

Master outdoor comfort with our  
TitanCover™ innovative pergola.

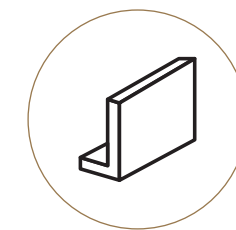

HIDEAWAY

# Introducing TitanCover™

## An HIDEAWAY Pergola

The TitanCover™ System represents the ultimate in strength, durability, and customization for outdoor shading solutions. Engineered to endure the harshest weather conditions, this system offers unparalleled protection, flexibility, and customized options for any outdoor space.

### MATERIAL

Engineered 6061 grade aluminum frame, guaranteeing durability and performance.

### BIO CLIMATIC

The design allows for natural airflow to optimize movement of air within the space.

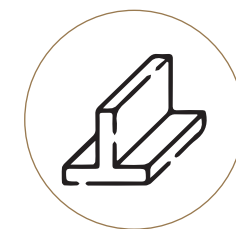

### WATER SEALED

Integrated gutter system channels water into posts, ensuring a dry outdoor space even during heavy downpours.

### REMOTE CONTROLLED

The motors are remote-controlled, offering a variety of angle profiles and adjustment and zone control.

### REINFORCED BEAMS

Optional reinforced beams to create long spans and withstand heavy snow loads, ensuring the system can remain closed throughout winter.

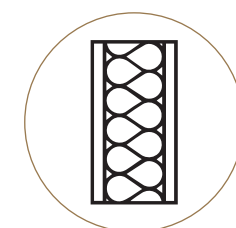

### ADD ONS

Additional accessories like fans, heaters and lighting can be seamlessly integrated to enhance your outdoor living experience.

### HURRICANE RESISTANT

Customizable to withstand hurricane-force winds, providing unmatched durability and safety.

### INSULATED LOUVERS

Our patented louver design is crafted from a robust gauge aluminum, featuring a hollow core design that provides an additional layer of insulation from heat and cold.

### RETRACTABLE SHADE

Optional retractable shade system powered by Phantom Screens, providing additional sun protection and privacy.

# Unparalleled Outdoor Living with TitanCover™

This system is the ultimate in outdoor comfort and protection. Its advanced sealing technology provides watertight safety from extreme sunlight, heavy rain, and snow. Enjoy natural ventilation control with louvers that open to 120 degrees for full sunlight or adjust to varying angles for soft, ambient light at sunset. This system combines modern design with precise sunlight management, ensuring industry leading comfort, protection, and aesthetic appeal for any occasion.

