*“These are designer sofas  
that just happen to have  
beans in them... combines  
old-style comforts with sleek  
new form and contours.”*

— *TIME* Magazine

## discover the world's leading brand of designer bean bags

Australians are renowned world leaders in refined relaxation and innovation. Since 2005, the Aussie-led Ambient Lounge® Global Group have been breaking preconception boundaries and successfully transforming the humble yet often maligned bean bag into inspiring and fashionable designer furniture. Along the way, Ambient Lounge also invented and patented the **Funnelweb™** zip & tip bean transfer system.

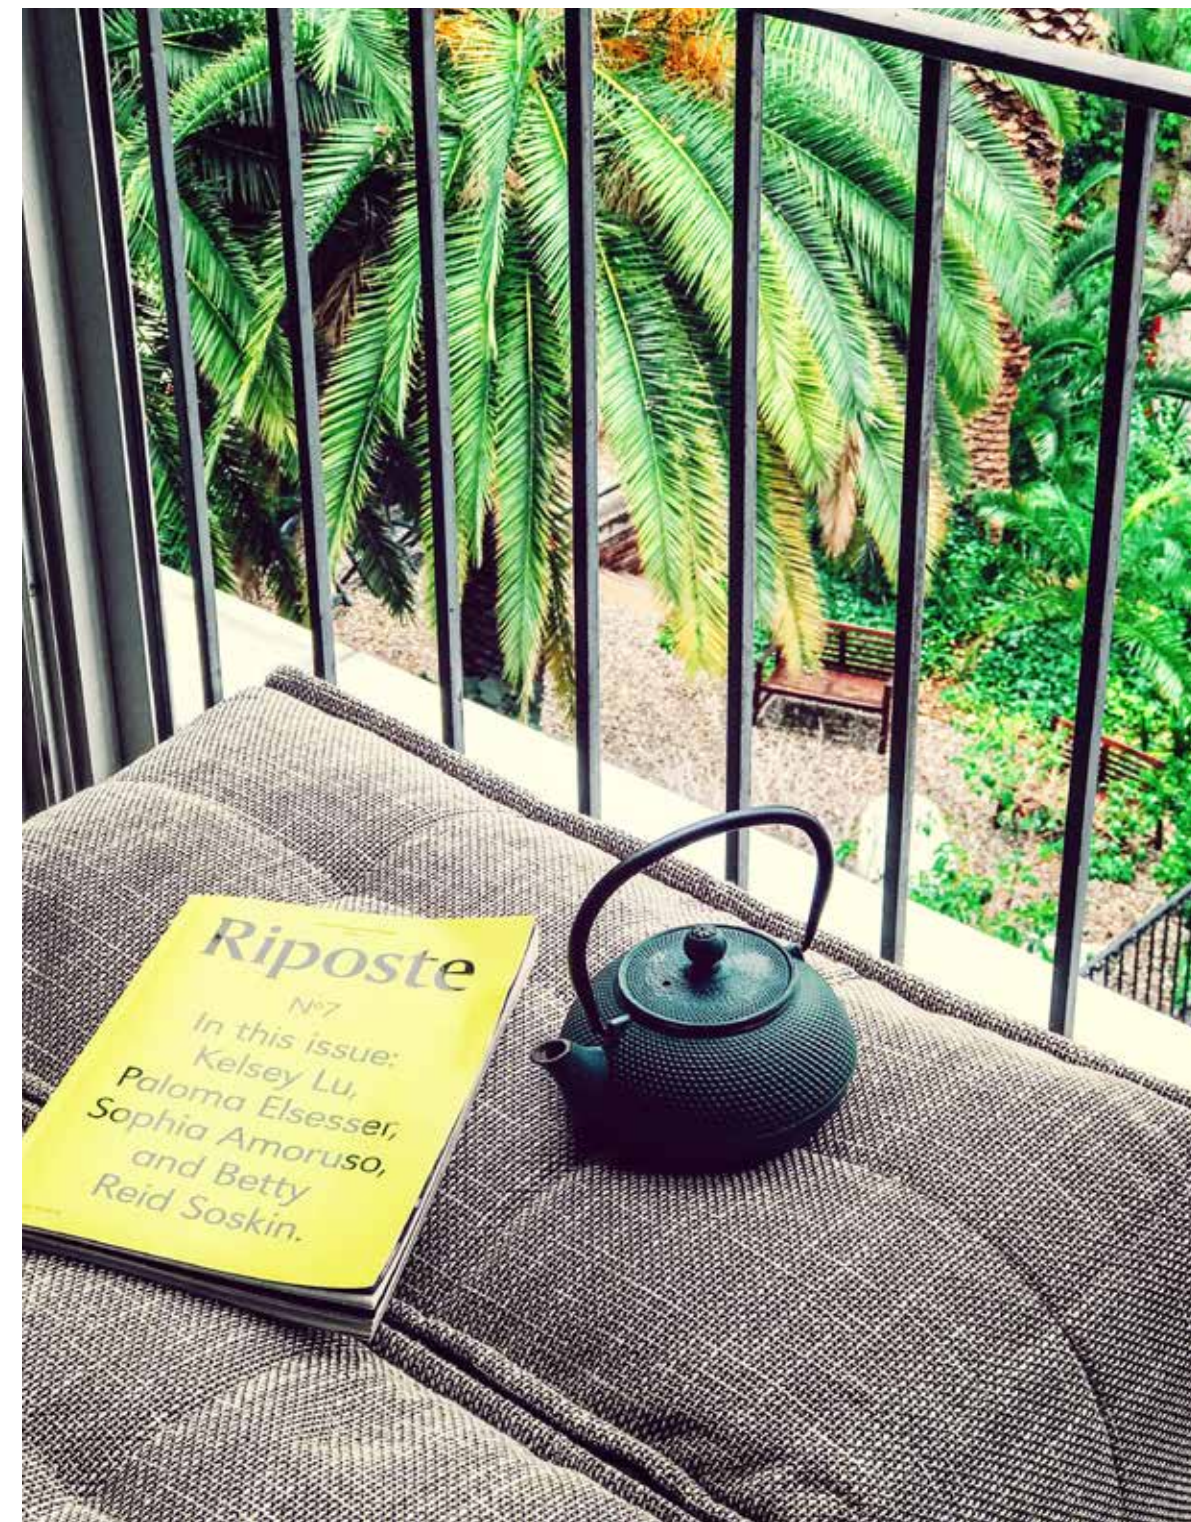

Our game-changing **Gold Class™** Interiors range — including such pieces as the Butterfly Sofa and Twin Couch — combines high-end fabrics, **Ambi-Spring™ internal elastics system**, uber-thick quilting and special multibead compartments to keep the form and shape of your bean bag, whilst retaining the amazing comfort of bead filling. It is the hundreds of internal elastic points, conceptualised by their youthful team of interior designers, that make these bean bags extraordinary. Hand-made, measured and manufactured with great precision, these elastics are meticulously designed to give the bean bags superb structure & back support as well as stand-alone aesthetic beauty.

Sitting is believing. With Ambient Lounge, bean bags have truly evolved into a new category of designer bean bag furniture. We strive to cater to emerging sophisticated contemporary indoor and outdoor markets as our western café society and home cinema lifestyles rapidly change in this youthful era of technology.

Still don't believe us? Please check out the Ambient Lounge designer collection and fabrics for yourself. We are confident you will join the hundreds of thousands of interior designers, architects, commercial developers, celebrities and home consumers who have discovered and loved this beautiful soft furniture brand.

# four components. endless possibilities

The comfort of a bean bag, the style & structure of a high-end lounge suite.  
This is **designer modular lounge furniture** made for a better quality of living (room).

Configure, add & arrange to suit your unique space.

