

44" Blade Remote Angling Kit

X300 and X500 Select Series Tractors

JOHN DEERE

Power Lift Kit for X300 / X500
44"/48" Plows and Snow Blowers

Product Description

The New Remote Angling Kit is designed to make your winter chores more efficient and enjoyable. The Remote Angling Kit is compatible with your 44" John Deere Blade on all Select Series and most other John Deere Tractors equipped with a 44" blade. The kit is easy to install and utilizes a 3-position spring loaded mechanism that automatically locks into place when the blade is in the proper position. A simple twist of the conveniently mounted control handle and an easy push or pull angles the blade to the desired position. No more stopping and getting off the tractor to angle the blade, increasing your efficiency.

Additional Features

- Remote angling from the seat of your tractor with a conveniently mounted control handle
- Powder coated steel components
- Spring loaded mechanism auto-locks when the blade is in position
- Installation with hand tools (15 min.)
- 2-year Residential Warranty
