

Smart Power Strip

Model No.: iBC_MX

iBLOCKCUBE

Thank you.

Thank you for purchasing iBC_MX smart power strip. We are dedicated to providing our customers with quality products for building a better living. We hope you enjoy your new product!

Package Content

1xSmart Power Strip
1xUser Manual

Safety Information

IMPORTANT: Please read and comply with all of the instructions and warnings provided in this manual before using the product. Failure to comply with the instructions and warning provided herein may result in inaccurate results and/or damage to the product itself.

WARNING:

DO NOT connect a device that exceeds the rated power for this smart power strip. Doing so may overheat or cause possible damage to the smart power strip or other equipments.

DO NOT use the smart power strip if it is damaged in any way, shape, or form.

DO NOT attempt to repair, disassemble or modify this device under any circumstances. Doing so may damage the device or cause electric shock and possible injury.

DO NOT place the smart power strip near any heat source or in direct sunlight.

DO NOT place or operate the smart power strip in high-humidity environment.

DO NOT operate the smart power strip if there is a strange odor or heat emitting from the smart power strip or a connected device, contact customer support immediately.

DO NOT touch any electrical appliances with wet hands or handle appliances near liquids. Avoid using excessive force when handling the smart power strip. Keep the smart power strip dry and clean at all times.

DO NOT use any solvents or cleaning solutions on the smart power strip. Clean only with a soft, dry cloth. Never overload electrical circuits as it may cause an electrical shock or fire.

Set-up

WARNING: DO NOT connect a device that exceeds the rated power for this smart power strip. Doing so may overheat or cause possible damage to the smart power strip or other equipment.

Plug this smart device into a powered wall socket and press the power button to turn on the smart power strip. Connect your desired electrical devices to the smart power strip, making sure to not overload the input current(10A).

Note: Each USB port provides a maximum output current of 2.4A. The power strip, with all ports combined, provides a maximum output current of 3.4A.

Troubleshooting

| Problem | Cause | Solution |
|-----------------------------------------------------------|-------------------------------------|-----------------------------------------------------------------------------------------|
| My device(s) will not charge or turn on. | Smart power strip is off | Check to make sure the power button on the smart power strip illuminated. |
| Strange odor or heat emitting from the smart power strip. | Product may be broken or defective. | Immediately unplug the power smart strip and discontinue use. Contact customer service. |
