: great earth changes)

*Lovelock cave in Wausaukee, Wisconsin is famous for the human skull 3x larger than average human. (Giants are explained in Genesis 6.)

*Bones of giants were found all over North America. Not to mention the evidence they left behind. (The great mound builders)

*World war II planes were dug out of the ice in Greenland, through what would have been scientifically considered thousands of years of ice rings, but in real time was only 48 years. (Manipulation of data.)

*Carbon dating aged the same mammoth at 44,000 years old and 29,000 years old... (questionable dating methods)

*Potassium-argon 'ages' for whole rock and mineral concentrate samples from the lava dome at Mt St Helens, at the time less than 10 years old, had results that ranged from 340,000 to 2.8 million years! (again, questionable dating methods)

I could go on but I'm on a time limit! The examples above call into question modern science. That was the objective. **I would like to make a case that a lot of this misinformation is promoted to discredit the Bible.** There are several facets to misinformation. Another way to mislead people is to leave out important information, (like the 54% of our DNA that's excluded when comparing us to chimpanzees).

Let's examine the discovery of DNA. The intellectual, scientific community tells us that they figured it out! They see DNA as their own invention! However, many scientists believe that divine creation is true, they refer to this as intelligent design. Not only do our cells provide encyclopedia-like information and specific timing and instructions, but the ability to read, interpret and carry out the information! **DNA is an amazing language, more complex than any human or computer language.** DNA is composed of just four letters called nucleotides. These create 20 different amino acids which are the building blocks of the 100,000 proteins the human body needs. A pin head of DNA has more information than all the libraries on the planet. **Scientists admit DNA could store all the world's data in one room!** DNA is a language. It is a system that encodes, reads and carries out the information for every cell. **The existence of any language proves that someone created the language.**

As explanations for the complexity of DNA, the unbelieving world would rather accept the ancient astronaut theory, aliens planting DNA theory, or the trillions of years causes nothing to evolve into a sophisticated life form theory (evolution). The rulers of this age need us to believe that we are only one planet among billions of galaxies in a never expanding universe.

Let me remind the reader of what is taught to us about our solar system and space. We exist on a globe that is spinning at the speed of sound, **1000 mph**; which is revolving around a star at a speed of 30km/sec which strangely converts to **66,600 mph**; in a galaxy traveling **1.3 million miles per hour**, and a universe

that is expanding at a rate of **150,000** mph. Wow, really? The scientist can't prove this either. Look this up yourself, they hide these outrageous numbers in km/sec so don't get frustrated; insert milky way galaxy moving in mph to get the answer I'm claiming the space scientist say.

They have to keep adding theories to make the numbers work. That is how they came up with dark matter. They needed an ever-changing constant to add to the equations to make things fit. I also think it's curious that we are told the earth is on an axis of 23.4 degrees; which happens to leave us with **66.6** degrees to the 90-degree right angle. These Satanic numbers could make some people think our basic knowledge structure is being manipulated. (The early scientists who claimed the globe earth were freemasons: Pythagoras, Copernicus, Galileo, Kepler, Newton.)

I feel it is necessary here to explain some thoughts I have; as I would imagine the reader would be questioning why and how could everything that we've been taught be a lie. I would propose only a few know the truth and keep everything compartmentalized in order to keep the populations of the earth removed from the truth of a creator God. The adversaries of God don't just want us dead; they want us to die in unbelief so our soul is forever lost. The best way to discredit the God of the Bible is to attack the very first sentence of this divinely inspired book. By nullifying the creation account the entire book can now be called into question. This is why we can blindly believe in an expanding universe and evolution and whatever else scientism oppresses us with.

Did you know NASA had to admit all the photos from space are images, not actual pictures? They are artist renditions of data. Computer generated creations made to entertain and show where all the money they are granted is going. Keep in mind the bible has a completely different model of our earth. It is very possible we have been lied to about this too. For fun check out the Chicago skyline that is perfectly visible on a clear day from over 40-60 miles away from people who live across the great lake. This should be impossible if we live on a globe. The scientists who give us the mathematical equation for the curvature agree the skyline should be hidden by over 1000-2400 ft of curvature. They offer no plausible explanation. Calling this a mirage is ridiculous. Rob Skiba has a video of the skyline taken aboard a boat traveling from one side of the lake to the other. He filmed the skyline the whole time proving it is impossible to be a mirage.

