# **USER GUIDE AND INSTALLATION MANUAL**

**POWERLOCK KEYLESS ENTRY KIT 6** 

Our Powerlock keyless Entry kit converts your classic car into a Remote keyless entry system.

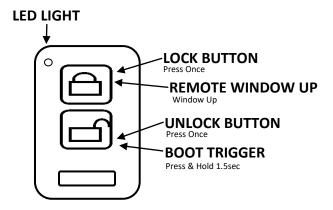

The Remote Keyless Kit are the latest technology from BWA & Bluewire Automotive Australia.

## IMPORTANT INFORMATION!

Disconnect the battery before fitting.

Always best fitted by a professional auto electrician.

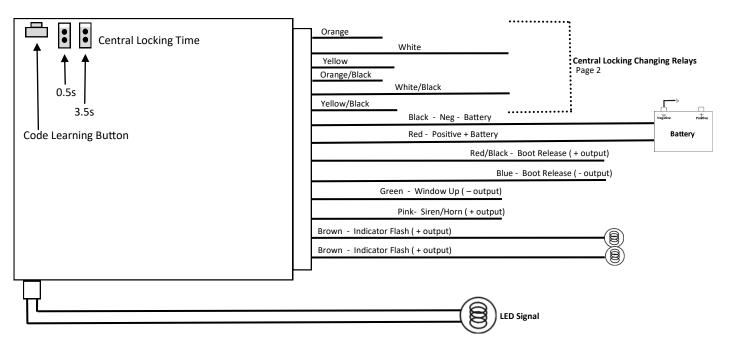

### **Unit Installation**

#### **Remote Code Learning Method**

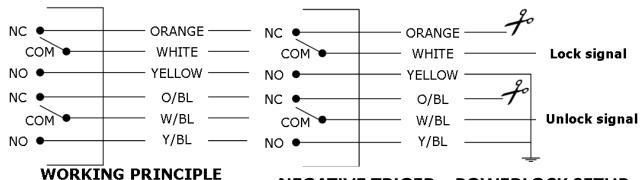

Make sure the keyless system is in unlock state. Press and hold the small learning button on the right side of the module, the indicators lights will flash then release the button then you're ready to set in the pre learning state.

Press any button on the remote transmitter; the indicator will flash confirming that the code is learnt successfully. Repeat conducting the above operations up to 3 remote controls.
