

USER GUIDE AND INSTALLATION MANUAL

1 TOUCH ECO FAN LOW/HIGH CONTROL MODULE

Use the Push Button ECO Fan Low/High Module to control your heater fans with a push of a button!

A great tool to use with one of our etched Billet Buttons

IMPORTANT INFORMATION!

- 1** You must use relays on ALL outputs except for Status LED output.
- 2** All outputs are negative trigger.

Unit Operation

Low Fan Output

1. Press button (Blue Input) for 1 second to turn on fan Low output.
2. Press button again (Blue Input 1) for 1 second to turn off fan Low output.

High Fan Output

1. Press button (Blue Input) for more than 3 seconds. Fan High will activate.
2. To turn Fan off, Press & hold button (Blue Input 1) for more than 3 seconds.

Settings

- A. Press button 1 for five seconds to enter programming mode. Digital display will illuminate.
- B. Press buttons 2 or 3 to scroll through modes. Press button 1 to choose the desired mode to change. (1 through 9) the chart to the right shows recommended settings.
- C. Press buttons 2 to 3 to adjust selected mode value. The chart to the right shows recommended settings.
- D. Press button 1 to save your settings.
- E. Repeat steps 2 through 4 until all modes have desired settings.
- F. Wait for 15 seconds to allow the unit to auto exit program mode.
- G. Push the button to test operation. Adjust mode settings until you are satisfied.