(Joshua Nowicki has published an infamous picture of the Chicago skyline from 60 miles away which should have been hidden by 2400 ft. of curvature.)

There are many scientists who have proven there is no curvature: Airy, Rowbotham, M.M. Boit, Arago to name a few. The last two names are people who used powerful lamps with reflectors that could be seen for over 100 miles. If we are on a ball with a 25,000 circumference then the light should have been 6600 ft below the curvature, that's more than a mile! Also look up Lieutenant Colonel Portlock experiment. The more you look into this the more you will question. Like, why don't pilots ever have to adjust their altitude? At normal cruising speed they should have to descend a half a mile every minute.

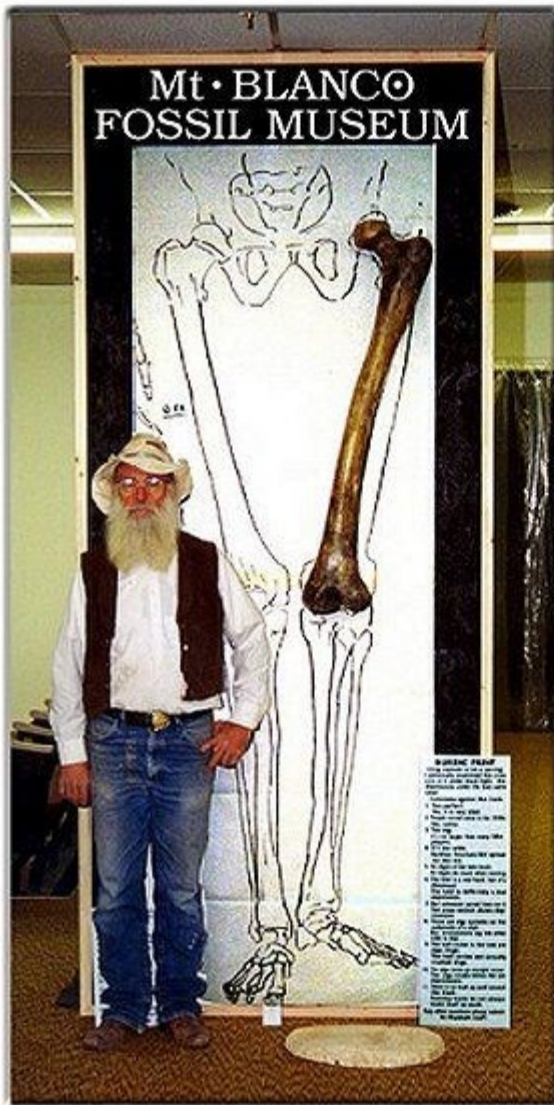

Another facet of deception and misinformation is ridicule and cover-up. Do you realize how many biblical historical sites and people named in the Bible have been proven factual and legitimate? I was amazed to learn of the pillar erected at the Red Sea where Moses led the Jewish people out of Egypt. On the sea bed there is evidence of ancient chariots, the structures have been preserved in time with coral. I know it's hard to imagine the **parting of the Red Sea** but the evidence is there. **Scientist have even tried to claim "natural weather phenomenon" as the reason for a temporary land bridge.** Whatever, the Bible said it happened so it's the scientist job to disprove or explain away any miraculous events as normal and completely explainable. The evidence is covered up and believers are ridiculed as uneducated and naïve. There are hundreds, if not thousands of **archeologic discoveries proving the existence of people mentioned in the Bible, places of significance in the Bible, correlating time lines with events and much more.** A simple Google search (maybe use duckduckgo instead) on these topics will leave you overwhelmed with evidence **proving the validity of the Bible as a historical account.**

Let me address something I mentioned earlier that has connections to the Bible, giants. I know, you think I'm crazy now. I'm going to show you some undeniable proof but there is nothing like experiencing the wealth of evidence on this subject. Do a google search for giant bones reported to the newspapers in the 1800 early 1900. Do some deep digging and you can find out about the Mound Builders that had connections to ancient Babylon with evidence found in America. The Lovelock caves in Nevada, the serpent mound in Ohio, and many other places prove a history that's hidden. **Private researchers, Jim Vieira and**

Micah Ewers, have found more than 1500 old newspaper articles and archaeological/historical reports about the findings of giant bones! These articles indicate the bones were sent to the Smithsonian institution. There are old Smithsonian reports about the bones but a cover-up by the Smithsonian, the higher-ups and the government has been very effective in keeping the evidence hidden.