# beauty. balance. support.

1

## **TENSILE ELASTIC STRUCTURE.**

Design simplicity can be complex. With our intricate internal elastic support, our loungers are soft but sturdy.

2

## **LUSH QUILTING.**

Our quilted interior creates the gorgeous form that interior designers love.

3

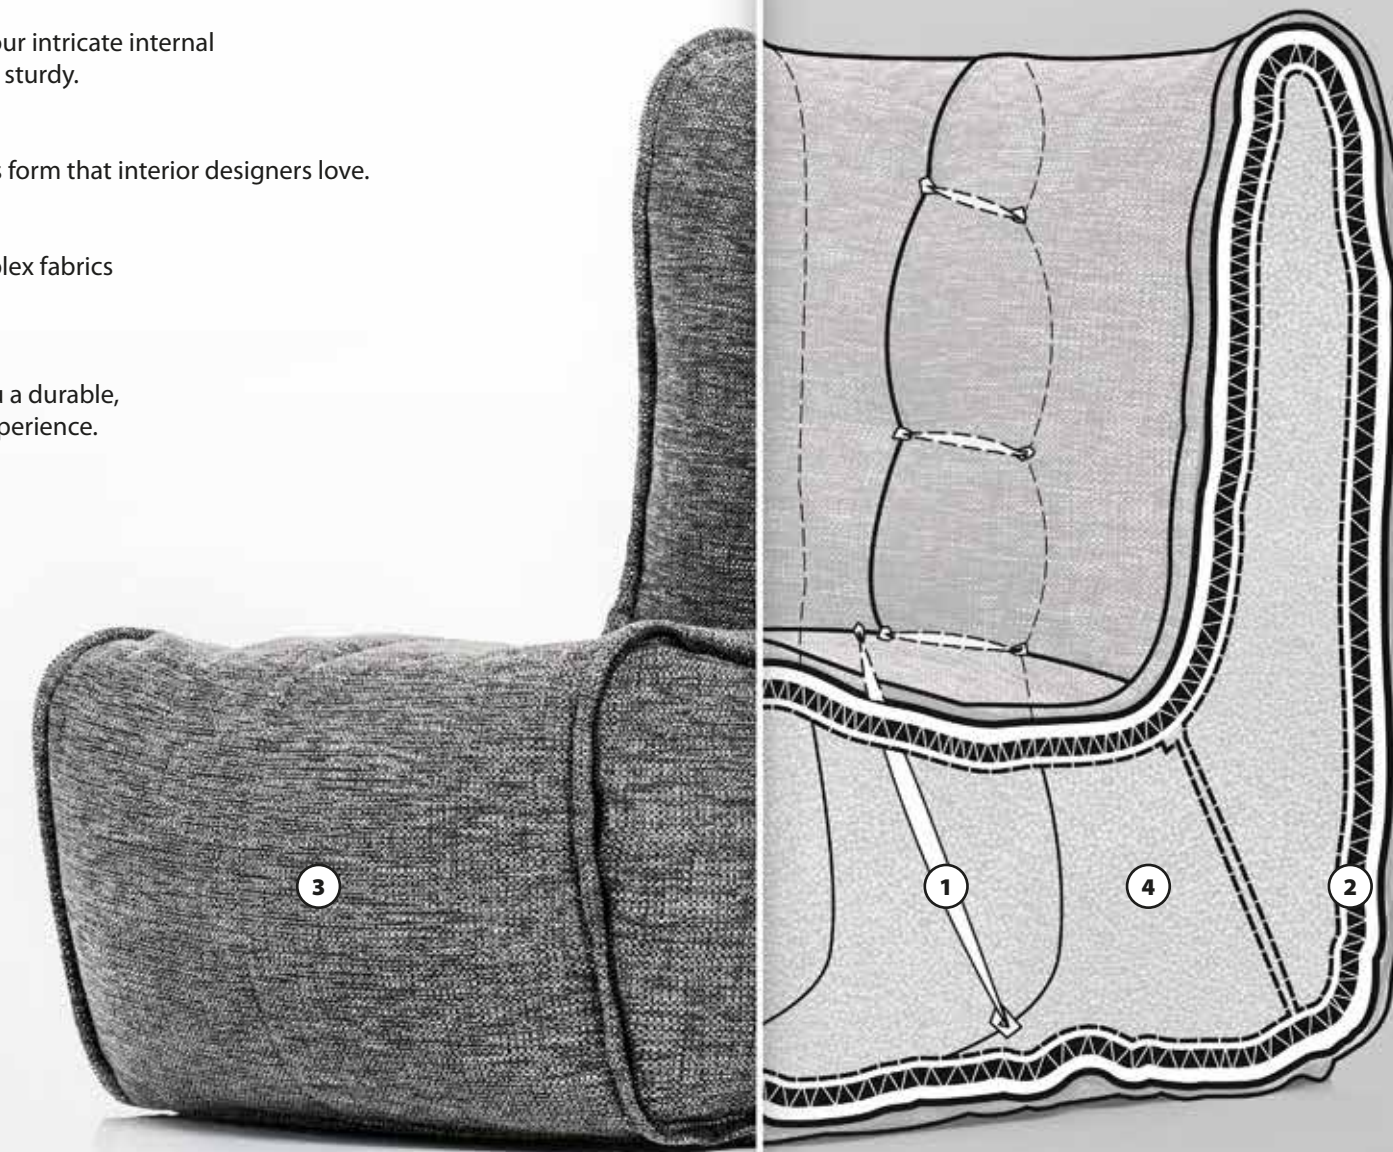

## **PREMIUM FABRIC.**

We make our furniture with tactile, complex fabrics designed for confidence & longevity.

4

## **ULTRA-BEAD CENTRE.**

50% smaller, high density beads give you a durable, quieter & more comfortable lounging experience.

# light in weight. heavy on comfort

You don't have to be Superman to pick up your sofa and rearrange your lounge room.  
Our pieces weigh just 6 – 16kgs for flexible living spaces.

**80%** lighter than a  
traditional sofa

**10kg** average  
component weight

**22kg** our three person  
modular sofa

## quilty pleasure

**Luxury waits beneath the surface.** It's heavenly to sink into a thick cotton quilted layer + sensual ultra-bead centre. We dare you not to fall asleep in yours.

not  
just for  
adults

**SOFT EDGES.**

Your kids are safer. Inevitable jumping & playing carries less parental stress than solid frame furniture.

**YKK SAFETY LOCKING ZIPS.**

So beads can't be accessed by adventurous toddlers.

**FIRE RESISTANT FABRICS.**

Commercial grade materials that exceed fire standards.

**EASY CLEAN.**

Most domestic spillages can be spot cleaned or gently machine washed from our removable covers.

## blissful tactility

**Ain't no fabrication.** We custom design and manufacture our gorgeous Ambient Lounge® fabrics from the yarn, so you enjoy complex, durable weaves. A sensual experience traditionally reserved for high-end furniture.

# ready-to-lounge sets

We've made choosing your lounge configuration easy with our most popular modular sets **pre-filled & ready to go.**

A large, green, tufted beanbag chair sits on a beach covered in smooth, dark grey and black stones. In the background, a calm blue lake stretches to the horizon, with dark, silhouetted mountains under a clear blue sky with a few wispy clouds. The scene is brightly lit, suggesting a sunny day.

# a revolution in designer furniture

With modern time comes great change. Western home lifestyles have evolved to integrate epic home cinema rooms, casual café living & beautiful sweeping outdoor spaces. Consequently, Ambient Lounge® have forged a new, highly relevant category of soft furniture that has now slipped squarely into mainstream modern furniture tastes, for commercial use and home consumers alike.

