**CRAFTED JEWELLERY MADE
FROM DESTROYED ILLEGAL
FIREARMS AND RECYCLED PET.
MADE IN SWEDEN.**

CHANGES IS ARILD LINKS THIRD COLLECTION, THE NEXT LEVEL OF MAKING A STATEMENT.

IT'S NO LONGER ENOUGH WITH JUST THE LOOK OF FASHION; CHANGES IS ROOTED IN THE SPIRIT OF MATERIALS WHICH MAKES IT AN ACT OF CONSCIOUSNESS RATHER THAN JUST A SHOW OF SUPPORT.

THE DESIGNS ARE MADE FROM DESTROYED ILLEGAL FIREARMS AND RECYCLED PET, SHAPED INTO BEAUTIFUL JEWELLERY EMBODIED WITH HISTORY.

HUMANIUM METAL + NON-VIOLENCE

Humanium Metal is a statement beyond any other precious metal. Created from destructed illegal firearms taken off the streets and melted into a resource for a new purpose. There are millions of illegal firearms, paradoxically Humanium Metal is to this date rarer than gold.

All our designs made from this resource are labelled with the symbol Hu. They are embodied with history, and by wearing one you take a stand against violence and contribute to security for people living in areas affected by high levels of crime.

Arild Links has a long term commitment to support The Non-Violence Foundation Project. Throughout the years Non-Violence has educated and trained more than 8 million youth, teachers and sports coaches around the world in how to solve conflicts peacefully. Each of our jewellery sold with the Non-Violence symbol finances violence preventive education to people in the risk zone and contributes to a more peaceful world.

PET-ROPE

We use PET-rope from responsibly recycled PET-bottles which we've given a new purpose instead of polluting the environment or burnt, releasing CO₂ into our atmosphere.

Recycling is a conscious act and a powerful symbol to encourage all of us to re-purpose the resources already existing rather than producing new material.

MORE FROM ARILD LINKS

Arild Links creates a wide selection of fine jewellery including – bangles, charms, rings, necklaces, bracelets and earrings. We primarily work with Humanium Metal combined with other precious metals – gold, diamonds and silver, to create fine jewellery with personal meaning and expression. Freedom of expression; it runs through our veins and shines through in our work.

We do our utmost to ensure that the precious metal and stones we use are ethically mined. The black market for precious metals is a vast problem and that's why we only work with certified partners so you can rest assure that our materials are not through exploiting – but rather contributing to change. Our designs are traditionally crafted in our studio in Sweden.