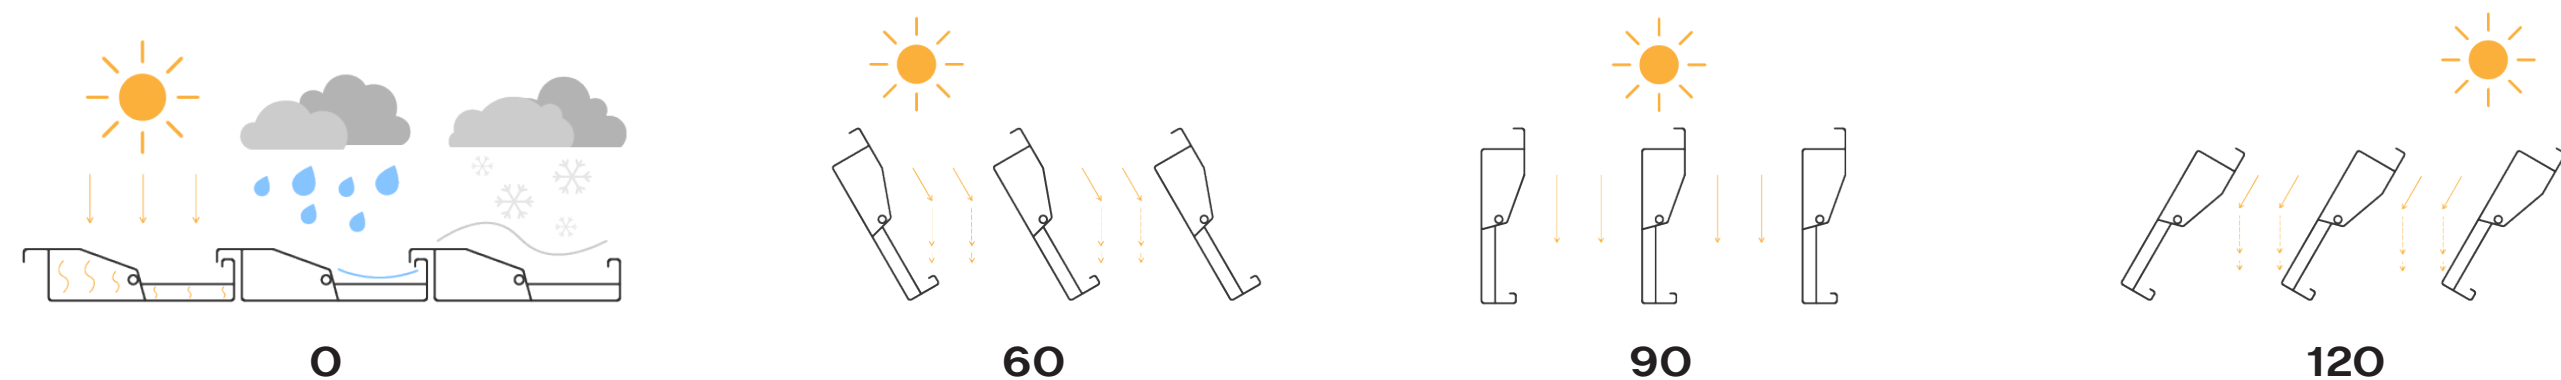

**Industry Leading Protection:** The TitanCover™ System offers watertight shelter from extreme sunlight, heavy rain, and snow. Its advanced sealing technology ensures complete dryness and shields your space from UV rays, preventing sun damage to furniture and flooring.

**Natural Ventilation Control:** Adjust the louvers up to 120 degrees for full, unobstructed sunlight and an open, airy atmosphere. Perfect for sunny days, this feature seamlessly blends outdoor and indoor spaces.

