## BRACELET SIZE GUIDE

Important: Before measuring your bracelet size, be sure this guide is printed in US Letter size and scaled to 100%. You can check the accuracy of your print by measuring the ruler at the bottom of the page.

*Unfortunately, this does not print accurately on some web browsers - please always measure ruler to check!*

Cut out this ruler and wrap it tightly around your wrist bone to find your wrist measurement. We recommend adding 1/2 inch for your correct bracelet size. When measuring in between sizes, it is best to round up so that it is not too tight.