Giants are mentioned and explained in the Bible. Any evidence supporting the Bible must be suppressed in order to keep us worshiping science instead of God. These tactics have been woven in to our existence. We don't even know we've been manipulated and lied to. The combination of the physical evidence in architecture and artifacts, creditable history sources, and mythology uncover a race of giants once known all over the world. Almost every culture around the world has stories of an ancient race of giants. Giant footprints left in the geological bedrock, tens of thousands of years old, have been discovered in India, China and elsewhere. Why this universal cover-up?

The Bible has answers to this and many other mysteries. How about the UFO phenomenon? The new name is UAP, Unidentified Aerial Phenomena. Now it sounds so legitimate. The Mayan and Aztec people, as well as the Egyptian people all encountered beings of an extra-terrestrial nature. Ancient aliens have been tied to the construction of the pyramids, ziggurats, sphinx, Stonehenge and more. Indeed, intelligent alien beings did come to Earth from outer space. Is the Biblical account of fallen angels familiar to you?

47 inch Human Femur

In the late 1950s, during road construction in south-east Turkey in the Euphrates Valley, many tombs containing the remains of Giants were uncovered.

At two sites the leg bones were measured to be about 120 cms "47.24 inches".

Joe Taylor, Director of the Mt. BLANCO FOSSIL MUSEUM in Crosbyton, Texas, was commissioned to sculpt this anatomically correct, and to scale, human femur.

This "Giant" stood some 14-16 feet tall, and had 20-22 inch long feet. His or Her finger tips, with arms to their sides, would be about 6 feet above the ground.

The Biblical record, in Deuteronomy 3:11 states that the Iron Bed of Og, King of Bashan was 9 cubits by 4 cubits or approximately 14 feet long by 6 feet wide!

GENESIS 6:4

There were Nephilim (Giants) in the earth in those days; and also after that when the sons of God (Angels?) came in unto the daughters of men, and they bare children to them, the same became mighty men which were of old, men of renown.

The angelic beings rebelled against God, married human women, gave birth to a new kind of offspring; a part-angel, part-human hybrid, a race unsanctioned by God. These are the gods of mythology, and the gods and the giants or Nephilim of the Bible. They changed the course of mankind. The human genome was almost completely destroyed in a wicked attempt to corrupt all flesh. The human

and animal kinds that had a pure (or mostly pure) genetic make-up were led to an arc built by a man named Noah in which they were saved from a global flood inflicted by God as part of a plan to save his creation.

Just trade the friendly alien theory for a fallen angel with contempt for mankind theory and the reason for all the deceit and lies make sense. For the moment, open your mind up to the following narrative. Satan hates you. He's been around for thousands of years weaving his deceit into our culture and technology. He is out to destroy any link to a creator God and has been working behind the scenes with an objective to enhance the fallen nature of man and lead us down a path to destruction. **A path where there is no such thing as truth, no such thing as right and wrong, no reason to protect innocent life, no reason for accountability, a victim culture and mentality where we all have some kind of disorder and need medication to fix us and someone else needs to pay for it.**

Here is where some of you will quit reading. If the Holy Spirit has been totally rejected and quenched by the dark influence there is nothing I can say to persuade you. But, if there is even the smallest seed of faith within you, you are at least picking up what I'm putting down. For the record, believing in God doesn't require faith, **just the scientific facts are going to be enough for anyone to understand the necessity of an entity outside of time, matter and space to be able to create time, matter and space.** A building requires a builder and suppliers; a book requires a writer and printer; a meal requires food and a preparer...you get it. Science can explain how things work, but it can't explain why. Like a seed growing into a plant, a baby, clouds, the sun. Everything becomes a mystery if we start to ask why instead of how. However, that's an entirely other book!