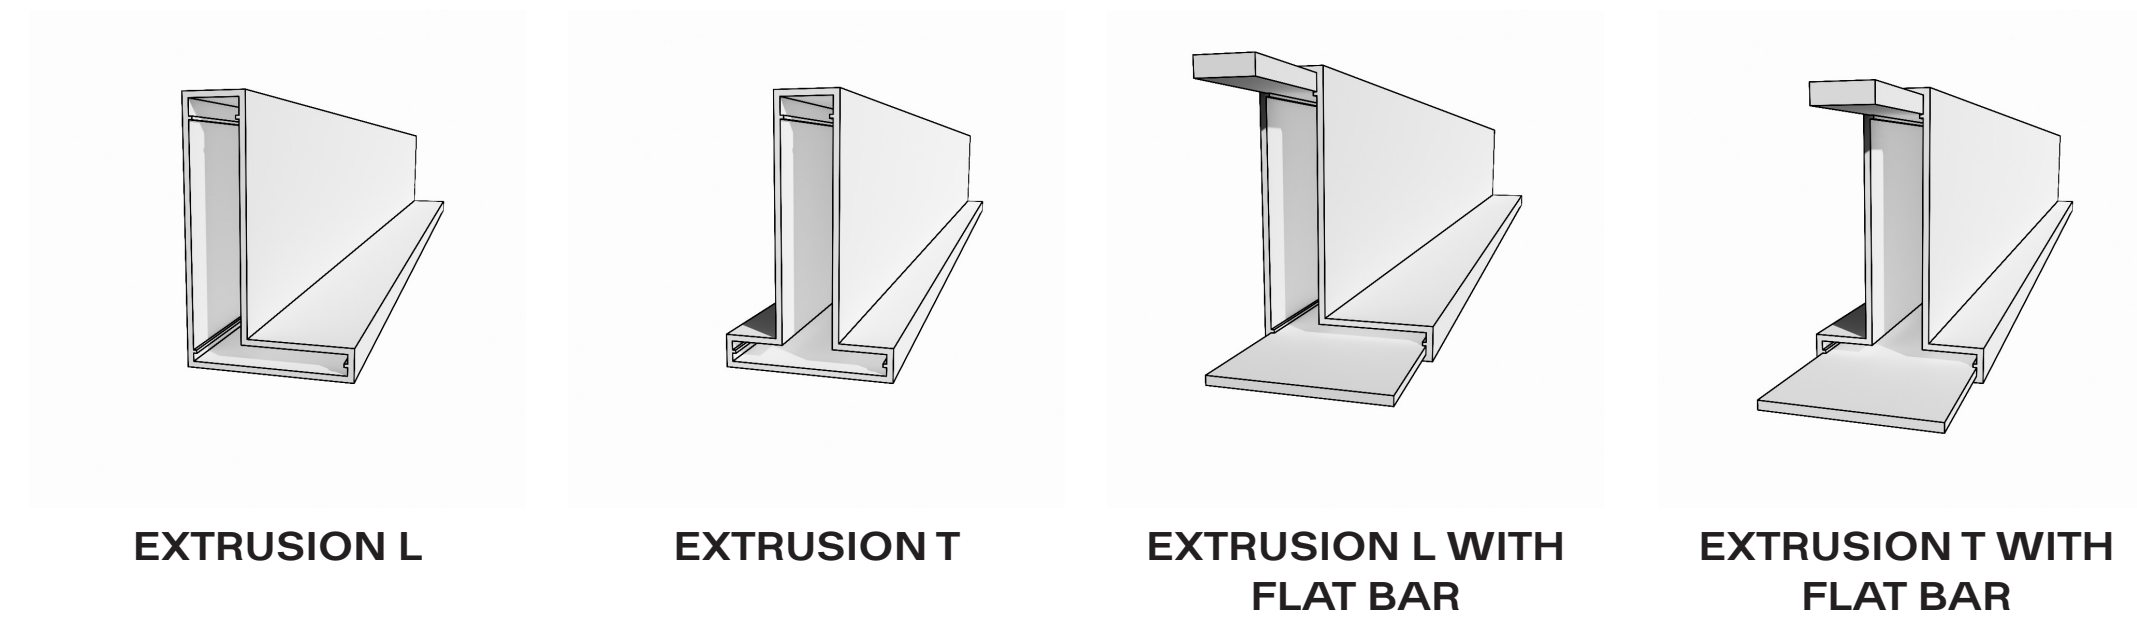

**Customizable Sunlight Angles:** Easily adjust the louvers throughout the day to manage light and heat. Tilt them for soft, diffused light at sunset, enhancing ambiance and protecting from glare and heat.

**Enhanced Comfort and Aesthetics:** Control sunlight and ventilation to create the perfect atmosphere for any occasion. The sleek louvers add a modern touch while ensuring comfort and protection in any weather.

