

PRODUCT INTRODUCTION

The **Saeco SE** caters to small to medium-sized environments with its intuitive touch screen, modern design, and cafe-quality coffee experience. Its easily removable milk system with a concealed milk tube ensures convenient cleaning and safety, making it an ideal addition to any setting.

Dual boiler and piston pump prioritize speed, capacity, and volume, enabling simultaneous coffee and milk production.

Fresh milk system delivers exceptionally smooth microfoamed milk with adjustable temperature settings and programmable automatic flush milk cleaning.

10.1-inch touch screen, allows customization of up to 30 drinks and the option to upload drink recipes, images, and branding via USB.

Ceramic coffee grinding blades for longevity and reduced noise, this machine ensures the perfect crema, aroma, and taste in every cup.
