I. IMPLEMENTATION PHASE

Area of work: Mirzapur, Uttar Pradesh

In the month of March, we had conducted the need analysis for Google phase I project in 13 schools of Mirzapur district of Uttar Pradesh. (See Table 1) Construction of bio-toilets in six schools is completed. (See Figure 1 & 2) The remaining seven schools' construction work will be completed in another three weeks.

Total			933	1,839	2,772	17 Toilets 9 Urinals	25 Toilets	

II. Menstrual Hygiene

Area of work: Mirzapur, Uttar Pradesh

Menstrual Hygiene project is the next level of building toilets in government schools. Research shows that approximately 23% of adolescent girls drop out of school when they start menstruating and those who don't usually miss up to 5 days of school every month.

Sewa conducted a menstrual hygiene awareness session for young girls in Mirzapur Government schools. This was followed by a question and answer session on menstruation, as well as a health and hygiene awareness session for all the students.