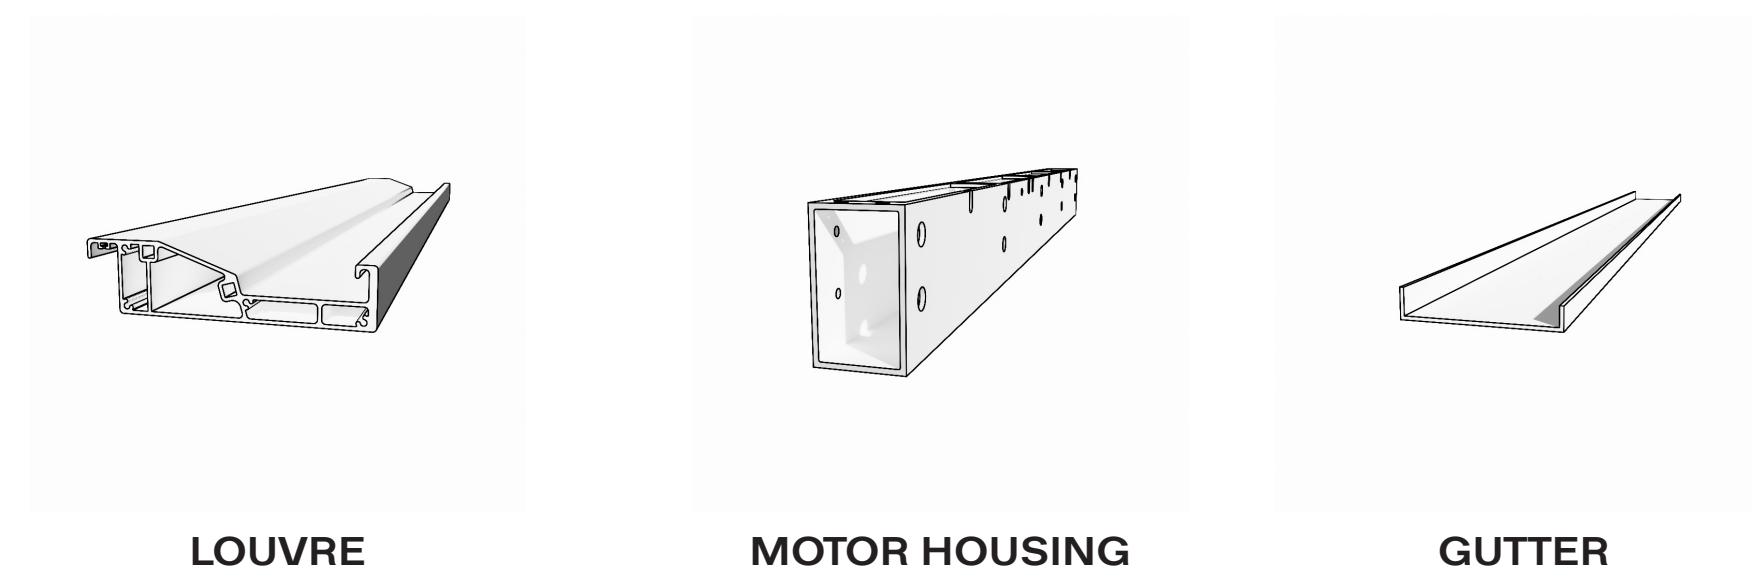

**Seamless Integration:** The TitanCover™ System can be enhanced with other **HIDEAWAY** products like privacy screens and side panels. These additions offer increased functionality and aesthetic appeal, allowing you to fully customize your outdoor space.