Let's get back on track with some connections to the Bible. **If the Bible makes the claim that God created man and woman, then it would be Satan's objective to disprove that.** We get Darwin and his debunked theory of evolution. **We get so called scientist telling us there is no difference between male and female and we are allowed to reassign our physical attributes without any consequence.** We are now witnessing a generation that has been so confused about their sexuality they don't know which bathroom to use; young men are competing against young women in women's sports and claiming victory; young mothers are taking their 3 year old's to drag queen story hour at the public library (paid for by

tax payer dollars); parents are being sued for not letting their pre-teen start puberty delaying drugs so they can begin “reassignment surgery”; teachers being fired for not calling Joe Josephine because no one is allowed to tell him he’s a boy; coaches are being fired for not watching a teenage girl shower with the teenage boys; pastors being arrested for ministering to individuals in the LGBTQ community who want honest help with their salvation and with the brokenness they feel; sex education with pictures in kindergarten (thank you California) **THESE ARE REAL EXAMPLES! I’M NOT MAKING THIS UP!** There are countless more, like pedophilia being an accepted sexual preference, and just recently a bill being presented to make pedo-phobia a hate crime! **Just remember that sex trafficking of young children is a consequence of this evil being winning in the hearts and minds of mankind.**

Can anyone explain why it’s the number one goal of a certain section of society to tear apart the family and allow the murder of innocent babies? Here’s why, it’s a direct assault to God’s creation. **It is claimed in the Bible that God knitted us together in our mother’s womb. That makes it Satan’s job to deceive us by making us think we are our own god.** That we get to determine what is right and there is no accountability in determining what is convenient for us. If society embraced God’s plan of marriage and the highest value of human life, think of all the chaos and heartache that would be avoided. Remember this, **Satan’s motto is order from chaos, he gets his power from destroying us.** One of his ancient names is Apollyon which means destroyer. How clever the destroyer has been in his illusion of women’s rights and the right to privacy. We are now witnessing women celebrating their abortion; doctors being paid exorbitant amounts of money for baby body parts; partial birth abortions and now allowing a living new born to die. Aborted fetal tissue is in almost all our vaccines. Keep this in mind, at a time when the pro-life community was in dire straits and couldn’t win any battle against the pro-death culture, a bill was introduced to sedate the baby before killing him or her. The bill was voted down. Even though there is undisputed evidence **a living baby feels pain**, which is undoubtedly true during the gruesome procedure of slicing the spinal cord and ripping apart the baby limb by limb. **This is the consequence of Satan winning in the hearts and minds of mankind.**

The Bible makes the claim that millions of angelic beings revolted against God because they were jealous of God and his creation of mankind. If this led to a scheme that began in a garden where woman (Eve) was deceived and a devastating flood followed because almost all of human flesh was corrupted when fallen angels messed with our DNA; then wouldn't it be Satan's objective to provide an alternative claim of millions of years using features like the Grand Canyon? What if these types of features were created by a lot of water and little time instead of a little water and a lot of time? We have let theories be the arbitrators of fact.

Theories no longer need to be tested. A paid off expert just needs to claim his research proves this or that and we no longer ask questions. **Just remember it was the experts who said black people were inferior and it was perfectly ok to treat them as animals.** It was the experts who maintained there was a superior race of intellects and this led to the "extermination" of the Jewish population. **Why the Jews?** Because they are Gods chosen people and the Devil has a special hatred for them because they birthed the Messiah and the church. Remember, Jesus was Jewish. God has shed his blood to save us but Satan wants to shed our blood to save himself. **Satan believes he can win by causing the destruction of the Jewish people so they don't do what is necessary to usher in the second coming of Jesus, what some refer to as Armageddon.**

Why is a tiny piece of real estate, Israel, the most disputed territory of our time? Because God gave that piece of real estate to his people. **Keep in mind, no one cared about this place until the Jewish people were allowed back to claim their land. The land was desolate, it was not of any importance.** There were no known natural resources at the time, it was not a port city or have any value in the distribution of commerce. In reality, the dispute makes no sense unless the Devil's scheme to destroy Israel and the Jewish people is acknowledged. Here's some inside information, side with God. Treat Israel with the reverence she deserves. Anti-Semitism is a consequence of Satan winning in the hearts of mankind.

