Note: In-School 3 and 4, we had planned to build 4 toilets each but due to the school administration's request and local co-ordinator's need analysis, we are building 8 toilets in each school.
The aerial distance from New Delhi to Jaipur is 241 km while the road distance between New Delhi to Jaipur is 268 km.

The road distance between Jaipur to Sikar District is 114 km.
The aerial distance from New Delhi to Jaipur is 241 km while the road distance between New Delhi to Jaipur is 268 km.

The road distance between Jaipur to Sikar District is 114 km.
Under Construction - School 4

Toilet and Hygiene Project for the Girl Child
Sewa Criteria for Identification of Schools:

1. Schools constructed on government legal land and the school authorities should provide up to date school construction documents.
2. No objection certificate issued by the governing authorities for toilet installations.
3. Unavailability of functional toilets in the school premises.
4. A higher ratio of girl students in the school.
5. Total strength of the school to be a minimum of 50.
6. Support from school authorities and local government/municipal bodies during construction and long term maintenance of the toilets.
7. Provision for water supply for the newly installed toilets or support from school/government/local bodies/individuals for making such a provision.
8. Provision for the sewage system.
9. Availability of space within the school campus for the installation of toilets.