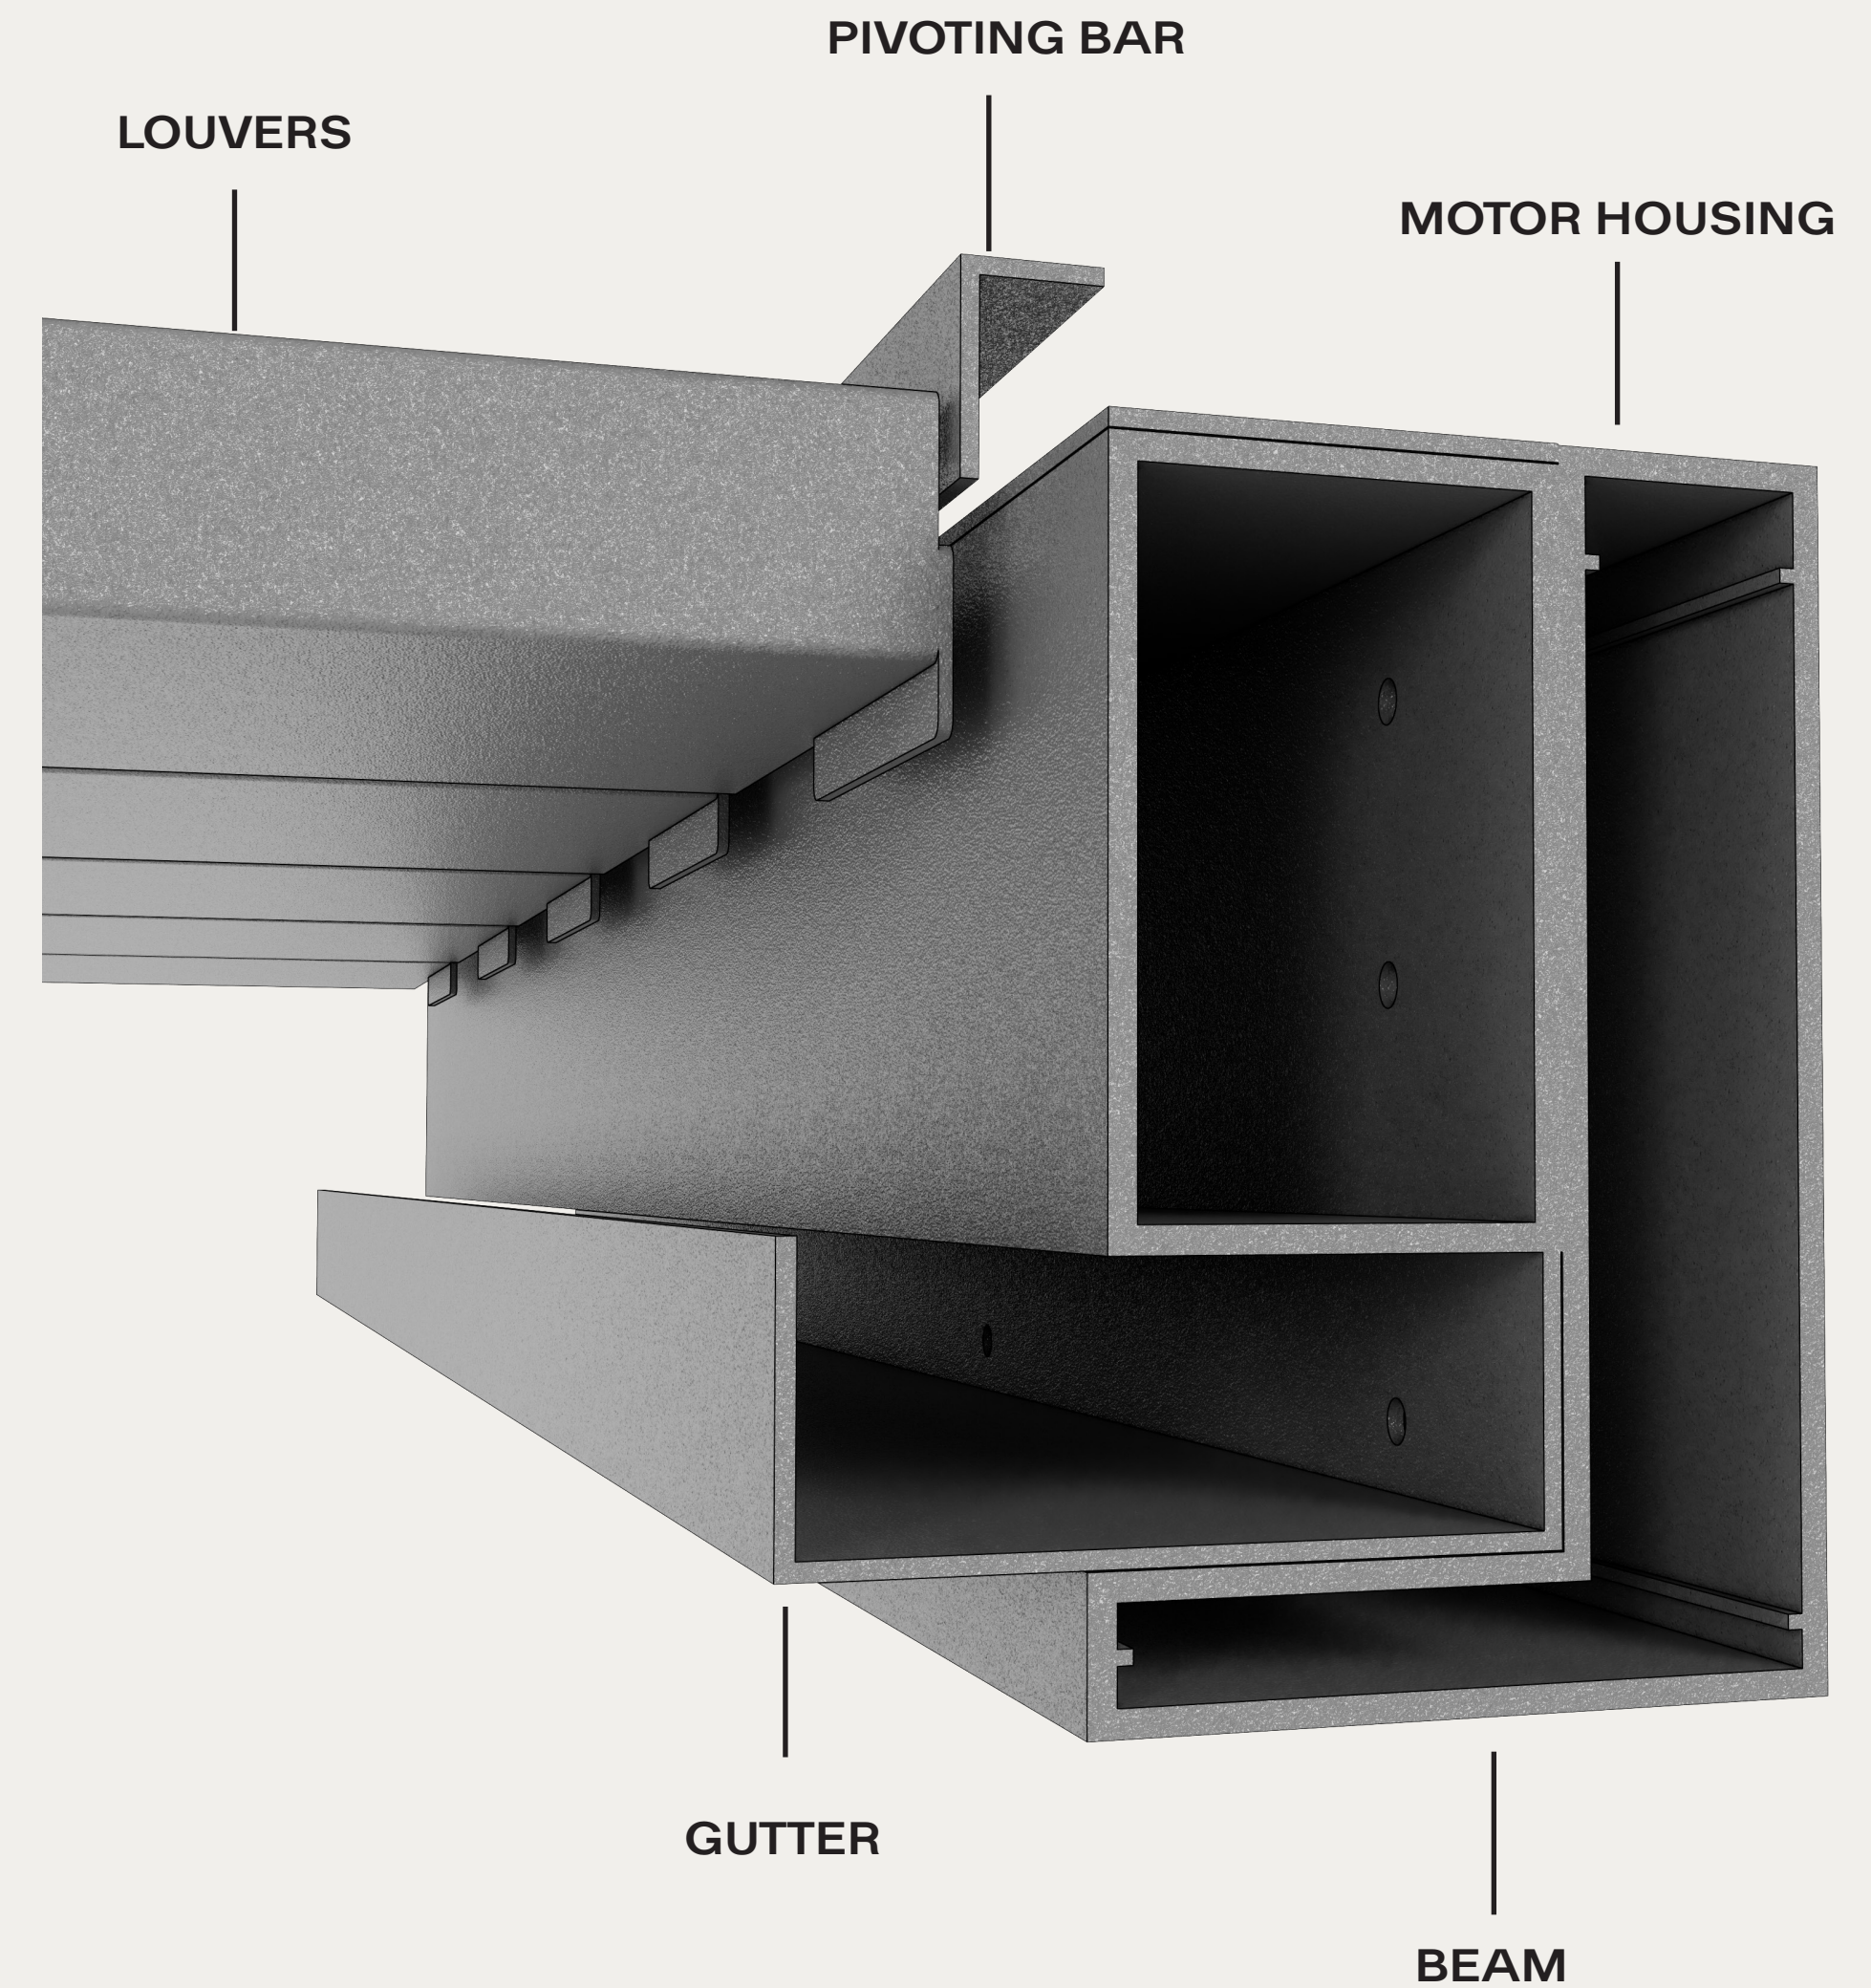

# Reinforced Beams

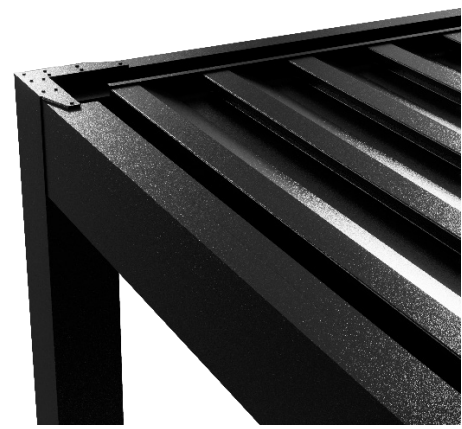

The T and L beams of the HIDEAWAY TitanCover™ Pergola System are made from 6061-grade aluminum, providing exceptional structural support. Engineered to handle heavy loads, they can withstand significant snow and wind at long spans up to 24 feet, allowing the pergola to remain closed all winter. The beams' clean lines and modern design enhance the pergola's aesthetic, complementing various architectural styles.

The system features an integrated gutter drain system to channel rainwater away, keeping your outdoor space dry even during heavy downpours. Made from high-quality, corrosion-resistant materials, it ensures reliable performance with minimal maintenance. The HIDEAWAY Motor Guard, a sleek aluminum enclosure, conceals motors and electrical components, providing a polished and unobtrusive appearance with easy maintenance access. The louvres, crafted from 6063-grade aluminum with a thicker gauge and hollow core design, offer insulation against heat and cold. Fully adjustable and controlled by the TitanGauge™ Control System powered by Somfy, the louvers allow precise control over sunlight and airflow, ensuring long-term reliability and aesthetic appeal even in extreme weather conditions.