4. PROPHECY PROOFS

A Creator outside our time is proven when the future is told, documented, and comes to pass. The Old Testament books not only give us the **predictive pattern of prophecy, but also significant events that that future prophecy builds upon.** For example, prior to the Jewish people losing their land, it was predicted that God would reassemble them in the land of their ancestors. **That's really two prophecies that were fulfilled!** First, that the Jewish people would lose the land; second, the regathering of the Jewish people to the land after many years. A third prophecy fulfilled here is that they would come back in unbelief of their Messiah. The Jewish people as a whole still reject Jesus.

The rejection of Jesus was foretold in the Bible also. They will recognize him in the future as foretold in the Book of Revelation. This event is patterned in the Old Testament in the story of Joseph (a foreshadow of Jesus). Joseph's brothers (the Jewish nation) don't recognize him until they see him at a second encounter. I'll give the quick version of the correlation markers in this prophetic historical pattern. The entire Bible works this way. 66 books written by different authors that have the story of Jesus in everyone. (A quick note for the reader, many books were taken out of our current bible. Their removal is unfortunate but these books can still be found. They give great insight and I believe were taken out to give religious institutions more power and authority.)

For this simple illustration of prophecy as pattern I'll only use 2 stories. The story of Abraham offering his son Isaac and Jacob losing his son Joseph. Both will foreshadow the pattern and prophecy of Jesus the savior.

The pattern goes like this, 1. the favored **Son** of the Father, from a miracle birth, 2. is given over as a **sacrifice or slave.** 3. By following the Fathers teachings, they are **advanced** to a role of leadership and 4. in some way **bless** the people (This is also the pattern of Moses.)

1. Abraham gives his **son Isaac; Jacob** gives his **son Joseph** (both sons favored by the father. Isaac born to a 90-year-old woman named Sarah; Joseph from Rachel who was barren most of her life (and who later died during childbirth).

2. Abraham is told to bring his son on a three-day journey to a mountain and perform a **burnt offering**. Joseph was rejected by his brothers and sold into **slavery**.

3. Abraham and Isaac's obedience is rewarded by a **substitute** sacrifice (Ram caught in thicket of thorns) and Jacob and Joseph's obedience lead to Joseph rise to **authority** in Pharaoh's kingdom.

4. Abraham and Isaac received the **blessing** of many children, land and wealth. Jacob and Joseph received the **opportunity** to save the nation (Jew and Egyptian) from starvation when the seven-year famine came.

1. We see the sacrifice as Jesus (the favored Son of the Father from a miracle birth), 2. who is offered as a substitute for or consequence of sin. He was sold for the price of a slave and journeyed up a mountain where he was sacrificed and buried for 3 days. 3. By obeying the Father, he was rewarded with authority and the 4. opportunity to save and bless the world, Jew and Gentile.

The connections are endless. The First Coming of Jesus alone fulfilled over 100 Old Testament prophecies. The place, time and manner were documented way before his actual birth. **It is in prophecy we can be assured there is an entity outside our understanding of time.**

There are several accounts where Biblical persons or people miss the first revelation of a significant event but are enlightened later. Many of these types of Old Testament foreshadowing events and people don't reveal their significances until they are compared to New Testament events and people. For example, the binding of Isaac compared to the crucifixion of Jesus. Both the favored son of a miracle birth, both asked to make a 3-day journey, both asked to carry the wood up the same mountain on which to place the sacrifice, both being presented without protest (willing), both sacrifices having a crown of thorns, both disappearing from the story until a bride is found (the church is known as the bride of Christ). There are many more but I just want to give you a flavor of how prophecy works and builds upon itself.

The life of Moses and the life of Jesus are parallel. The book of Ruth reveals how Jesus is the kinsman redeemer to the gentiles. The connections made

between the Old and New Testaments has been hidden, hurting our chances of making a connection to our Creator through most modern churches.

At the end of this presentation/book I'm going to include a few comparison charts, one of them will be the hundreds of prophecies fulfilled by Jesus's first coming. **I want you to think about something, these prophecies were fulfilled in a very literal way. The imagination doesn't have to be spiritually induced. These prophecies explained in detail the coming Messiah and specific events surrounding his life and death and resurrection.** Psalm 22 and Isaiah 53 are extremely notable Bible passages describing the coming messiah. I have good reason to believe his second coming will also have a literal outcome as well as a spiritual one. The whole Bible is one book describing the salvation of humankind, our own life, death and resurrection.

