

# NATURAL E3 Nano Silver Mineral Supplement

## IMMUNE SUPPORT

Silver has been historically used for centuries to treat a variety of ails. Today, many people turn to silver as a natural alternative because it's effective and safe.

We recommend keeping a bottle in your handbag, your car, your home, your bathroom cabinet, your backpack, and even your gym bag! It's a great way to shield yourself from germs and to assist in general health.

Germs are everywhere. Especially on door handles and any areas you or others touch frequently. Simply spray Nano Silver on surfaces and wipe clean, or spray Nano Silver directly onto your own hands.

***Daily Immune Support &  
External Germ Defense -  
Essential for Every First Aid Kit  
and Medicine Cabinet.***
