N/C = Not Compatible

1 Original style basket with integrated instrument holders on bottom

2 New style basket with flat bottom

3 Recessed models

* According to the manufacturer, in order to obtain full cassette coverage it may be necessary to overfill the tank. Ensure the water does not exceed the lip of the plastic bezel inside the tank. Filling the tank beyond the marked fill line, but under the lip of the plastic bezel, will not void their standard warranty.

** With modified racks