Let's take some time to look at several prophecy proofs. Keep in mind hundreds of books have been written and studied on such topics. I'm just going to hit on a few I've studied. These are easy stories to understand and the context isn't confusing, as many so-called scholars claim. Don't get me wrong, there are many brilliant biblical scholars out there, unfortunately there are also some who have been deceived.

True fulfilled prophecy is proof of an entity outside of our time. For that simple reason, prophecy that is fulfilled by the same source over and over again is creditable. The Bible is over 30% prophetic. **God gives us prophecy as proof he has authority over what we know as time, past, present and future.** My favorite demonstration of this is in the book of Daniel. **God shares with man a timeline of world history through a vision/dream of a statue.** The statue has a head of gold, arms and chest of silver, torso of bronze, legs of iron, and feet and toes of mixed clay. A study of Daniel reveals the major political powers through a world timeline, their unique characteristics, their order and strengths. The prophecies build upon each other, and usually have a near and far fulfillment. **This story is so precise that skeptics claimed it was written and inserted after the fact, but they were proven wrong after copies were found included in what is known as the Dead Sea scrolls.** These copies are proven to be ancient and were produced way before the prophecies were fulfilled.

Patterns within the prophecy amaze me. The similarities between the stories of the Old Testament and the prophetic pattern of events are meant to be striking! **In the Jewish mind, prophecy and pattern are closely related.** In the Old Testament, Joseph's life from being sold into slavery and the journey to savior of a nation is there to help us recognize the Messiah. **The details that parallel the Old Testament story of Joseph and the life of Jesus include** a miracle birth, being favored by his father, betrayed by his brothers, sold for the price of a slave, overcoming temptation, punishment for being sinless, a conversation with two prisoners before rising to power. In both cases one prisoner is saved and the other isn't. Both are unrecognized by people who knew them, revealed at a future coming. Both provide food for many. Both spoke at least two languages, Hebrew and the language of the world; for Joseph Egyptian and Jesus Greek. I am leaving a lot out for the sake of time.

The foreshadowing of Jesus in the stories of the Old Testament is a prophetic tool used to tie the bible together. **Consider Psalm 22 (Old Testament) where the gruesome depiction of being crucified is told before crucifixion was even invented.** King David describes details of the crucifixion of Jesus hundreds of years before it happened, thus helping to tie the First Testament to the New Testament. **The Psalm starts out "My God My God, why have you forsaken me." (Old Testament) Which are the exact words Jesus cried out when being crucified (New Testament).** There are hundreds of examples of this. Even the High Holy Days of the First or Old Testament happen on what are significant days for Christ followers. **Passover** was when the blood of perfect, innocent lambs was slain to save the nation of Israel when the death angel descended upon Egypt; the holiday called **Easter** or Resurrection Sunday is when the perfect, innocent Lamb of God was slain to save all people from a spiritual death. **Shavuot** is celebrated as the giving of the Law to Moses and comes 50 days after Passover. Correlating is **Pentecost**, Christ followers celebrate the giving of the Holy Spirit to the Church and it comes 50 days after Easter or Resurrection Sunday. Thus, creating the link between the giving of the **law** and the giving of the **Holy Spirit** whereas one makes a person **guilty**, the other makes a person **innocent**. This is fulfilling another prophecy in the Old Testament where God promises a New Covenant or Testament would be made. **The entire Bible proves itself through the use of prophecy and pattern.**

5. THE SECRETS OF THE HEBREW LANGUAGE

One of the most prophetic elements of the Hebrew Bible is the language itself. I'm sure you've heard of Bible codes and other mysteries hidden within the language. Understand, codes were first studied by the Old Testament Rabbis who would do a **hand counting** of every precise number of words or letters. If we could read Hebrew, we could count every seventh letter and words like Torah are spelled out repeatedly...The higher tech our computers get the higher tech the codes get. I just want to share one drop of insight in a sea of knowledge the Hebrew language has taught me. Keep in mind this phrase we know from the Bible. God said "I tell the end from the beginning."

