# Initial Need Analysis Data - West Bengal

---

There are several 'rights' given to citizens of India but the right to a safe, secure, and healthy life at home and in schools is not one of them. Thus, we believe a "Right to Sanitation Facilities", especially for our women and girl children who face several challenges everyday just to attend nature calls in a safe and secure environment, is much needed.

We are committed to providing such toilet facilities in communities, neighborhoods, and schools, where they are not available so that we can ensure both dignity and safety to women and girl children.

In West Bengal, we identified 3 schools which are in dire need of toilet facilities.

**Table 1: List of schools in West Bengal with the number of beneficiaries and number of toilets**
