## *Magidine – Energy Enhanced Iodine Isolate*

Magidine – also known as Energy Biodine is a Scalar Enhanced Isolate Iodine – different from the average iodine found in the marketplace. Iodine is very important for the thyroid, the key endocrine gland for the immune system. Iodine is vital to the thyroid. Without iodine, the thyroid cannot produce T4 cells – that are our immune protectors. This iodine is 100% bioavailable for the body to uptake fully and immediately, versus the much lower availability of other iodine... this makes it a much better investment to action in the body. Magidine is a scalar charged high frequency 2% tincture of pure, natural, singlet, active iodine (I-127), and a superior cellular uptake.

Symptoms of Iodine Deficiency – overweight/underweight, chronic fatigue especially upon rising, depression, irritability recurrent infections, muscle weakness/aches, joint aches, sensitivity to cold, constipation, body temperature instability, heart rate/blood pressure, sweating, cholesterol, fluid retention from lymph, drainage, allergies, hair loss, difficulty breathing impaired concentration/memory, hoarseness, painful menstruation, infertility, miscarriages, kidney function, gastrointestinal disturbances, obstructive sleep apnea, etc.

Doctors today fail to test for iodine deficiency, and often, it is not understood in the medical communities of how important iodine is for the human body. The common blood tests routinely show false “normal”, masking overworked adrenal and a malfunctioning thyroid. By the time there is a thyroid issue, it is too late, and adrenals are exhausted too! The most accurate thyroid test is the basal body temperature, simply self-administered.

There is no pathogen that is resistant to iodine. It is more powerful than Vitamin C., vitamin E and more powerful antioxidant than other oxygen therapies such as ozone, silver, etc.

Directions: Start slow.

Internal: Start slow with 1-6 drops with 4 – 12 oz. water, gradually adding a drop over time, increasing to 25 drops per session, on an empty stomach. Eat 15 min after

Take up to 3 times a day at 8 am, noon, 4 pm (if taken in later than 4, could produce too much energy to sleep). If detox occurs (ex: nausea, throat burn, heart rate stimulated) -- stop for 48 hours, back the drops down slightly. Apply the Scalar salt to tip of tongue will slow down a reaction. Hold for 20 sec. then drink water. Repeat until symptoms disappear.

External: Topically apply with castor oil to thyroid/skin/scars/painful joints/etc. (one to two drops, depending on the area). Use without castor oil on open wounds/infections.

To order:

Available in ½ oz. glass	\$28.50/ea.
2 oz. glass	\$144.00/ea.
