

Installing Your Landscape

Making your landscape plans into a reality is the best part - but it can be overwhelming! To help, organize your tasks in the order you need to do them. Customize your timeline to match what needs to be done, and skip anything that isn't needed.

Project Timeline

Phase	Phase Description	Details
1. Clean up	Removal of unwanted trees, plants, and debris	
2. Site prep	Leveling, grading, or heavy equipment work	
3. Construction	Building elements like patios, raised beds, and porches	
4. Installation	Installing features like outdoor lighting, planting bed edging, and irrigation lines	
5. Soil prep	Amending the soil and tilling	
6. Planting	Trees, shrubs, and potted plants	
7. Finishing Touches	Mulching, placing outdoor furniture, fire pit etc.
