

# Personalized care starts with you.

Introducing the **Sureglide™** cesarean delivery safety scalpel

1<sup>st</sup> trimester

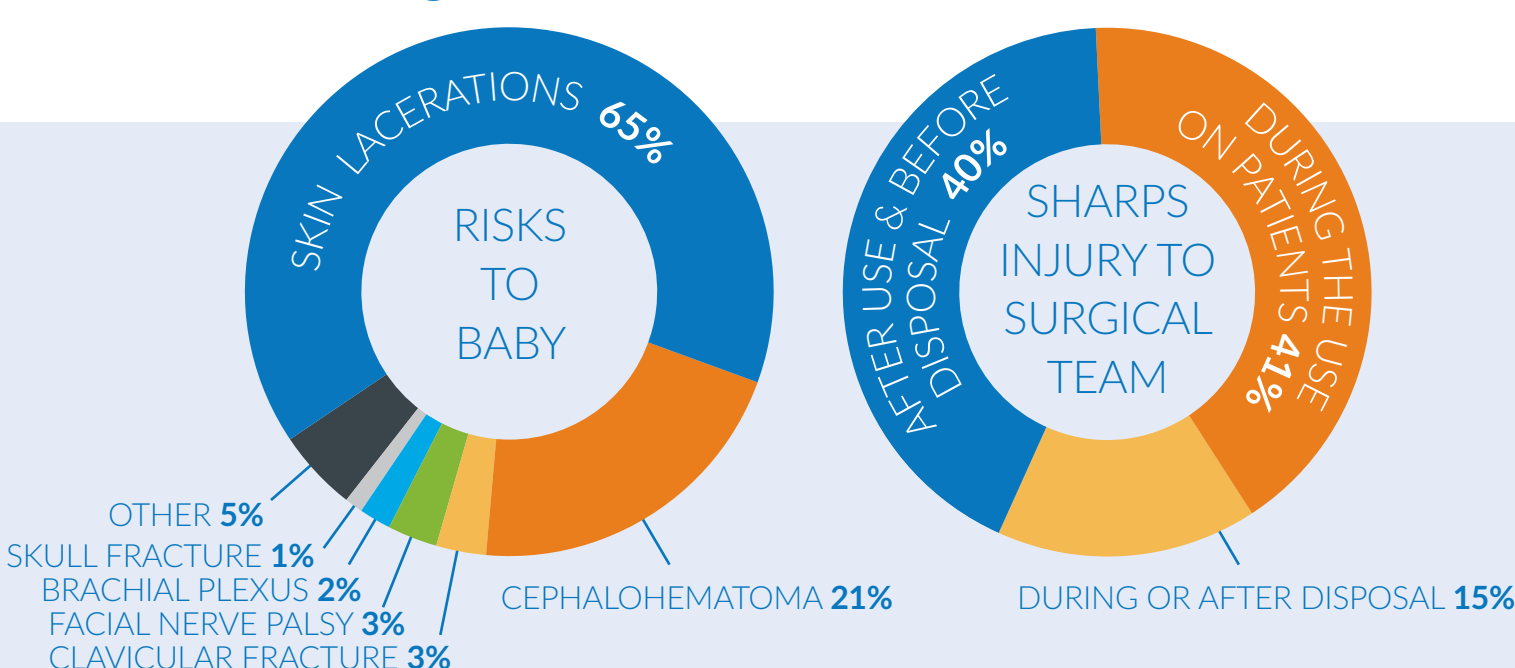

2<sup>nd</sup> trimester

3<sup>rd</sup> trimester

You invest **9 months** with

expectant mothers preparing for that precious moment to arrive. You go to great lengths to deliver incredible care to mothers and babies, all the while **managing each and every risk throughout the pregnancy.**

Risks during cesarean deliveries are evident

Protect your patients, your staff and yourself when it comes time to deliver

Introducing the Sureglide cesarean delivery safety scalpel. A specially designed safety scalpel, developed by physicians, to help you protect the fetus from nicks, cuts or lacerations during cesarean deliveries.