The Hebrew word for beginning is the first word of the Bible. In order to experience the Hebrew language, you have to understand that each letter also represents a numerical value and each letter is also a symbol for something, almost like a picture language. So, each letter is at least three things: **a letter** representing a sound, **a number** representing a numeric value and **a word symbol or a sign** for something. The closest example I can think of in English is faulty but I think it will help. Think of the letter m, it represents a sound; if you turn m on its side, it is the number 3; M in McDonald's is the double arches, a symbol that lets us know there is a hamburger restaurant.

I know I can't give you a full lesson in Hebrew but if you take a moment there are videos all over the internet showing off this amazing language. You can verify what I am about to tell you very easily through the use of this wonderful and devastating technology at all of our fingertips. **When the Hebrew word for beginning is translated from each letter into its word symbol, the word now becomes a sentence; The Son of God is destroyed by his own hand on a cross (or as a sign). Or it could also translate as, The head of the house is consumed, the work of his hands is our promise (or covenant).** I'll attach the translation so you can see this for yourself.

God really did tell the end from the beginning! There are so many examples of these hidden treasures! **Our word alphabet comes from the first two letters of the Hebrew alphabet**, the aleph (it looks like our capital letter A, it is also the number 1 and means strength, also an ox ...commonly known as God's letter) and

the bet (it looks like our backwards lowercase letter b, and is the number 2 and means house or tent also known to represent a son.) **Aleph+bet=alphabet!** The Hebrew letter aleph (A) is made from two other Hebrew letters, The yod (y) and the vav (v). The yod means hand, the vav means nail (the 6th letter and is known as mans letter). The aleph is written with one yod, or hand reaching down and one yod or hand reaching up with the vav, or nail (man's letter), in the middle connecting them. The very first Hebrew letter, known as Gods letter, expresses that a Man will connect the God above to his people below with a nail! The whole language is like this!

Names also have a meaning. The following example is from a portion of scripture I first thought was the number one reason to not read the Bible! It begins so-n-so begot what's his name, and what's his name begot so-n-so... riveting. It turns out, **if we use the meaning of the names, we get the story of salvation!** Allow me to explain. In Genesis these are the names of the family tree in the order they are listed: 1 Adam- 2 Seth- 3 Enosh- 4 Kenan- 5 Mahalalel- 6 Jared- 7 Enoch- 8 Methuselah- 9 Lamech- 10 Noah.

This is the meaning of each name in the order they are listed:

1 Adam=Man 2 Seth= appointed 3 Enosh=mortal 4 Kenan=sorrow 5 Mahalalel= the blessed God 6 Jared= shall come down 7 Enoch= teaching 8 Methuselah=his death shall bring 9 Lamech=the despairing 10 Noah= rest or comfort.

This statement spells out the Gospel: Man is appointed mortal sorrow; The Blessed God will come down; teaching (that) His death shall bring the despairing comfort and rest!

Since the letters are also numbers, it is common to add up the letter/number of a person's name. This is how one would add up the name of the anti-Christ to total 666. 6 is known as man's number because man was made on the 6th day. The 666 also represents the unholy trinity of fallen man in the beast, the anti-Christ, and the false prophet.

Conversely, This is done in Greek also, the language of the world during Jesus's time, Jesus's name adds up to 888. 8 represents something new, and infinity. How clever! More relation to words and their numeric value uncovers undeniable proof of a dimension of design our modern languages lack. For example, in Hebrew, add the numeric value of the word for mother to the numeric value of

the word for father and the sum equals the numeric value of the word for child!
Mother + Father= Child Wow! The Hebrew language has numerical proofs!

Furthermore, languages of the west read from left to right; -> Pointing toward Israel; languages of the east read right to left; <- pointing toward Israel.

Most languages have Hebrew roots but that is another thing that is being covered up. There is a story in the Old or First Testament known as the tower of Babel where God confused the language to break up the people so they would have a harder time conspiring and rebelling against him. Hebrew is relevant and related to many languages of today and is more meaningful than all of them! Linguist who have come out in favor of this view are shut down quickly, just like the other scientist, researchers and doctors who report on data that confirms the stories of the Bible.

