O U T D O O R

### Step One

#### PRE-PLANNING & DESIGN

- Determine location of cabinets
- Specify Appliances, Countertops and Surround Material
- Install necessary utilities-gas, water, electrical drainage
- A minimum of 4" concrete or paver foundation is needed to support kitchen

### Step Two

#### INSTALL CABINETS

- Set cabinets in designated area
- Level, glue, and bolt cabinets together

### Step Three

#### CUT APPLIANCE OPENINGS

- Follow appliance manufacturers installation instructions
- Cut cabinets with a 4" or 7" diamond masonry blade
- Install doors and drawers in advance of stone installation

### Step Four

#### INSTALL APPLIANCES & COUNTERTOPS

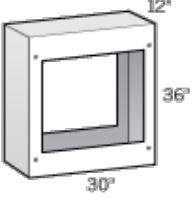

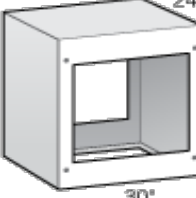

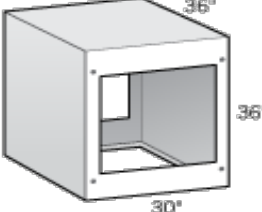

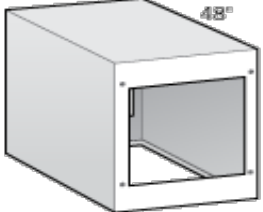

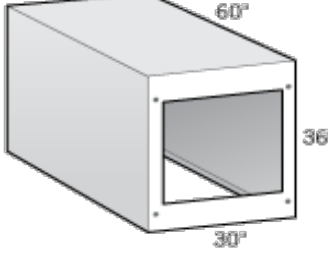

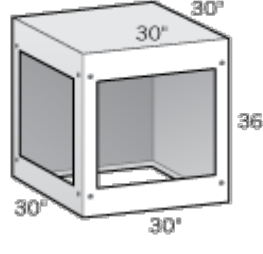

- Install appropriate outdoor countertop surface such as tile or granite
- If selecting a solid surface such as granite, it is recommended you work with a local fabricator

### Step Five

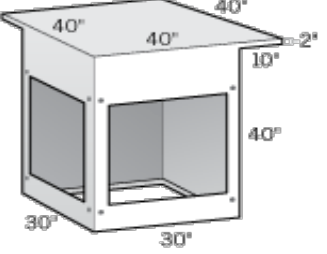

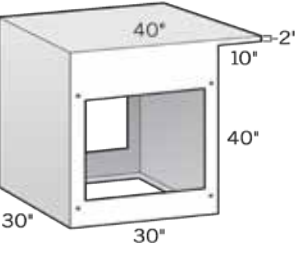

#### INSTALL FINISHING MATERIALS

- Install material directly to the pre-scratched cabinets
- Follow the recommended installation guidelines provided