Unlike typical surgical blades that offer no protection to surgical teams and babies, the Sureglide incorporates human factors to capture the feel and elegance demanded by surgeons and safety features to prevent sharps and fetal injury

### SAFE

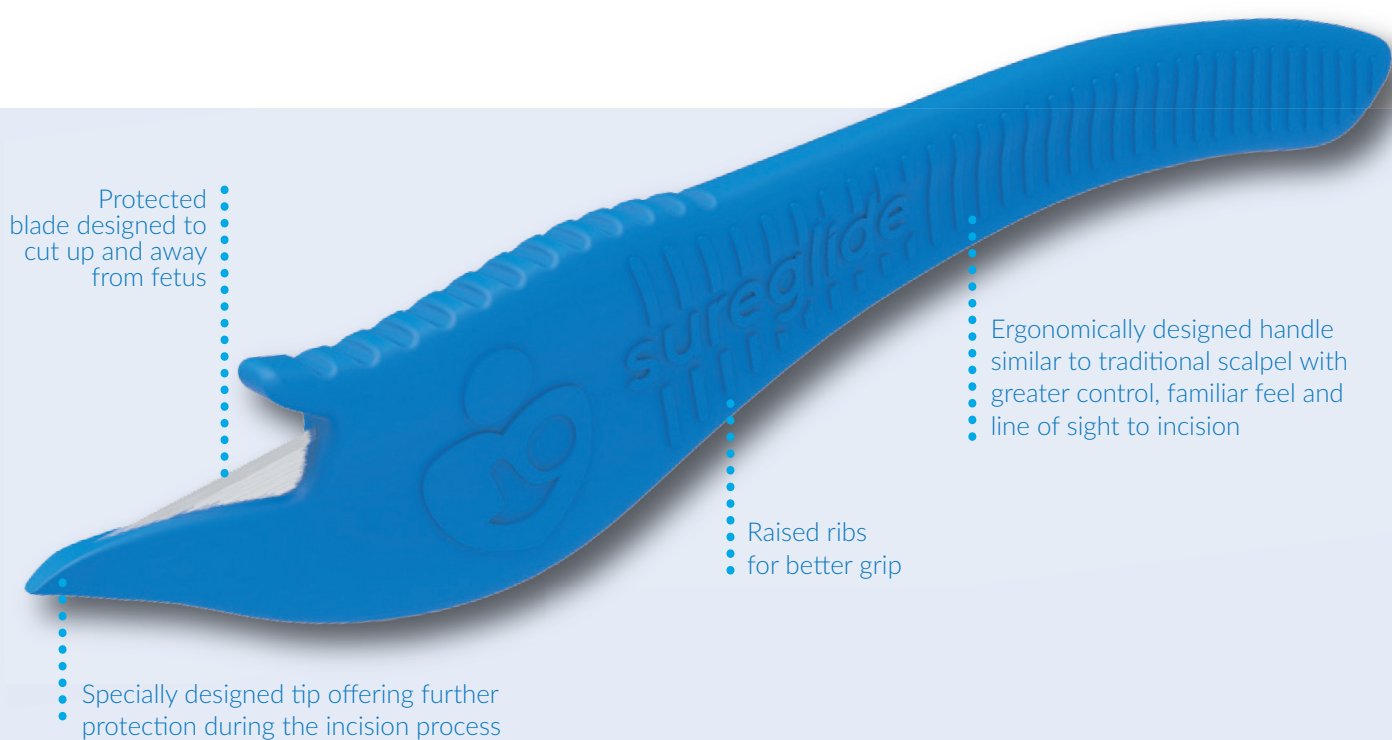

Safety scalpel developed to help reduce the risk of fetal injury from nicks, cuts or lacerations during cesarean deliveries and to help protect surgical teams from sharps injury.

### ELEGANT

Sureglide's ergonomically designed handle and protected blade have been optimized to provide superior line of sight, comfort and control for physicians as well as protection for mothers and newborns.

### EFFECTIVE

Safety engineered device for blunt entry to reduce the risk of fetal lacerations during cesarean deliveries and to protect surgical teams from sharps injury.

Delivering **mother & baby wellness**
