

# Cleaning Guide

---

**Pattern:** Beeline EPU

**Color:** Myth

**Product Number:** 09152867

**Content:** 100% EPU Polyurethane

## W General Recommendations

- Clean with water based foam or cleaner
- Do not saturate with liquids
- Do not get the furniture wet

## Regular Maintenance

- Clean monthly with a clean, soft, colorfast, damp, soapy cloth or sponge and rinse with clean water

## Stain Treatment and Spot Cleaning

A professional cleaning service is recommended

Treat stains quickly

- It will become increasingly difficult to remove the longer a stain is allowed to set
- Pretest any cleaning method or agent in a small hidden inconspicuous area
- Several less concentrated applications are less damaging than one concentrated application

Remove fluids immediately by blotting with a clean, colorfast, absorbent cloth

Flush stain with water and dry with clean cloth

### **Rinse all cleaning agents thoroughly with water and wipe with a soft cloth**

- Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.

Remove solid or semi-solid substances

- Using a flat object, remove as much of the stain as possible
- After removal, vacuum thoroughly using the proper attachments before cleaning with an agent

Abrasive household cleansers and steel wool should be avoided

## Bleach Cleanable

To disinfect spray a 4:1 ratio water/bleach mixture on the fabric and allow to linger for the time specified by the Centers for Disease Control and Prevention.

# Cleaning Guide

**Rinse all cleaning agents thoroughly with water and wipe with a soft cloth**

- Residue left by cleaning agents will degrade and shorten the life and/or affect the product's appearance if not removed.

**Approved Cleaners**