# Finishes

Your products are chemically etched to enhance the bond of the powder coating. Our team electrostatically applies the powdercoat, followed by baking at over 400F for a durable finish. HIDEAWAY carefully selects powdercoat suppliers for uniformity, consistent adhesion, and UV resistance, ensuring lasting vibrancy in various climates.

# Optional Accessories

## Phantom Screens

Phantom Screens let you bring the outside inside – allowing fresh air and sunshine in while keeping bugs and pests out. And when you're done, they disappear into their custom casing.

## Eolis 3D WireFree RTS Wind Sensor

The Eolis 3D WireFree™ RTS Wind Sensor is a wireless, battery-powered wind sensor that will automatically retract an awning based on wind generated movements.

## Ondeis® WireFree RTS Rain & Sun Sensor

The Ondeis WireFree RTS Rain & Sun Sensor is a solar-powered, wireless sensor for RTS motorized exterior products. It uses optical technology to detect rain and sunlight, sending RTS commands when user-set thresholds are exceeded.

## Pergola Tilt Motor 150mm

A motor dedicated to tilting pergola slats to create livable space users can enjoy in any season. Operate them with LED lights or motorized screens.

## Soliris Sensor Combined Sun and Wind

The Soliris RTS Sun and Wind Sensor automatically controls RTS motorized products based on current weather conditions.

## TaHoma RTS Zigbee Smartphone and Tablet Interface

TaHoma® is a WiFi to RTS gateway that can control up to 40 RTS channels. Create scenes and schedules using an app while home or away, or integrate with third-party systems. TaHoma works with Google Assistant and Amazon Alexa, allowing for natural voice commands to control shades.

## Infratech Heaters

Infratech heaters provide versatile heating solutions in various profiles, sizes, and capacities, making them a preferred choice to enhance comfort in any outdoor living space.

# Why Choose HIDEAWAY?

## CUSTOM CAPABILITES

At HIDEAWAY, our advanced laser cutting and pan bending techniques using high grade aluminum ensure personalized, rust-free products with unmatched strength. We back our offerings with a limited lifetime warranty, guaranteeing durability and quality.