Consider the stories in the headlines today and look at them through a Biblical lens. God has given us the world timeline in Daniel. **We are currently in what is the symbolic split legs of Rome in a total beast system waiting to be divided into a 10-nation disaster.** Or who knows, maybe we've already been divided. The signs would be **a huge global influence**, domination of communication, manipulation of data, gigantic companies, corruption of the monetary system, direct assaults to people who believe in the God of the Bible and His Commandments and a failure and division within the Church. A convergence of these things has begun. **Be looking for big tech and medical companies to be continually favored by government. The near future would allow these entities to set up their own form of governing system. The huge data collecting systems will be used to force compliance or inflict pain, even death.** Yes, there are more signs but that gets depressing.

Understanding spiritual salvation is the key. **When man fell in the physical, he died spiritually. Jesus died in the physical, so he could save us spiritually.** God told us in the past what we read in the present, which explains the future. We need to know him as the author so we can be led to a future with him. The evil one wants to stop that from happening. Haven't you wondered about the supernatural and the existence of aliens? Why are the secrets of this veiled realm connected to secret societies and all this occult symbolism? The truth is Satan wants to be hidden unless he can be worshiped. He doesn't care how he destroys

you. If you reject a spiritual realm then the more likely you are to reject God. If you accept any other god or idol that works too. Understand there is a pre-history to the story we know; and the story we know is a part of a bigger story.

In conclusion I would like to encourage you to investigate on your own. I've given several rabbit holes for you to go down. Giants, alien\demons, the flood, corrupt dating methods, evolution, DNA, lies involving nutrition and harmful effects of drugs and things like 5G... (very soon to be 6G) by the way, 5G is a stepping stone to a one world governing system where humans are controlled by way of resources and wavelengths. The Great Reset is the next goal for the world elites.

Don't be surprised when disclosure of some kind like extra-terrestrials or imminent disaster from bioweapons or global catastrophes are used to deceive humanity into accepting the beast system. This too is prophesied in the Bible in The Book of Revelation. I know this can seem overwhelming but the truth really will set you free. You will be able to discern the times we are in and prepare. In many instances we are taught to be prepared in the Bible. This preparation is for both the physical things and the spiritual things. Go beyond the first set of discredits to the Bible, look for yourself and be sure of a creator and his divine instructions for our lives. More important than our lives, our eternal lives.

Many people think the Bible is hard to read and enjoy. Start with some good commentary on Genesis. There are podcast and YouTube videos to get you started. Start by looking into the differences in teachings and that's where the mysteries are revealed and your knowledge will grow. I saw a video called Zeitgeist and it made me question my Bible. However, after investigating their claims, I found a deeper truth. For example, it said December 25 was not the day Jesus was born. This is true. Actually, this day has high occult related significance due to the winter solstice. Through more investigation I discovered Jesus would have been born during the feast of trumpets. Believe it or not this makes the day of his conception around December 25. How clever! Now I know how God feels about when life begins.

No one regrets reading their Bible. No one regrets following Gods laws. He created us and gave us an instruction manual and a Promise. You will not regret getting to know Him! He will do amazing things in your life.

The Secret Meaning
of The First Verse of The Bible!

Barasheet
“In the beginning”

Genesis 1:1 - In the beginning God created the heaven and the earth.

Barasheet looks like this in Hebrew:

בְּרֵאשִׁית
Tav Yod Shin Aleph Resh Bet

The letter bet means: house or tent
The letter Resh means: head or highest person
Aleph means: Ox or Bull, The ultimate strength or God
Shin means: Teeth, Destroy, Consume
Yod means: Hand, Arm, my effort, my work
Tav means: A cross, the mark, the covenant

בר
Resh Bet

Bet and Resh together form the word “Bar”
which means “Son of”

If you put this all together it means:

Bet + Resh = Bar (Son of)
Aleph (God)
Shin (To Destroy)
Yod (By His effort or Hand)
Tav (The Cross)

**THE SON OF GOD WILL BE DESTROYED
BY HIS OWN HAND ON A CROSS**

Jesus Christ is God.

I found this list on the internet and from several different sources in the public realm. Kent Hovind helped me to see evolution as fraud. Chuck Missler educated me on many scientific biblical truths. Rob Skiba and Zen Garcia showed me the truth about our physical existence. I highly recommend watching the film Improbaball by Celebrate Truth produced in 2018 and The Global lie movie also by Celebrate truth before they are scrubbed by YouTube.

May this bring you many blessings! To God be the glory!
