Peppermint
*Mentha Piperita Essential Oil*

Peppermint is wonderfully cooling and refreshing and is used to stimulate the mind and increase focus. Peppermint’s specific properties can also aid in stomach discomfort.

Size: 15ml
Size: 5ml

**Primary Benefits**
Works as a natural bug repellent, Relieves anxiety, Aids in healthy respiratory function and clear breathing, Aids in digestive health, Aids in oral health, Aids in relieving head tension and stress.

**Description**
Peppermint oil is great for mental fatigue and depression, renewing the spirit, and stimulating mental agility and improved concentration. Peppermint has a high menthol content which is why it is so commonly found in toothpaste and chewing gum. Peppermint is commonly used to aid in stomach discomfort and well as healthy respiratory function. It helps combat headache, migraine, nervous stress, vertigo and faintness. It can also be used to relieve skin irritation and itchiness while also reducing skin redness where inflammation is present. Peppermint can also be used to promote healthy oral hygiene.

**Directions for Use**
**Diffusion:** Use three to four drops in a diffuser
**Internal use:** Dilute one drop in 4 fl. oz. of liquid
**Topical use:** Apply one to two drops to desired area. Dilute with Spark Naturals Carrier Oils to help with any skin sensitivity.
