INSTRUCTION MANUAL

**AQUANERO**

---

Thank you for purchasing this AQUANERO watch. The following instructions are provided to help you familiarize yourself with the proper operation and care of your AQUANERO watch. To ensure correct use, please read and follow the instructions carefully.

# AQUANERO

## WINDING THE MAINSPRING

1. Normal position **A**
2. Unscrew the crown and turn the crown clockwise to wind up the mainspring.
3. Wind 15 ~20 times clockwise until second hand starts to move naturally, and screw in the crown.

# AQUANERO

## SETTING THE TIME

1. Normal position **A**
2. Unscrew the crown and pull the crown to the **B** position.
3. Turn the crown to set the hour and minute hands.  
(Check that AM / PM is set correctly)
4. Push the crown back to the **A** position and screw in the crown.

\*The 24-hour hand movement is linked with the center hour and minute hand.

## PRECAUTIONS AND PREVENTIVE MEASURES

### **Temperature**

Do not expose your watch to sudden temperature changes (exposure to sunlight followed by immersion in cold water) or extreme temperatures [over 60°C (140°F) or below 0°C (32°F)].

### **Magnetic Fields**

Do not expose your watch to intense magnetic fields such as loudspeakers, portable telephones, computers, refrigerators, and other electromagnetic appliances.

### **Shocks**

Avoid thermal or other shocks as it may harm your watch. In the event of a violent shock please contact AQUANERO.

### **Care and Checks**

Clean the case and bracelet regularly using a soft cloth to prevent any corrosion caused by perspiration. To clean all water-resistant watches use a toothbrush and soapy water, and then dry with a soft cloth.

## AQUANERO

### **Water Resistance**

This watch is rated to 20ATM / 200M / 660 FT.

Water resistance of watches is rated based on laboratory pressure tests comparable to a swimmer or diver sitting still at that pressure level. However, many water-based activities involve a lot of movement and other environmental changes. These exceptions to how the watch was rated may challenge or defeat the water protection features of a water-resistant watch. The water resistance of a watch cannot permanently be guaranteed. It may be affected by the aging of gaskets or by accidental shock to the crown.

Never activate the time-setting crown and the pushers while the watch is underwater and make sure that the crown is pushed/screwed down tightly after every operation. Do not under any circumstances open the watch yourself.

We do not recommend subjecting our watches to hot tub or jacuzzi use.

**AQUANERO**

**International Warranty**

AQUANERO guarantees this watch for a period of TWELVE (12) MONTHS from the original date of purchase, with the exception of loss, theft, and damages resulting from ill treatment.

Any modification to your watch by the addition of non-original parts, or the substitution of parts with non-original parts will void your warranty.