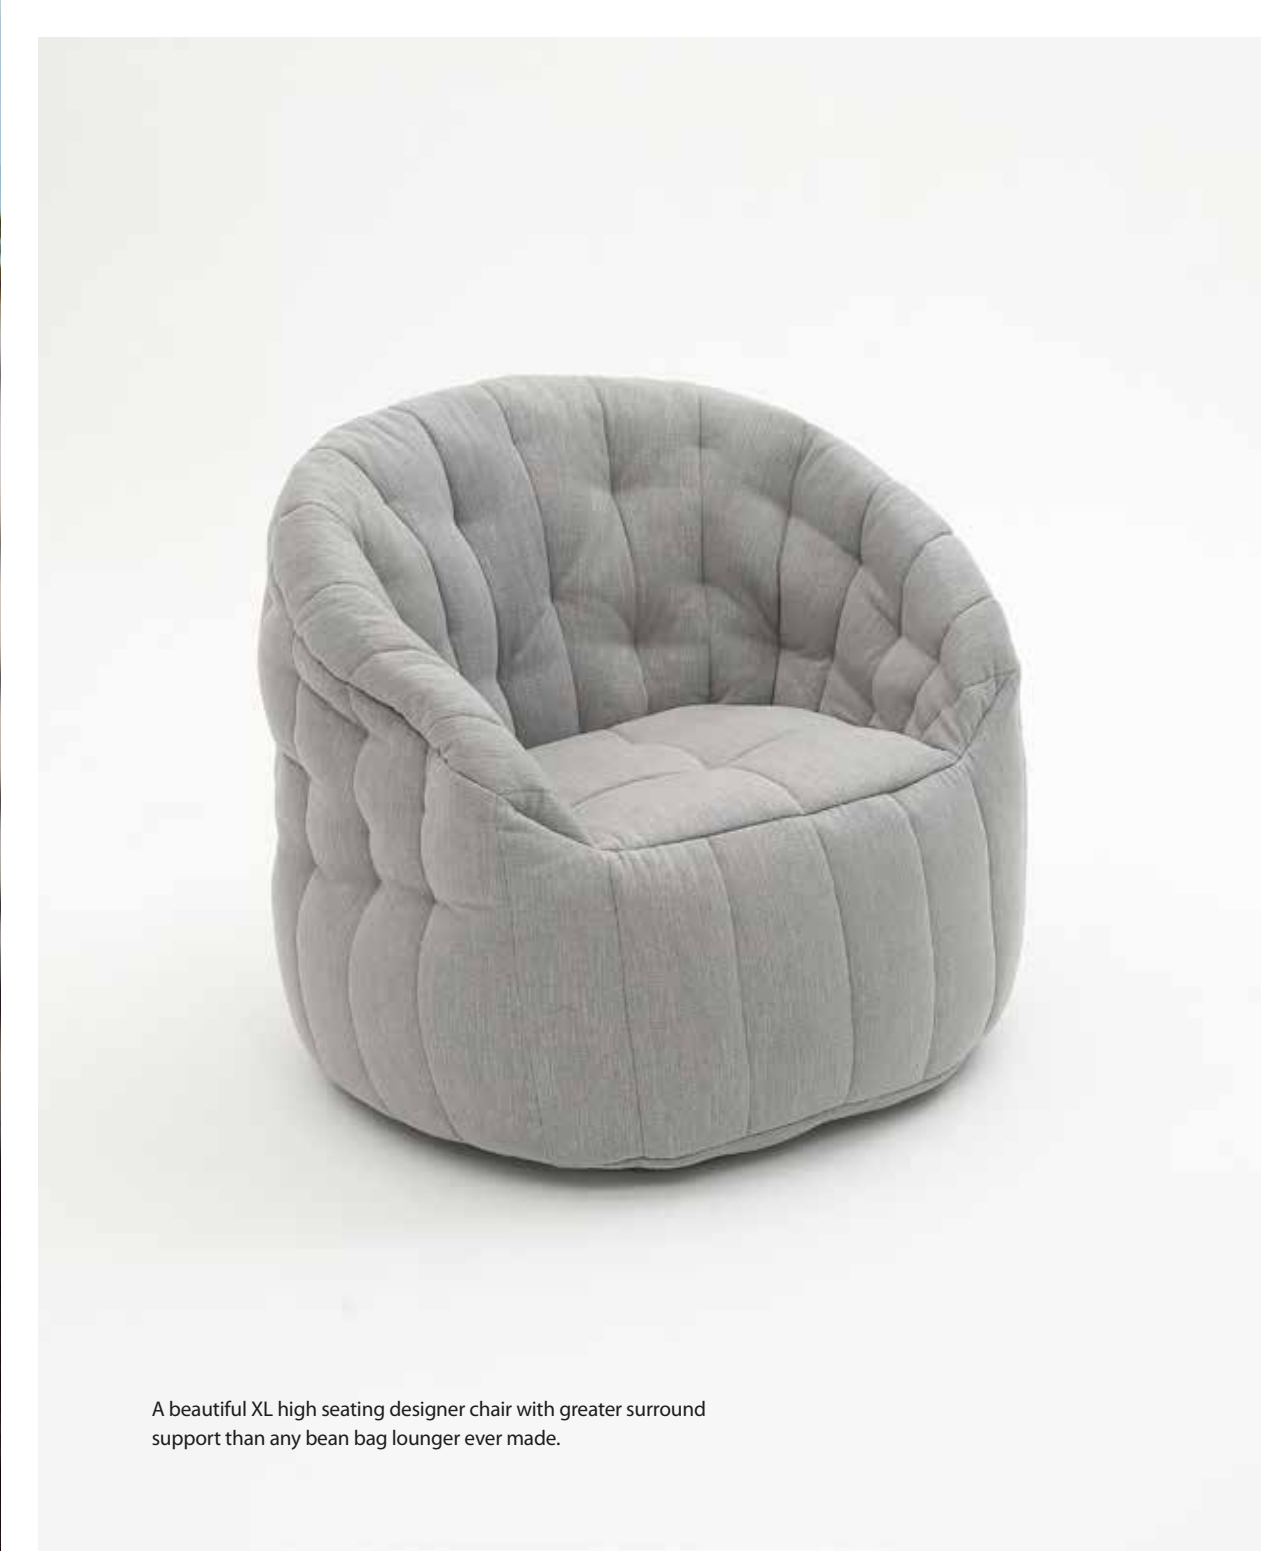

Behold the pioneers of the designer bean bag for contemporary interiors and the great outdoors.

Ambient Lounge® is an Australian-designed brand of casual furniture with distribution in over 20 countries globally. These beautiful products are manufactured in Asia under stringent company-owned QC supervision to retain the highest quality standards, value and consistency.

Every detail counts. The fabric, packaging, presentation and comfort is nothing short of stunning. You only have to sit and sip a glass of wine in one of their Butterfly Sofas to understand just why interior designers and industry leaders are buzzing about the range.

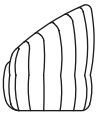

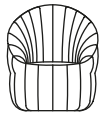

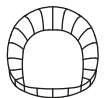

Make the most of your ever-diminishing leisure time on a designer piece from the **Gold Class Collection**.

A beautiful XL high seating designer chair with greater surround support than any bean bag lounge ever made.

# fabrics & materials

All Ambient Lounge® materials are carefully selected by leading interior and exterior design consultants to be in harmony with the new direction in homewares. Fabrics are chosen on their aesthetic beauty, tactility, function, durability and value and are designed to work with the form of each sofa piece to compliment your contemporary and classic décor.

For simplicity of segmentation, we have divided the categories into **Interiors™** (for indoor) and waterproof **Elements™** (for outdoor/indoor) use.

**interiors™**

All Interiors™ products are manufactured with absolute premium quality sofa weave fabrics. These tactile, durable and beautiful materials are made for hard wear and contemporary lounge room living.