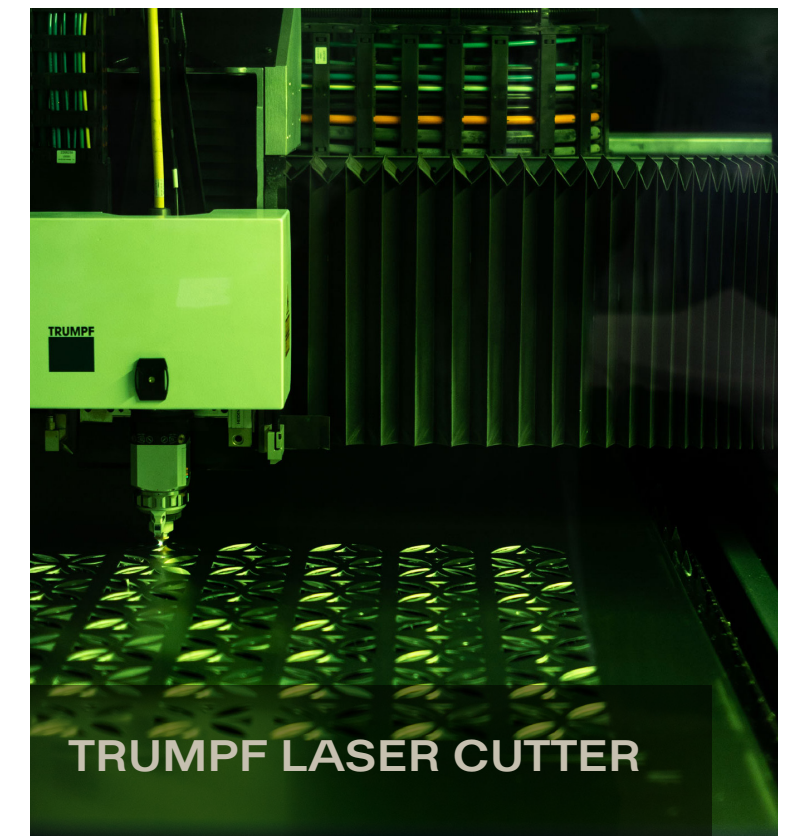

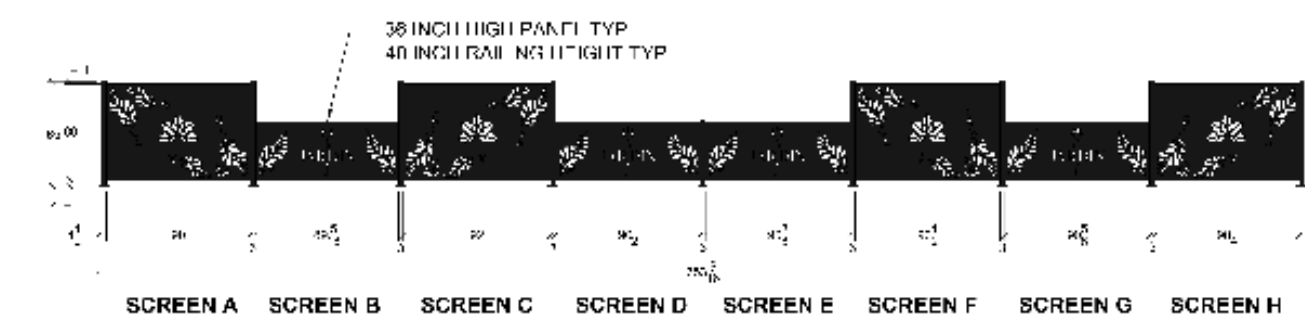

## FREE DESIGN CONSULTS

Our design team specializes in 2D and 3D renderings to bring your vision to life. After understanding your project basics, we conduct a brief phone consultation to create a tailored design proposal and estimate. With us, you embark on a collaborative journey from vision to reality.

## SHIPS DIRECT

For custom projects, we provide a detailed shop drawing for your approval. Depending on complexity, the lead time is 4-6 weeks, ensuring meticulous attention to detail and excellence delivered to your doorstep.

## HIDEAWAY **PRO**

HIDEAWAY specializes in premium aluminum privacy solutions for outdoor spaces, sold directly to customers to avoid retail mark-ups. This ensures top-quality products at competitive prices with excellent service. The HIDEAWAY PRO initiative offers industry professionals personal support, exclusive design services, curated products, preferential pricing, and business-boosting perks. With HIDEAWAY, you're creating a stunning outdoor oasis designed to last through countless summers.
