

Congratulations on your purchase of a Rig'Em Right® Hydeout™ Go. For your safety, please read all warning information below prior to using this product.

WARNING!!!

- This blind contains fire resistant material, but it is not flame proof! Do not allow any heat or open flame to contact any part of this blind or it may catch on fire and cause injury or death!
- Do not use a heater or any device that produces fumes near this blind. Unvented fumes can cause injury or death!
- Do not allow children to play with this blind without adult supervision!
- Never cover your face with any part of this blind as it may cause suffocation or death!
- Do not shoot through this blind with a gun or arrow. It is not a “shoot-through” style blind!

Carton Contents:

- Carrying Case
- HydeOut™ Go Blind
- Metal Tent Stakes

Directions for Use:

To use, remove blind from carrying bag. Either press out the hubs or pull them out with the straps until they pop into place. Use the provided tent stakes, located in the outside pocket of the carrying case, to secure the blind firmly to the ground in windy conditions. Open windows and secure them to the inside of the blind with the plastic hooks to prevent them from flapping in the wind. To close the blind, simply pop the hubs toward the inside of the blind. You can stuff the collapsed blind back into the carry case or secure it closed with the integrated strap and buckle for quicker run-and-gun situations.

We hope your Rig'Em Right® HydeOut™ Go blind helps keep your freezer full of delicious wild game. Please post pictures using hashtag #RigEmRight and be sure to checkout more products at RigEmRight.com.

Thank you!
